CONTENTS

1. LATEST GOVERNMENT WELFARE SCHEMES **1-4**

Ministry of Drinking Water & Sanitation, Ministry of Women and Child Development, Ministry of Finance, Ministry of Agriculture & Farmers Welfare, Ministry of Labour & Employment, Ministry of Human Resource Development, Ministry of Petroleum & Natural Gas, Ministry of Agriculture & Farmers Welfare, Ministry of Railways.

2. GOVERNMENT WELFARE SCHEMES/YOJANA **5-70**

Ministry of Agriculture and Farmers Welfare, Ministry of Food Processing Industries, Ministry of Consumer Affairs, Food & Public Distribution, Ministry of Health & Family Welfare and Ministry of AYUSH, Ministry of Drinking Water & Sanitation (MDWS) and Ministry of Earth Sciences, Ministry of Finance and Ministry of Commerce, Ministry of Coal and Ministry of Chemicals Fertilizers, Ministry of Civil Aviation, Ministry of Electronics & IT and Ministry of Communication, Ministry of Petroleum and Natural Gas, Ministry of Power and Ministry of Renewal Energy, Ministry of Minority Affairs, Ministry of Law and Justice, Ministry of Mines, Ministry of Panchayati Raj, Ministry of Rural Development, Ministry of Railways, Ministry of Road Transport and Ministry of Shipping, Ministry of Skill Development and Entrepreneurship, Ministry of Social Justice and Empowerment, Ministry of Science and Technology, Ministry of Textile, Ministry of Tourism, Ministry of Tribal Affairs, Ministry of Women and Child Development, Ministry of Water Resources, River Development and Ganga Rejuvenation, NITI Aayog, Department of Space, Ministry of Defence, Ministry of Housing and Urban Affairs, Ministry of Human Resource and Development, Ministry of Labour and Employment, Ministry of Heavy Industries & Public Enterprises, Ministry of Youth Affairs and Sports.

3. GOVERNMENT POLICIES & PLANS IN INDIA **71-100**

Women and Child Welfare Policies, Science and Technology Policies, National Policy on Education (NPE), Health Policies, Environmental Policies In India, Policies for Welfare of Minorities, Industrial Policies, Trade Policies in India, Infrastructure Policies, National Housing Policies, Agriculture Policies, Labour and Employment Policies

EBD_7894

LATEST GOVERNMENT WELFARE SCHEMES

CHAPTER 1

MINISTRY OF DRINKING WATER & SANITATION

Nal Se Jal Yojana (NSJL)

Launched: May 2019

Objectives: To provide Pipe Drinking water and Connections to every Household by 2024.

Salient Features of NSLY

- According to a 2018 NITI Aayog report, 600 million Indians face high to extreme water stress and about two lakh people die every year due to inadequate access to safe water.
- By 2030, the country's water demand is projected to be twice the available supply, implying severe water scarcity for hundreds of millions of people and an eventual ~6% loss in the country's GDP.
- Studies also show that 84% of rural homes have no access to piped water, with more than 70% of the country's water contaminated.

MINISTRY OF WOMEN AND CHILD DEVELOPMENT

Prime Minister's Overarching Scheme for Holistic Nourishment (POSHAN)

Launched: 8th March 2018

Objective: POSHAN Abhiyaan is India's flagship programme to improve nutritional outcomes for children, adolescents, pregnant women and lactating mothers by leveraging technology, a targeted approach and convergence

Salient Features of POSHAN

- More than 10 crore people will be benefitted by this programme.
- All the States and districts will be covered in a phased manner i.e. 315 districts in 2017-18, 235 districts in 2018-19 and remaining districts in 2019-20.
- To ensure attainment of malnutrition free India by 2022
- To reduce stunting
- To ensure holistic development and adequate nutrition for pregnant women, mothers and children.

MINISTRY OF FINANCE

Pradhan Mantri KIsan Samman Nidhi (PM-KISAN)

Launched: 24 February 2019

Objective: With a view to provide income support to all land holding eligible farmer families, the Government has launched PM-KISAN. The scheme aims to supplement the financial needs of the farmers in procuring various inputs to ensure proper crop health and appropriate yields, commensurate with the anticipated farm income.

Salient Features of PM-KISAN

- PM KISAN is a Central Sector scheme with 100% funding from Government of India
- It has become operational from 1.12.2018.
- Under the scheme an income support of Rs.6000/- per year in three equal instalments will be provided to small and marginal farmer families having combined land holding/ownership of upto 2 hectares
- Definition of family for the scheme is husband, wife and minor children.
- State Government and UT Administration will identify the farmer families which are eligible for support as per scheme guidelines.
- The fund will be directly transferred to the bank accounts of the beneficiaries.
- The first instalment for the period 1.12.2018 to 31.03.2019 is to be provided in this financial year itself.
- There are various Exclusion Categories for the scheme.

EBD_7894

MINISTRY OF AGRICULTURE & FARMERS WELFARE

Rashtriya Kamdhenu Aayog (RKDA)

Launched: 6 February 2019

Objective: The setting up of Rashtriya Kamdhenu Aayog will lead to conservation, protection and development of cattle population in the country including development and conservation of indigenous breeds.

Salient Features of PM-KISAN

- The Aayog will work in collaboration with Veterinary, Animal Sciences or Agriculture University or departments or organizations of the Central/State Government engaged in the task of research in the field of breeding and rearing of cow, organic manure, biogas etc.
- It will take up scientific activities for genetic upgradation and increasing productivity of cows.
- It will provide the policy framework and direction to the cow conservation and development programmes in the country and for ensuring proper implementation of laws with respect to the welfare of cows.
- Union Minister, in interim budget, announced that Rs 750 crore would be allocated for the Rashtriya Gokul Mission. Under the scheme, a 'Rashtriya Kamdhenu Aayog' would be set up.

MINISTRY OF LABOUR & EMPLOYMENT

Pradhan Mantri Shram Yogi Maan-dhan (PM- SYM)

Launched: 6 February 2019

Objective: Pradhan Mantri Shram Yogi Maan-dhan which was announced in the Interim Budget-2019 will be implemented from February 15, 2019 by the Ministry of Labour and Employment.

PM-SYM is a Central Sector Scheme administered by the Ministry of Labour and Employment and implemented through Life Insurance Corporation of India and Community Service Centers (CSCs). LIC will be the Pension Fund Manager and responsible for Pension pay out. This scheme seeks to benefit around 42 crore workers from the unorganized sector of the country.

Salient Features of (PM- SYM)

- The primary objective of the scheme is to offer financial security to the people with no economic backup facilities.
- Under this scheme, people working in the unorganized will be able to open their pension accounts and deposit money on a regular basis.
- Once the scheme matures, the person will be entitled to attain a monthly pension of Rs. 3000 without fail. It will help the pension holders to meet the financial requirements without any issues.
- The scheme highlights that the interested candidates will have to deposit a certain amount in the pension account. Applicants, who join the scheme at the age of 18 years, will have to make monthly contributions of Rs. 55 till they attain the age of 60 years.
- Along with the amount given by the worker in the pension chart, an equal amount will be contributed by the central government. The pension amount will be given after they reach the age of 60.
- The central government estimate suggests that the successful implementation of this mega pension scheme will offer financial support to around 10 crore individuals, who earn their livelihood from the unorganized sector.
- The scheme highlights that any interested applicant, who has attained the age of 18 years will be able to deposit money in the scheme till 40 years.
- Once the applicants reaches the age of 60 years; he/she will be able to reap the benefits of the scheme. Each month, a fixed pension amount will be deposited in the pension account of the individuals.
- The minister also highlighted that the central government has already set aside a mammoth amount of Rs. 500 crores for the implementation of this scheme.

MINISTRY OF HUMAN RESOURCE DEVELOPMENT

Operation Digital Board (ODB)

Launched: 20 February 2019

Objective: To have digital and interactive boards in every classroom so as to make the learning as well as the teaching process interactive.

Salient Features of (ODB)

- The digital board will be introduced all over the country in government and government aided schools from class 9thonwards as well as in higher education institutions, from the coming session of 2019 itself.
- University Grants Commission (UGC) will be the implementing agency for ODB in Higher Education Institutions (HEIs). It will be implemented as a Central scheme, as a loan from Higher Education Financing Agency (HEFA).

- At school level, Digital / SMART board will be provided in all Government and Government – aided schools by the Central Government in collaboration with the State and UTs.
- It aims at converting a classroom into a digital classroom.
- Ensure availability of e-resources at any time and at any place to students.
- Help in provisioning of personalised adaptive learning as well as Intelligent Tutoring by exploiting emerging technologies like Machine Learning, Artificial Intelligence & Data Analytics.

MINISTRY OF PETROLEUM & NATURAL GAS

Pradhan Mantri JI-VAN Yojana

Launched: 20 February 2019

Objective: Cabinet Committee on Economic Affairs has approved the "Pradhan Mantri JI-VAN (Jaiv Indhan- Vatavaran Anukool Fasal Awashesh Nivaran) Yojana" for providing financial support to Integrated Bioethanol Projects using lignocellulosic biomass and other renewable feedstock.

Salient Features of (Pradhan Mantri JI-VAN)

- "Pradhan Mantri JI-VAN Yojana" is being launched as a tool to create 2G Ethanol capacity in the country and attract investments in this new sector.
- It will be supported with total financial outlay of Rs.1969.50 crore for the period from 2018-19 to 2023-24. Under this Yojana, 12 commercial scale and 10 demonstration scale second generation (2g) ethanol projects will be provided a Viability Gap Funding (VGF) support in two phases.
- The scheme focuses to incentivize 2G Ethanol sector and support this nascent industry by creating a suitable ecosystem for setting up commercial projects and increasing Research & Development in this area.
- The ethanol produced by the scheme beneficiaries will be mandatorily supplied to Oil Marketing Companies (OMCs) to further enhance the blending percentage under EBP Programme.
- Centre for High Technology (CHT), a technical body under the aegis of MoP&NG, will be the implementation Agency for the scheme.

MINISTRY OF AGRICULTURE & FARMERS WELFARE

Zero Budget Farming:

- Intercropping is a scientifically proven practice and has got several advantages and extends economic benefits for the farmers particularly under adverse weather conditions. It is largely practiced in dry-land areas as an insurance against failure of main crop.
- Under All India Coordinated Research Project (AICRP) on Integrated Farming Systems, intercropping systems have been studied for many States and found profitable for farmers. Intercrops act as live mulch thereby reducing the weeds, water requirement and also providing additional returns to the farmers.
- Intercropping with leguminous crops is one of the components of Zero Budget Natural Farming (ZBNF) and it improves the crop productivity and soil fertility by way of fixing the atmospheric nitrogen. Further, the cowdung, urine based formulations and botanical extracts used in ZBNF help farmers in reducing the input cost.
- The farmers practicing ZBNF either of small land holding or large land holding prepare the low cost cow urine and dung based formulation on farm by procuring the required inputs locally from the village or neighboring villages.
- There is no specific time series data on disguised unemployment in the country as the phenomenon is not easily amenable to measurement. However, comparable time series data on employment and unemployment is available in the form of quinquennial Survey on 'Employment and Unemployment Situation in India' conducted by the National Sample Survey Office (NSSO).
- The latest available data as per the quinquennial Survey estimates indicated that workforce engaged in agriculture and allied sector has come down from 24.74 crore in 2009-10 to 23.18 crore in 2011-12, i.e., about 6 percent.
- The shift in workforce from primary (agriculture) sector to secondary and tertiary sectors is a normal phenomenon of the development process experienced by countries across the world and the same is true for India as well.
- The shift owes to changes in the nature and scope of work arrangements in the various sectors of the economy and the absorptive capacity of the non-agricultural sectors to accommodate fresh entrants as well as workers hitherto engaged in agriculture.
- Government has launched various schemes aiming to increase production and productivity which make agriculture sector more viable and thereby enhance labour productivity. Besides, Government has taken various steps for generating employment in the country like encouraging private sector of economy, fast-tracking various projects involving substantial investment and increasing public expenditure

EBD_7894

on schemes like Prime Minister's Employment Generation Programme, Mahatma Gandhi National Rural Employment Guarantee Scheme, Pt. Deen Dayal Upadhyaya Grameen Kaushalya Yojana and Deendyal Antodaya Yojana-National Urban Livelihoods Mission.

MINISTRY OF RAILWAYS

Operation Thirst

- Indian Railways have launched "Operation Thirst", as an all India drive to curb the menace of selling unauthorized packaged drinking water in railway premises.
- With the increase in the number of passengers traveling by railways (due to the closure of schools & festive/marriage season) during peak summer, the demand for drinking water also increases.
- The operation thirst drive was carried out in all major railway stations of the country on 8 and 9th July 2019.
- During the drive, 1371 persons were arrested by the railway protection force for selling of packaged drinking water of unauthorized brands.
- Stalls on platforms were also found selling packaged drinking water bottles of brands which are not authorized by the Indian Railway.

GOVERNMENT WELFARE SCHEMES/ YOJANA

CHAPTER 2

MINISTRY OF AGRICULTURE AND FARMERS WELFARE

National Bamboo Mission (Restructured)

Launched : July, 2018

Objectives

- To increase the area under bamboo plantation in non forest Government and private lands to supplement farm income and contribute towards resilience to climate change as well as availability of quality raw material requirement of industries. The bamboo plantations will be promoted predominantly in farmers' fields, homesteads, community lands, arable wastelands, and along irrigation canals, water bodies etc.
- To improve post-harvest management through establishment of innovative primary processing units near the source of production, primary treatment and seasoning plants, preservation technologies and market infrastructure.
- To promote product development keeping in view market demand, by assisting R&D, entrepreneurship & business models at micro, small and medium levels and feed bigger industry.
- To rejuvenate the under developed bamboo industry in India.
- To promote skill development, capacity building, awareness generation for development of bamboo sector from production to market demand.

Salient Feature of National Bamboo Mission

- Research and Development
- Plantation infrastructure development
- Production of Planting Material
- Area expansion under Bamboo
- Improvement of Existing Stock
- Technology Transfer & HRD
- Pest and disease management of bamboo
- Creation of Water resources
- Innovative Interventions
- Post harvest storage and treatment facilities for bamboo
- Establishment of marketing infrastructure

Pradhan Mantri Fasal Bima Yojana (PMFBY)

Launched: 18th February, 2016

Objectives

- The Pradhan Mantri Fasal Bima Yojana (PMFBY) is a scheme involving several stakeholders including State Governments, financial institutions, insurance companies and farmers, both loanee and non-loanee.
- It provides insurance coverage and financial support to the farmers in the event of natural calamities, pests & diseases.
- PMFBY stabilises the income of farmers to ensure their continuance in farming.
- It encourages farmers to adopt innovative and modern agricultural practices.
- The scheme provides for setting up of Technical Support Unit (TSU) with crop insurance expert to track and evaluate the scheme implementation.

Salient Features of PMFBY

- Under the scheme, farmers will have to pay a uniform premium of **2% for all kharif crops** and **1.5% for all Rabi crops**.
- 5% of sum insured for annual commercial and horticultural crops or **actuarial rate**, whichever is less.
- Actuarial rate is an estimate of the expected value of future loss. Usually, the future loss experience is predicted on the basis of historical loss experience and the consideration of the risk involved.
- The PMFBY replaces two schemes **National Agricultural Insurance Scheme** as well as the **Modified NAIS**.
- The difference between the premium paid by farmers and the actuarial premium charged was paid by the **Centre and state government in the ratio of 50:50.**

EBD_7894

- Under PMFBY, there will **no upper limit on government subsidy** and even if balance premium is 90%, it will be borne by the government.
- **Yield Losses;** due to non-preventable risks, such as Natural Fire and Lightning, Storm, Hailstorm, Cyclone, Typhoon, Tempest, Hurricane, Tornado. Risks due to Flood, Inundation and Landslide, Drought, Dry spells, Pests/Diseases also will be covered. Post-harvest losses are also covered.
- The use of technology like smart phones will be used to capture and upload data of crop cutting to reduce the delays in claim payment to farmers.
- Remote sensing, GPS, drones will be used to reduce the number of crop cutting experiments.

Previous Crop Insurance Schemes

- 1985- Comprehensive Crop Insurance scheme
- 1999- National Agricultural Insurance Scheme
- 2007- Weather based crop insurance scheme
- 2010- Modified National Agricultural Insurance Scheme

Sub-Mission on Agricultural Mechanisation

Launched: 2014-15

Objectives

Increasing the reach of farm mechanization to small and marginal farmers and to the regions where availability of farm power is low.

- Promoting 'Custom Hiring Centres' to offset the adverse economies of scale arising due to small landholding and high cost of individual ownership.
- Creating hubs for hi-tech & high value farm equipments.
- Creating awareness among stakeholders through demonstration and capacity building activities.
- Ensuring performance testing and certification at designated testing centers located all over the country.

Salient Features of SMAM

- **Promotion and Strengthening of Agricultural Mechanization through Training, Testing and Demonstration:** Aims to ensure performance testing of agricultural machinery and equipment, capacity building of farmers and end users and promoting farm mechanization through demonstrations.
- **Demonstration, Training and Distribution of Post Harvest Technology and Management (PHTM):** Aims at popularizing technology for primary processing, value addition, low cost scientific storage/ transport and the crop by-product management through demonstrations, capacity building of farmers and end users. Provides financial assistance for establishing PHT units.
- **Financial Assistance for Procurement of Agriculture Machinery and Equipment:** Promotes ownership of various agricultural machinery & equipments as per norms of assistance.
- **Establish Farm Machinery Banks for Custom Hiring:** Provides suitable financial assistance to establish Farm Machinery Banks for Custom Hiring for appropriate locations and crops.
- **Establish Hi-Tech, High Productive Equipment Hub for Custom Hiring:** Provides financial assistance to set up hi-tech machinery hubs for high value crops like sugarcane, cotton etc.
- **Promotion of Farm Mechanization in Selected Villages:** Provides financial assistance to promote appropriate technologies and to set up Farm Machinery Banks in identified villages in low mechanised states.
- **Financial Assistance for Promotion of Mechanized Operations/hectare Carried out Through Custom Hiring Centres:** Provides financial assistance on per hectare basis to the beneficiaries hiring machinery/ equipments from custom hiring centres in low mechanized areas.
- **Promotion of Farm Machinery and Equipment in North-Eastern Region:** Extends financial assistance to beneficiaries in high-potential but low mechanised states of north-east.

Zero Hunger Programme (ZHP)

Launched: 2017

Objectives

- It will be initiated by the Indian Council of Agricultural Research (ICAR) in association with the Indian Council of Medical Research (ICMR), the M S Swaminathan Research Foundation and the Biotechnology Industry Research Assistance Council (BIRAC). The concerned state government will also be involved in the programme.
- The program aims to address the intergenerational and multifaceted malnutrition through sectoral coordination.
- It will act as a model of integrated approach to deal with hunger and malnutrition.

Salient Features of ZHP

- It is a dedicated farm-based programme in sync with India's Sustainable Development Goals (SDGs) to end hunger by 2030
- It was launched in three districts, namely- Gorakhpur in Uttar Pradesh, Koraput in Odisha and Thane in Maharashtra, on 16 October 2017.
- These three districts would act as a model of an integrated approach adopting suitable agricultural/ horticultural practices.
- The programme consists of organisations of farming system for nutrition, setting up genetic gardens and initiation of 'Zero Hunger' training.
- A genetic garden for biofortified plants/crops contains the germplasm of naturally biofortified crops or such crops through plant breeding.

- It has plants and crops that help supplement micro-nutrient deficiencies, including iron, iodine, vitamin A and zinc among others.

Pradhan Mantri Krishi Sinchai Yojana (PMKSY)

Launched: July, 2015

Objectives

- The major objective of the PMKSY is to achieve convergence of investments in irrigation at the field level, expand cultivable area under assured irrigation (Har Khet ko pani), improve on-farm water use efficiency to reduce wastage of water, enhance the adoption of precision-irrigation and other water saving technologies (More crop per drop), enhance recharge of aquifers and introduce sustainable water conservation practices by exploring the feasibility of reusing treated municipal based water for peri-urban agriculture and attract greater private investment in precision irrigation system.
- The scheme also aims at bringing concerned Ministries/Departments/ Agencies/Research and Financial Institutions engaged in creation/use/ recycling/potential recycling of water, brought under a common platform, so that a comprehensive and holistic view of the entire "water cycle" is taken into account and proper water budgeting is done for all sectors namely, household, agriculture and industries.

Salient Features of PMKSY

- The programme architecture of PMKSY aims at a decentralized State level planning and execution structure, in order to allow States to draw up a District Irrigation Plan (DIP) and a State Irrigation Plan (SIP).
- DIP will have holistic developmental perspective of the district outlining medium to long term developmental plans integrating three components namely, water sources, distribution network and water use application of the district to be prepared at two levels—the block and the district. All structures created under the schemes will be geotagged.
- The programme will be supervised and monitored at the national level by an Inter-Ministerial National Steering Committee (NSC) under the Chairmanship of the Prime Minister with Union Ministers of all concerned Ministries.
- A National Executive Committee (NEC) is to be constituted under the Chairmanship of the Vice Chairman, NITI Aayog to oversee programme implementation, allocation of resources, inter-ministerial coordination, monitoring and performance assessment, addressing administrative issues etc.
- At the state level the scheme is to be administered by a State Level Sanctioning Committee (SLSC) to be Chaired by the Chief Secretary of the respective States.
- The committee will have all authority to sanction the project and also monitor the progress of the scheme.
- At the district level there shall be a district level implementation committee for ensuring last mile coordination at the field level.
- A new scheme has been introduced to issue a **Soil Health Card** to every farmer. Soil Health Management in the country is being promoted through setting up of soil and fertilizer testing laboratories. 34 lakh soil samples has been collected and analysis is continuing.
- A new scheme for promoting organic farming **Pramparagat Krishi Vikas Yojana** has been launched to promote organic farming.
- A dedicated **Kisan Channel** has been started by Doordarshan to address various issues concerning farmers.
- Government is also encouraging formation of Farmer Producer organizations.
- Assistance to farmers, as input subsidy, has been increased by 50 percent in case of natural calamities.
- Norms have been relaxed to provide assistance from previous norm of crop loss of more than 50 percent to 33 percent to farmers afflicted by **natural calamities.**

Paramparagat Krishi Vikash Yojana

Launched: 2015

Objectives

- The objective is to produce agricultural products free from chemicals and pesticides residues by adopting eco- friendly, low- cost technologies. Key Thrust areas of PKVY in promoting organic farming include the following:
- To promote organic farming among rural youth/ farmers/ consumers/ traders
- Disseminate latest technologies in organic farming
- Utilize the services of experts from public agricultural research system in India
- Organize a minimum of one cluster demonstration in a village.

Salient Features of PKVY

- "Paramparagat Krishi Vikas Yojana" is an elaborated component of Soil Health Management (SHM) under National Mission of Sustainable Agriculture (NMSA).
- Cluster Approach: Fifty or more farmers form a cluster having 50 acre land to take organic farming. Each farmer will be provided Rs. 20000 per acre in three years for seed to harvesting crops and to transport them to market.
- Government plans to form around 10 thousand clusters in three years and cover an area of 5 Lakh hectares under organic farming.
- Components –
- Participatory Guarantee System (PGS) certification through cluster approach - mobilization of farmers, form clusters, identification of land resources and training on organic farming and PGS Certification and quality control.

EBD_7894

- Adoption of organic village for manure management and biological nitrogen harvesting through cluster approach –action plan for Organic Farming, Integrated Manure Management, Packing, Labelling and Branding of organic products of cluster.

National Agriculture Market (NAM)

Launched: July, 2015

Objectives

- National Agriculture Market (NAM) is a pan-India electronic trading portal, which networks the existing APMC mandis to create a unified national market for agricultural commodities.
- The NAM Portal provides a single window service for all APMC related information and services. This includes commodity arrivals & prices, buy & sell trade offers, provision to respond to trade offers, among other services. While material flow (agriculture produce) continue to happen through mandis, an online market reduces transaction costs and information asymmetry.
- To promote genuine price discovery.
- Increases farmers' options for sale and access to markets.

Salient Features of NAM

- A national e-market platform for transparent sale transactions and price discovery initially in regulated markets. Willing States to accordingly enact suitable provisions in their APMC Act for promotion of e trading by their State Agricultural Marketing Board/APMC.
- The e-NAM trading mechanism proposes to integrate 585 regulated wholesale markets or agriculture produce market committees (APMCs) under one electronic platform within a couple of years.
- This project will operate through an online portal which is being linked to the mandis of the States.
- Its software will be provided to all the willing states without cost.
- A knowledgeable person is being deployed for one year in every sharing mandi so as to facilitate the smooth functioning of the portal.
- Under this Project, Government of India is providing a grant of Rs. 30 lacs to the proposed agriculture mandis of the states.
- The farmers will be provided "farmer helpline services round the clock" for obtaining information related to this portal.
- The eNAM will allow farmers to sell their produce to highest bidders.
- Launched with a budget allocation of Rs 200 crore for three years, 25 key commodities, including wheat, paddy, maize, onion, jowar, bajra, groundnut, potato, soyabean and mustard seed, have been selected for e-trading.
- Fruits and vegetables normally known for price fluctuations, however, have not yet included in the platform.

Soil Health Card Scheme (SHCS)

Launched: 2015

Objectives

- To issue soil health cards every 3 years, to all farmers of the country, so as to provide a basis to address nutrient deficiencies in fertilization practices.
- To strengthen functioning of Soil Testing Laboratories (STLs) through capacity building, involvement of agriculture students and effective linkage with Indian Council of Agricultural Research (ICAR) / State Agricultural Universities (SAUs).
- To diagnose soil fertility related constraints with standardized procedures for sampling uniformly across states and analysis and design taluqa / block level fertilizer recommendations in various district.
- To develop and promote soil test based nutrient management in the districts for enhancing nutrient use efficiency.
- To build capacities of district and state level staff and of progressive farmers for promotion of nutrient management practices.

Salient Features of SHCS

- It is a centrally sponsored scheme launched by the Government of India in 2015.
- It is being implemented through the Department of Agriculture of all the State and Union Territory Governments.
- The experts will analyze the strength and weaknesses (micronutrients deficiency) of the soil collected from farms and suggest measures to deal with it.
- It will contain the status of his soil with respect to 12 parameters, namely N,P,K (Macro-nutrients); S (Secondary nutrient); Zn, Fe, Cu, Mn, Bo (Micro - nutrients); and pH, EC, OC (Physical parameters).
- Soil Health Card issued to farmers carry crop-wise recommendations of nutrients and fertilizers required for the individual farms.
- Assistance is provided to the State Government to issue Soil Health Card and also develop a database to improve service delivery.

Pandit Deen Dayal Upadhyay Unnat Krishi Shiksha Yojana (PDDUUKSY)

Launched: 2016

Objectives

- To build skilled Human Resource at village level relevant to national needs towards organic farming and sustainable agriculture.
- 2. Provide rural India with professional support in the field of Organic Farming/Natural Farming/Rural Economy/Sustainable Agriculture.
- 3. To extend other activities of Pandit Deen Dayal Upadhyay Unnat Krishi Shiksha Yojana at village level through these established centres.

Salient Features of PDDUUKSY

- This scheme, being implemented by ICAR, was launched in 2016 to include trained farmers of the field of Organic Farming/Natural Farming/Cow Based Economy for training and capacity building of other farmers of nearby areas.
- Under this scheme, 100 training centres were proposed to be opened for agricultural education.
- Training Centres will be selected on the basis of farmers who have already attended training course conducted under Unnat Bharat Abhiyan earlier or are having working/handling of natural farming in their own land plus must know all basics, fundamental, theory and practices of natural farming.

Mission for Integrated Development of Horticulture

Launched: 2014-15

Objectives

- Mission for Integrated Development of Horticulture (MIDH) is being implemented w.e.f.2014-15 for the integrated and holistic development of horticulture sector in the country covering fruits, vegetables, root and tuber crops, mushrooms, spices, flowers, aromatic plants, coconut, cashew, cocoa and bamboo through various interventions.
- Mission has six component schemes/missions - National Horticulture Mission (NHM), Horticulture Mission for North East & Himalayan States (HMNEH), National Agro-forestry Bamboo Mission (NABM), National Horticulture Board (NHB), Coconut Development Board (CDB) and Central Institute for Horticulture (CIH), Nagaland. All States including Himalayan states and Union Territories (UTs) are covered under MIDH.
- To improve productivity by ways of germplasm, planting material and wateruse efficiency through micro-irrigation.
- Mission supports skill development and create employment generation opportunities.

Salient Features of MIDH

- It is a centrally Sponsored Scheme which was started from 2014-15 comprising of following sub-schemes and areas of operation -
- **National Horticulture Mission;** to promote holistic growth of horticulture sector through an area based regionally differentiated strategies
- **Horticulture Mission for North East & Himalayan States;** it is a technology mission, which focuses on production of quality planting material, organic farming, efficient water management etc.
- **National Agro-forestry & Bamboo Mission;** It aims to promote the growth of bamboo through an area based regionally differentiated strategy. Increase area under bamboo with improved varieties to enhance yields.
- Promote, develop and disseminate technologies and generate employment opportunities.
- National Horticulture Board
- Coconut Development Board
- Central Institute for Horticulture, Nagaland.
- Adopt end-to-end approach with backward and forward linkages.
- Promote R&D technologies for cultivation and other activities with special focus on cold chain infrastructure.
- Improve productivity through diversification of crops, extension of technology and increasing acreage of orchards etc.
- Improve post-harvest management, value addition processing and marketing infrastructure.
- Promote FPOs and their links with Market aggregators and financial institutions.
- Funding – Central government contributes 100% in North Easter States and 85% in all other states while remaining 15% is contributed by state government.
- In 2014, Project CHAMAN was launched which envisages use of satellite remote sensing data along with Geographical Information System (GIS) for generating action plans for horticultural development.

Bringing Green Revolution in Eastern India (BGREI)

Launched: 2010-11

Objectives

- Bringing Green Revolution to Eastern India (BGREI), a sub-scheme of Rashtriya Krishi Vikas Yojna (RKVY) is being implemented in seven eastern states namely Assam, Bihar, Chhattisgarh, Jharkhand, Odisha, West Bengal and eastern Uttar Pradesh from 2010-2011 to address the constraints limiting the productivity of rice based cropping systems. The main objectives are;
  - To increase production & productivity of rice and wheat by adopting latest crop production technologies;
  - To promote cultivation in rice fallow area to increase cropping intensity and income of the farmers;
  - To create water harvesting structures and efficient utilization of water potential; and
  - To promote post harvest technology and marketing support.

Salient Features of BGREI

- The BGREI program was announced in the Union Budget, 2010-11 with an allocation of Rs. 400 crores. During 2010-11, this program was implemented in all the seven BGREI States on the basis of the plans devised by these States.
- The programme gained momentum in 2011-12 with the focus on rice and wheat only and strategic interventions relating to crop production, water harvesting and recycling, asset building and site specific activities needed for improving the agronomy-

EBD_7894

adopting cluster approach aimed at enhancing the productivity per unit area and the income of the farmers.

- The goal of the BGREI program is to harness the water potential for enhancing rice production in Eastern India, which was hitherto underutilized. Various initiatives under the scheme are –
  - Block or cluster development of improved production technology
  - Asset building activities for farm improvement
  - Site specific activities for farm renovation
  - Seed production and distribution
  - Marketing support and post-harvest management

National Food Security Mission (NFSM)

Launched: October, 2007

Objectives

- The major objective of this scheme is to increase production and productivity of wheat, rice and pulses on a sustainable basis so as to ensure food security of the country. The approach is to bridge the yield gap in respect of these crops through dissemination of improved technologies and farm management practices.
- To restore soil fertility and productivity at the individual farm level.
- This scheme is also enhancing farm level economy.

Salient Features of NFSM

- It is a Centrally Sponsored Scheme, which was launched in 2007.
- The approach of the scheme is to bridge the yield gap in respect of these crops through dissemination of improved technologies and farm management practices while focusing on districts, which have high potential but relatively low level of productivity at present.
- Major Components – National Food Security Mission – Rice, National Food Security Mission – Wheat, National Food Security Mission – Pulses, National Food Security Mission – Coarse Cereals and National Food Security Mission – Commercial Crops.
- The eligible persons will be entitled to receive 5 Kgs of foodgrains per person per month at subsidised prices of Rs. 3/2/1 per Kg for rice/wheat/coarse grains.

Kisan Credit Card (KCC) Scheme

Launched: 1998

Objectives

- The scheme aims at providing adequate and timely cred it for the comprehensive credit requirements of farmers under single window for their cultivation and other needs as indicated below:
  - To meet the short term credit requirements for cultivation of crops
  - Post harvest expenses
  - Produce Marketing loan
  - Consumption requirements of farmer household
  - Working capital for maintenance of farm assets, activities allied to agriculture, like dairy animals, inland fishery and also working capital required for floriculture, horticulture etc.
  - Investment credit requirement for agriculture and allied activities like pump sets, sprayers, dairy animals, floriculture, horticulture etc.

Salient Features of (KCC)

- The loan disbursed under KCC is broad based and may be used for short term credit requirements for cultivation of crops, post-harvest expenses, produce marketing loan, consumption requirement of farmer household etc.
- The loans disbursed under KCC Scheme for notified crops are covered under Crop Insurance Scheme.
- The KCC has been extended to fisheries and animal husbandry farmers to help them meet their working capital needs.
- Scheme covers risk of KCC holders against death or permanent disability resulting from accidents caused by external, violent and visible means.

National Programme for Bovine Breeding and Dairy Development (NPBBDD)

Launched: 2013-14

Objectives

- To arrange quality Artificial insemination services at farmer's footsteps.
- To bring all breedable females under organised breeding through Artificial Insemination (AI) or natural service using germplasm of high genetic merits.
- To conserve, develop and proliferate selected indigenous bovine breeds of high socio-economic importance.
- To provide quality breeding inputs in breeding tracts of important indigenous breeds so as to prevent the breeds from deterioration and extinction.
- To create training infrastructure for training of dairy farmers.

Salient Features of NPBBDD

- The program was initiated in 2014 by merging ongoing schemes of National Project for Cattle and Buffalo Breeding (NPCBB), Intensive Dairy Development Programme (IDDP), Strengthening Infrastructure for Quality & Clean Milk Production (SIQ & CMP) and Assistance to Cooperatives (A-C).
- The scheme has three components namely –
  - National Program for Bovine Breeding (NPBB): It will establish MAITRI (Multi- purpose AI Technician in Rural India) to deliver the breeding inputs at doorstep.
  - National Programme for Dairy Development (NPDD) and Rashtriya Gokul Mission (RGM).

National Dairy Plan- I (NDP- I)

Launched: 2012

Objectives

- National Dairy Development Board and the objectives of the National Dairy Plan, Phase I are:-

(a) To help increase the productivity of milch animals and thereby increase milk production to meet the rapidly growing demand for milk.

(b) To help provide rural milk producers with greater access to the organized milk-processing sector.

Salient Features of NDP- I

- It is a Central Sector Scheme being implemented by the National Dairy Development Board through end implementing agency for a period of 2011-12 to 2018-19.
- NDP-I is being implemented in the 18 major milk producing States of Uttar Pradesh, Punjab, Haryana, Gujarat, Rajasthan, Madhya Pradesh, Bihar, West Bengal, Maharashtra, Karnataka, Tamil Nadu, Andhra Pradesh, Telangana (after bifurcation of Andhra Pradesh), Orissa, Jharkhand, Chhattisgarh, Uttarakhand and Kerala constituting 90% of the milk production.
- Under NDP-I, 364 projects have been approved with a total outlay of Rs.1904.22 crore out of which Rs.897.97 crore has been released to the implementing agencies. Under this scheme Bulk Milk Coolers (BMCs) for milk of 5200 thousand litres per day (TLPD) capacity has been approved to help in reducing spoilage of milk due to high temperature.

Various Components of the Scheme are : Productivity enhancement –

(i) Production of high genetic merit cattle and buffalo bulls and import of Jersey. Bulls for semen production;

(ii) Improving nutrition of milch animals to produce milk commensurate with their genetic potential and for reducing methane emission

Integrated Development and Management of Fisheries (IDMF)

Launched: 2014-15

Objectives

- To fully tap the total fish potential of the country both in the inland and the marine sector and triple the production by 2020.
- To double the income of the fishers and fish farmers with special focus on increasing productivity and better marketing postharvest infrastructure including e-commerce and other technologies and global best innovations.
- To triple the export earnings by 2020 with focus on benefits flow to the fishers and fish farmers including through institutional mechanisms in the cooperative, producer companies and other structures.

Salient Features of IDMF

- It is a Central Sector Scheme on Blue Revolution. It is an umbrella scheme formulated by merging all the existing schemes.
- It aims at enhancing fish production from 107.95 lakh tonne (2015-16) to about 150 lakh tonne by the end of the 2019-20.
- The scheme has the following components:
  - National Fisheries Development Board (NFDB) and its activities.
  - Development of Inland Fisheries and Aquaculture.
  - Development of Marine Fisheries, Infrastructure and Post Harvest Operations.
  - Strengthening of Database & Geographical Information System of the Fisheries Sector.
  - Institutional Arrangement for Fisheries Sector.
  - Monitoring, Control and Surveillance (MCS) and other need based Interventions.
  - National Scheme on Welfare of Fishermen.

Mera Gaon – Mera Gaurav

Launched: 2015

Objectives

- Increase interaction with farmers in order to understand their problems
- Educate farmers about the best practices in agriculture
- Provide information on farm inputs, climate etc
- Spread awareness on water conservation, Soil Fertility, Climate change, Swaccha Bharat Abhiyan, market conditions, etc.

Salient Features of MGMG

- It is launched by ICAR to provide farmers with required information, knowledge and advisories on regular basis.
- Under this scheme, groups of scientist will select villages and will remain in touch with that village and provide information to farmers on technical and other related aspects through personal visits or through telecommunication.
- The scheme enables 20,000 scientists of National Agricultural Research and Education System (NARES) to work directly in villages.
- Groups of four multidisciplinary scientists each will be constituted at these institutes and universities. Each group will "adopt" five villages within a radius of maximum 100 km.

EBD_7894

MINISTRY OF FOOD PROCESSING INDUSTRIES

Pradhan Mantri Kisan Sampada Yojana (PMKSY)

Launched: 2017

Objectives

- Tosupplement agriculture, modernize processing and decrease agri-waste.
- PMKSY is an umbrella scheme incorporating ongoing schemes of the Ministry of Food Processing Industries like Mega Food Parks, Integrated Cold Chain and Value Addition Infrastructure, Food Safety and Quality Assurance Infrastructure, etc.
  - It also incorporates new schemes like Infrastructure for Agro-processing Clusters, Creation of Backward and Forward Linkages, Creation / Expansion of Food Processing & Preservation Capacities.
  - The objective of PMKSY is to supplement agriculture, modernize processing and decrease Agro-Waste.

Salient Features of PMKSY

- The Cabinet Committee on Economic Affairs (CCEA) has approved the renaming of the new Central Sector Scheme - SAMPADA (Scheme for Agro-Marine Processing and Development of Agro-Processing Clusters) as "Pradhan Mantri Kisan Sampada Yojana (PMKSY)" for the period of 2016-20 co-terminus with the 14th Finance Commission cycle. This scheme has an allocation of Rs 6000 crore for the period 2016-20.
- Schemes under PMKSY -

1. Mega Food Parks
2. Integrated Cold Chain and Value Addition Infrastructure
3. Food Safety and Quality Assurance Infrastructure
4. Creation/Expansion of Food Processing & Preservation Capacities
5. Infrastructure for Agro-processing Clusters
6. Creation of Backward and Forward Linkages
7. Human Resources and Institutions.
   - Last three schemes are new initiatives launched under the scheme while
   - First 4 were the ongoing schemes.

Scheme of Cold Chain, Value Addition and Preservation Infrastructure (CCVAPI)

Launched: 2008

Objectives

- This scheme provides integrated cold chain and preservation infrastructure facilities, without any break, from the farm gate to the consumer.
- Integrated Cold Chain project is set up by Partnership/ Proprietorship Firms, companies, Corporations, Cooperatives, SHGs, Farmer Producer Organizations (FPOs), NGOs, etc.

Salient Features of CCVAPI

- It aims to facilitate the establishment of a strong cold chain thus providing efficient storage and transportation.
- Components - Minimal processing centres at farm level, distribution hubs with multi products and multi Control Atmosphere, mobile pre-cooling vans and reefer trucks and irradiation facility.

Mega Food Parks Scheme

Launched: 2008

Objectives

- Objectives of the schemes are;
  - To provide modern infrastructure for food processing units in the country and ensure value addition of agricultural produce including dairy, fisheries etc.
  - To establish sustainable raw material supply chain in a cluster.
  - Address needs of small and micro food processing enterprising by providing plug and play facilities.

Salient Features of MFPS

- It is based on 'Cluster' approach and envisages creation of state of art support infrastructure in a well-defined agri/horticulture zone for setting modern food processing units along with well-established supply chain.
- The supply chain consists of collection centres, primary centres, central processing centres, cold chain and around 30- 35 fully developed plots for entrepreneurs to set up food processing units.
- Funding – Grant in aid of 50% of eligible cost in general and 75% in north-east and difficult areas subject to a maximum of 50 crore per project.

MINISTRY OF CONSUMER AFFAIRS, FOOD & PUBLIC DISTRIBUTION

Antyodaya Anna Yojana (AAY)

Launched: 2000

Objectives

- Main objective of Antyodaya Anna Yojana is to target poorest of poor population and provide them relief from hunger.
- Coverage under this scheme has been expanded thrice since then i.e. during 2003-04, 2004-05 and 2005-06 covering additional 50 lakh households each time. Thus the total coverage under AAY was raised to 2.50 crores AAY families (i.e.38% of BPL)

Salient Features of AAY

- It covers poorest of the poor families from amongst the BPL families covered under Targetted Public Distribution System within the States and provides

them food grains at a highly subsidized rate of Rs.1/ per kg coarse grains, Rs.2/ per kg. for wheat and Rs. 3/ per kg for rice.

- The AAY is part of NFSA (National Food Security Act) and the households under AAY are entitled to 35 Kg of food grains per household per month.
- The States/UTs are required to bear the distribution cost, including margin to dealers and retailers as well as the transportation cost.

Targeted Public Distribution System (TPDS)

Launched: 1997

Objective

- TPDS aims at providing food grains to people below the poverty line at highly subsidised prices from the PDS and food grains to people above the poverty line at much higher prices than the poverty line Thus, the TPDS adopted by the Government of India maintains the universal character of the PDS but adds a special focus on the people below the poverty line (known as BPL).

Salient Features of TPDS

- The most distinctive feature of the TPDS in relation to the previous policy is the introduction of targeting by dividing the entire population into Below Poverty Line (BPL) and Above Poverty Line (APL) categories, based on the poverty line defined by the Planning Commission.
- The maximum income level for the population to be covered under BPL was kept at Rs. 15,000 per annum. The TDPS provides wheat at Rs. 2/kg., rice Rs. 3/kg and millets at the Rs. 1/kg to the BPL families.
- It is operated under the joint responsibility of the Central and the State/Union Territory (UT) Governments.
- Central Government is responsible for procurement, allocation and transportation of food grains up to the designated depots of the FCI.
- State/UT Governments is responsible for the operational responsibilities for allocation and distribution of food grains within the States/UTs, identification of eligible beneficiaries, and issuance of ration cards to them and supervision over and monitoring of functioning of Fair Price Shops (FPSs).
- The targeted households are entitled to 5kg food grains per person per month at rates Rs.1/ per kg coarse grains, Rs.2/ per kg. for wheat and Rs. 3/ per kg for rice.

MINISTRY OF HEALTH & FAMILY WELFARE AND MINISTRY OF AYUSH

National Health Mission (NHM)

Launched: 2005

Objectives

- The objectives of NHM are summarised as under:
  - Reduction in child and maternal mortality
  - Prevention and control of communicable and non-communicable diseases, including locally endemic diseases.
  - Access to integrated comprehensive primary health care.
  - Population stabilisation, gender and demographic balance.
  - Revitalize local health traditions & mainstream AYUSH.
  - Universal access to public services for food and nutrition, sanitation and hygiene and universal access to public health care services with emphasis on services addressing women's and children's health and universal immunisation.
  - Promotion of healthy life styles.

Salient Features of NHM

- It is a major instrument of financing and support to the States to strengthen public health systems and healthcare delivery. This financing to the States are based on the State's Programme Implementation Plan (PIP).
- States that show improved progress made on key Outcomes/Outputs such as IMR, MMR, Immunization, number and proportion of quality certified health facilities etc. will be able to receive additional funds as incentives.
- It also focuses on Reproductive Maternal-Neonatal-Child and Adolescent Health (RMNCH+A) and Communicable and Non-Communicable Diseases.
- 2 sub schemes under NHM.
  (A) National Rural Health Mission
  (B) National Urban Health Mission

National Rural Health Mission (NRHM)

Launched: 2005

Objectives

- To provide accessible, affordable, accountable and effective primary healthcare facilities, especially to the poor and vulnerable sections of the population. To promote access to improved healthcare at house hold level through the female health activist (ASHA).
- Establishing a fully functional, community owned, decentralized health delivery system with intersectoral convergence at all levels,
- Ensures simultaneous action on a wide range of determinants of health such as water, sanitation, education, nutrition, social and gender equality.

Salient Features of NRHM

- The National Rural Health Mission (NRHM) was launched by the Hon'ble Prime Minister on 12th April 2005, to provide accessible, affordable and quality health care to the rural population, especially the vulnerable groups.

EBD_7894

- The Union Cabinet vide its decision dated 1st May 2013, has approved the launch of National Urban Health Mission (NUHM) as a Sub-mission of an over-arching National Health Mission (NHM), with National Rural Health Mission (NRHM) being the other Sub-mission of National Health Mission.
- Initiatives under NRHM:
- RMNCH+A: Reproductive Maternal Newborn Child and Adolescent Health.
- Free drugs and free diagnostic service
- District hospital and knowledge center (DHKC)
- Mainstreaming AYUSH: revitalizing local health traditions
- Accredited social health activists
- Janani Suraksha Yojana
- Mobile medical units
- Janani Shishu Suraksha Karyakram (JSSK)
- Rashtriya Bal Swasthya Karyakram (RBSK)
- Mother and child health wings (MCH wings

National Urban Health Mission (NUHM)

Launched: 2013

Objectives

- NUHM envisages to meet health care needs of the urban population with the focus on urban poor, by making available to them essential primary health care services and reducing their out of pocket expenses for treatment.
- To meet health care needs of the urban population with the focus on urban poor, slum dwellers, by making available to them essential primary health care services.

Salient Features of NUHM

- It seeks to strengthen the existing health care service delivery system, targeting the people living in slums and converging with various schemes relating to wider determinants of health like drinking water, sanitation, school education, etc. implemented by the Ministries of Urban Development, Housing & Urban Poverty Alleviation, Human Resource Development and Women & Child Development
- NUHM would cover all State capitals, district headquarters and cities/towns with a population of more than 50000.
- It would primarily focus on slum dwellers and other marginalized groups like rickshaw pullers, street vendors, railway and bus station coolies, homeless people, street children, construction site workers.
- Funding pattern is typical (75:25 for normal and 90:10 for NE and hilly states)

Janani Suraksha Yojana (JSY)

Launched: 2005

Objectives

- Janani Suraksha Yojana (JSY) is a safe motherhood intervention under the National Rural Health Mission (NRHM) being implemented with the objective of reducing maternal and neo-natal mortality by promoting institutional delivery among the poor pregnant women.
- The Yojana has identified ASHA, the accredited social health activist as an effective link between the Government and the poor pregnant women in l0 low performing states, namely the 8 EAG states and Assam and J&K and the remaining NE States.
- In other eligible states and UTs, wherever, AWW ((Anganwadi workers)and TBAs or ASHA like activist has been engaged in this purpose, she can be associated with this Yojana for providing the services.

Salient Features of JSY

- The Yojana, launched on 12th April 2005, by the Hon'ble Prime Minister, is being implemented in all states and UTs with special focus on low performing states. JSY is a 100 % centrally sponsored scheme and it integrates cash assistance with delivery and post-delivery care.
- The scheme focuses on the poor pregnant woman with special dispensation for states having low institutional delivery rates namely the states of Uttar Pradesh, Uttaranchal, Bihar, Jharkhand, Madhya Pradesh, Chhattisgarh, Assam, Rajasthan, Orissa and Jammu and Kashmir. While these states have been named as Low Performing States (LPS), the remaining states have been named as High performing States (HPS).
- Tracking Each Pregnancy: Each beneficiary registered under this Yojana should have a JSY card along with a MCH card. ASHA/AWW/ any other identified link worker under the overall supervision of the ANM and the MO, PHC should mandatorily prepare a micro-birth plan. This will effectively help in monitoring Antenatal Check-up, and the post delivery care.
- Eligibility for Cash Assistance: BPL Certification – This is required in all HPS states. However, where BPL cards have not yet been issued or have not been updated, States/UTs would formulate a simple criterion for certification of poor and needy status of the expectant mother's family by empowering the gram pradhan or ward member.

Scale of Cash Assistance for Institutional Delivery:

Category	Rural Area		Urban Area	
	Mother's package	ASHA's package*	Mother's package	ASHA's package**
LPS	1400	600	1000	400
HPS	700	600	600	400

* ASHA package of Rs. 600 in rural areas include Rs. 300 for ANC component and Rs. 300 for facilitating institutional delivery.

** ASHA package of Rs. 400 in urban areas include Rs. 200 for ANC component and Rs. 200 for facilitating institutional delivery.

Cash assistance for home delivery

- BPL pregnant women, who prefer to deliver at home, are entitled to a cash assistance of Rs. 500 per delivery regardless of the age of pregnant women and number of children.

Janani Shishu Suraksha Karyakaram (JSSK)

Launched: 1 June, 2011

Objective

- To provide better health facilities for pregnant women and sick neonates and eliminating "out-of-pocket" expenses.

Salient Features of JSSY

- Under this scheme, pregnant women are entitled for free drugs and consumables, free diagnostics, free blood whenever required, and free diet up to 3 days for normal delivery and 7 days for C-section
- This initiative also provides for free transport from home to institution, between facilities in case of a referral and drop back home
- Similar entitlements have been put in place for all sick new borns accessing public health institutions for treatment till 30 days after birth
- It supplements the cash assistance given to a pregnant woman under Janani Suraksha Yojana (JSY). It has no component for cash assistance within itself.

Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA)

Launched: 2016

Objectives

- Ensure at least one antenatal checkup for all pregnant women in their second or third trimester by a physician/specialist
- Improve the quality of care during ante-natal visits. This includes ensuring provision of the following services:
  - All applicable diagnostic services
  - Screening for the applicable clinical conditions
  - Appropriate management of any existing clinical condition such as Anaemia, Pregnancy induced hypertension, Gestational Diabetes etc.
  - Appropriate counseling services and proper documentation of services rendered
  - Additional service opportunity to pregnant women who have missed ante-natal visits
- Identification and line-listing of high risk pregnancies based on obstetric/ medical history and existing clinical conditions.
- Appropriate birth planning and complication readiness for each pregnant woman especially those identified with any risk factor or comorbid condition.
- Special emphasis on early diagnosis, adequate and appropriate management of women with malnutrition.
- Special focus on adolescent and early pregnancies as these pregnancies need extra and specialized care

Salient Features of PMSMA

- The national programme aims to provide pregnant ladies free ante-natal services (ANC) and required treatment for free on 9th of every month.
- Objectives of the scheme are (i) Provide healthy life to the pregnant women. (ii) Lowering the maternity mortality rate. (iii) Making pregnant women aware of their health issues and diseases. (iv) Making sure safe delivery and healthy life of the baby.
- The scheme is applicable only for the pregnant women in their pregnancy period of 3 to 6 months. It will provide all kinds of medical checkups completely free to pregnant women.
- These checkups will take place at the medical centres, government and private hospitals and private clinics across the country.
- These free of cost tests will include blood pressure, sugar level, weight, haemoglobin test, blood test and screening.
- Women will be marked differently using different colour stickers based on their health problems so that doctors can easily detect the problem.
- Different colour stickers will be Red Sticker for Serious patients, Blue Sticker for High blood pressure and Yellow Sticker for Other diseases.

Universal Immunisation Programme (UIP)

Launched: 1978

Objectives

- Provide free of cost vaccines to all children across the country to protect them against 12 Vaccine Preventable Diseases (VPDs).
- Achieve self-sufficiency in vaccine production
- Strengthen and maintain robust surveillance system for Vaccine Preventable Diseases (VPDs) and Adverse Events Following Immunization (AEFI);
- Introduce and expand the use of new and underutilized vaccines and technology in UIP.

Salient Features of UIP

- Immunization Programme is one of the key interventions for protection of children from life threatening conditions, which are preventable. It is one of the largest immunization programme in the world and a major public health intervention in the country.
- Immunization Programme in India was introduced in 1978 as Expanded Programme of Immunization (EPI).
- The programme gained momentum in 1985 and was expanded as Universal Immunization Programme (UIP) to be implemented in phased manner to cover all districts in the country by 1989-90.
- UIP become a part of Child Survival and Safe Motherhood Programme in 1992 Since, 1997,

EBD_7894

immunization activities have been an important component of National Reproductive and Child Health Programme and is currently one of the key areas under National Rural Health Mission (NRHM) since 2005

- Under UIP, Government of India is providing vaccination free of cost against 12 vaccine preventable diseases i.e.
  - Diphtheria, Pertussis, Tetanus, Polio
  - Measles (measles-rubella (MR) vaccine – single vaccine for dual protection against measles and rubella)
  - severe form of Childhood Tuberculosis,
  - Hepatitis B.
  - Meningitis & Pneumonia caused by Hemophilus Influenza type B across the country; (Pneumococcal Conjugate Vaccine (PCV) was recently launched against pneumonia and meningitis.)
  - Rubella, Japanese Encephalitis and Rotavirus diarrhoea → These 3 only in selected states.

Mission Indradhanush (MI)

Launched: 2014

Objectives

- Aims to cover all those children by 2020 who are either unvaccinated, or are partially vaccinated against 7 vaccine preventable diseases
- **The diseases are** – diphtheria, whooping cough, tetanus, polio, tuberculosis, measles and hepatitis B.
- To ensure full immunization to more than 90% by December 2018.

Salient Features of MI

- It will be focused and systematic immunization drive through a catch-up campaign mode aiming to cover all the children who have been left out or missed out for immunization.
- Under this scheme government will conduct 4 special vaccination campaigns between January and June 2015 with intensive planning and monitoring.
- These campaigns will be planned and implemented according to the learning's of the successful implementation of the polio programme.
- It will be implemented in 2 phases in 2015. First phase will cover 201 districts. While, second phase will cover 297 districts.
- For the first phase government has identified 201. These are high-focus districts in the country which have nearly 50 per cent of all unvaccinated or partially vaccinated children. Under this mission, these districts will be targeted intensively in order to improve the routine immunization coverage.
- All vaccines are available free of cost under 'universal immunization programme'

Intensified Mission Indradhanush (IMI)

- It was launched in October 2017.
- IMI programme aims at reducing maternal and child mortality by reaching out to each and every child under two years of age and all pregnant women who have been left uncovered under routine immunisation programme.
- Its focus is on improving immunization coverage in select districts and cities to ensure full immunization to more than 90% by December 2018.
- IMI will provide greater focus on urban areas and other pockets of low immunization coverage.
- IMI drive will be spread over 7 working days starting from 7th of every month. Special strategies have been devised for effective implementation of IMI which includes inter-ministerial and inter-departmental coordination, action based review mechanism and rigorous monitoring of the programme.
- It devises convergence mechanism of ground level workers of various departments like ANMs, Anganwadi workers, ASHAs, Zila preraks under National Urban Livelihood Mission (NULM), self-help groups for better coordination and effective implementation of the programme. Moreover, it also has appreciation and awards mechanism to recognize districts reaching more than 90% coverage.
- The criteria under it, include best practices and media management during crisis. Certificate of Appreciation will be given to acknowledge contribution of partners/ Civil Society Organization (CSOs) and others. Implementation of IMI will be closely monitored at the district, state and central level at regular intervals.
- It would be reviewed by Cabinet Secretary at National level and will be monitored at highest level under a special initiative Proactive Governance and Timely Implementation (PRAGATI).

eVIN (Electronic Vaccine Intelligence Network)Project

Launched: 2017

Objectives

- To address widespread inequities in vaccine coverage by supporting state governments in overcoming constraints of
  - infrastructure,
  - monitoring and
  - human resources

Salient Features of eVIN

- It aims to support the Government of India's Universal Immunization Programme.
- It is an indigenously developed technology system in India that provides real-time information on vaccine stocks and flows, and storage temperatures across all cold chain points; right down to vaccine storage points in state, district and health centres, using mobile and web-based dashboards.
- In partnership with the Ministry of Health and Family Welfare, UNDP is
- currently rolling out eVIN in 12 states.

Ayushman Bharat-National Health Protection Mission (AB-NHPM)

Launched: 2018

Objectives

- This project is a focused intervention of the government in the primary, secondary and tertiary health care systems to address the existing issues.
- The major objective is to strengthen the primary health care by solving the gripping issues and it also aims at making advanced treatments affordable by introducing highly affordable insurance schemes. Proper implementation of this project is the key aspect because its objectives are really good and revolutionary in nature.
- It is a health insurance scheme for BPL families and workers in the unorganized sector.

Salient Features of AB-NHPM

- Ayushman Bharat - National Health Protection Mission will have a defined benefit cover of Rs. 5 lakh per family per year.
- Benefits of the scheme are portable across the country and a beneficiary covered under the scheme will be allowed to take cashless benefits from any public/ private empanelled hospitals across the country.
- Ayushman Bharat - National Health Protection Mission will be an entitlement based scheme with entitlement decided on the basis of deprivation criteria in the SECC database.
- The beneficiaries can avail benefits in both public and empanelled private facilities.
- To control costs, the payments for treatment will be done on package rate (to be defined by the Government in advance) basis.
- One of the core principles of Ayushman Bharat - National Health Protection Mission is to co-operative federalism and flexibility to states.
- For giving policy directions and fostering coordination between Centre and States, it is proposed to set up Ayushman Bharat National Health Protection Mission Council (AB-NHPMC) at apex level Chaired by Union Health and Family Welfare Minister.
- States would need to have State Health Agency (SHA) to implement the scheme.
- To ensure that the funds reach SHA on time, the transfer of funds from Central Government through Ayushman Bharat - National Health Protection Mission to State Health Agencies may be done through an escrow account directly.
- In partnership with NITI Aayog, a robust, modular, scalable and interoperable IT platform will be made operational which will entail a paperless, cashless transaction.

Rashtriya Arogya Nidhi (RAN)

Launched: 1997

Objective

- Provides for financial assistance to patients, living below poverty line who is suffering from major life threatening diseases, to receive medical treatment at any of the super specialty hospitals/institutes or other Govt. Hospitals.

Salient Features of RAN

- The scheme Rashtriya Arogya Nidhi (RAN) is under implementation in the country. The details of scheme and salient features are given below:
  - The Rashtriya Arogya Nidhi (RAN) has been set up vide Resolution No. F-7-2/96-Fin-II dated 13/1/1997 and registered under the Societies Registration Act, 1860, as a Society. The RAN was set up to provide financial assistance to patients, living below poverty line and who are suffering from major life threatening diseases, to receive medical treatment at any of the super speciality Hospitals/Institutes or other Government hospitals. The financial assistance to such patients is released in the form of 'one-time grant', which is released to the Medical Superintendent of the Hospital in which the treatment has been/is being received.
  - Under RAN Revolving Funds have been set up in 13 Central Government Hospitals/Institutions located all over India for providing financial assistance for treatment up to Rs. 2 lakh. In addition financial assistance is provided for individual cases referred by Government hospitals/institutions, which do not have a Revolving Fund and for cases referred by 13 Government hospitals/institutions with Revolving Funds for assistance exceeding Rs. 2 lakh.

Integrated Disease Surveillance Project (IDSP)

Launched: 2004

Objective

- To strengthen/maintain decentralized laboratory based IT enabled disease surveillance system for epidemic prone diseases to monitor disease trends and to detect and respond to outbreaks in early rising phase through trained Rapid Response Team (RRTs).

Salient Features of IDSP

- It seeks to set up a Central Disease Surveillance Unit and a State Surveillance Unit in each State where data is collected and analyzed.
- An early warning system has been put into place in order to take timely preventive steps.
- Under IDSP data is collected on epidemic prone diseases on weekly basis.

EBD_7894

- Whenever there is a rising trend of illnesses in any area, it is investigated by the Rapid Response Teams (RRT) to diagnose and control the outbreak.
- The program covers both communicable as well as non-communicable diseases and there is focus on inter sectoral co-ordination for zoonotic diseases.

National Ayush Mission (NAM)

Launched: 2014

Objectives

- To provide cost effective AYUSH Services, with a universal access through upgrading AYUSH Hospitals and Dispensaries, co-location of AYUSH facilities at Primary Health Centres (PHCs), Community Health Centres (CHCs) and District Hospitals (DHs).
- To strengthen institutional capacity at the state level through upgrading AYUSH educational institutions, State Govt. ASU&H Pharmacies, Drug Testing Laboratories and ASU & H enforcement mechanism.
- To Support cultivation of medicinal plants by adopting Good Agricultural Practices (GAPs) so as to provide sustained supply of quality raw materials and support certification mechanism for quality standards, Good Agricultural / Collection / Storage Practices.
- To Support setting up of clusters through convergence of cultivation, warehousing, value addition and marketing and development of infrastructure for entrepreneurs.

Salient Features of NAM

- Centrally Sponsored Scheme introduced in 2014 and has been extended further till 2020.
- AYUSH systems of medicine, namely Ayurveda, Yoga & Naturopathy, Unani, Siddha & Sowa-Rigpa and Homoeopathy.
- Components of the Mission
  - Mandatory Components (80% of the Resource pool)
  - AYUSH Services (including co-location of AYUSH facilities at Primary Health Centres (PHCs), Community Health Centres (CHCs) and District Hospitals(DH)
  - AYUSH Educational Institution
  - Quality Control of ASU &H Drugs
  - Medicinal Plants
- Flexible Components (20% of resource pool)
  - AYUSH Wellness Centres including Yoga & Naturopathy
  - IEC activities,
  - Tele-medicine
  - Crop Insurance for Medicinal Plants
  - Public Private Partnership provision and Interest subsidy
  - Component for Private AYUSH educational Institutions.
- Monitoring and Evaluation
  - Dedicated MIS monitoring and evaluation cell would be established at Centre/ State level.

MINISTRY OF DRINKING WATER & SANITATION (MDWS) AND MINISTRY OF EARTH SCIENCES

GOBAR-Dhan-Yojna

Launched : April, 2018

Objective

- To improve lives of the villagers. Under it, solid waste of dung and fields will be changed into compost, biogas and bio-CNG.

Salient Feature of GOBAR-Dhan-Yojna

- The full form of the word Gobar is Galvanizing Organic Bio-agro Resources.
- Under this scheme solid waste and cattle dung and urine will be used to manufacture fertilizer.
- Bio-Gas and Bio-CNG will also be produced from these resources.
- This scheme will improve the living level of the villagers and also help in curbing open defecation.
- The farmers will increase their income by using as well selling cattle waste at a price.
- In the 2018-19 budget, the Central Government has selected 115 districts for overall development in a number of fields. It is expected that the Gobar Dhan Yojana will be made operational in these very districts.

Swachh Bharat Mission (SBM)

Launched: 2nd October, 2014

Objectives

- To bring about an improvement in the general quality of life in the rural areas, by promoting cleanliness, hygiene and eliminating open defecation.
- To accelerate sanitation coverage in rural areas to achieve the vision of Swachh Bharat by 2nd October 2019.
- To motivate communities to adopt sustainable sanitation practices and facilities through awareness creation and health education.
- To encourage cost effective and appropriate technologies for ecologically safe and sustainable sanitation.
- To develop, wherever required, community managed sanitation systems focusing on scientific Solid & Liquid Waste Management systems for overall cleanliness in the rural areas.
- To create significant positive impact on gender and promote social inclusion by improving sanitation especially in marginalized communities

Salient Features of SBM

- SBM was launched in October 2014 with an aim to achieve Open Defecation Free (ODF) by 2019.

- The SBM consists of two sub-missions:
  - Swachh Bharat Mission (Gramin) implemented by Ministry of Drinking Water and Sanitation) in rural areas;
  - Swachh Bharat Mission (Urban) implemented by Ministries of Urban Development in urban areas.
- The goal includes the elimination of open defecation, conversion of insanitary toilets to pour flush toilets, eradicating of manual scavenging and Municipal Solid Waste Management (MSWM).
- It also seeks to generate awareness to motivate communities to adopt sustainable sanitation practices, and encourage the use of appropriate technologies for sanitation.
- The mission has led to doubling of sanitation coverage from 38.70% to 78.98% since its launch.
- The mission will also contribute to India reaching Sustainable Development Goal Number 6 (SDG 6).
- Arunachal Pradesh was officially declared Open Defecation Free (ODF) state.
- It is second State from Northeast, after Sikkim and overall fifth state after Himachal Pradesh, Kerala and Haryana to be declared ODF state.

National Rural Drinking Water Programme (NRDWP)

Launched: 2009

Objectives

- enable all households have access to and use safe and adequate drinking water and within reasonable distance;
- enable communities to monitor and keep surveillance on their drinking water sources;
- ensure portability, reliability, sustainability, convenience, equity and consumers preference to be the guiding principles while planning for a community based water supply system;
- provide drinking water facility, especially piped water supply, to Gram Panchayats that have achieved open defecation free status on priority basis;
- ensure all government schools and Anganwadis have access to safe drinking water;
- provide enabling support and environment for Panchayat Raj Institutions and local communities to manage their own drinking water sources and systems in their villages;
- provide access to information through online reporting mechanism with information placed in public domain to bring in transparency and informed decision making;

Salient Features of NRDWP

- This is a centrally sponsored scheme (50:50), started in 2009.
- The restructured scheme has provided more flexibility to the states release of fund under various components.
- The scheme is to be continued co-terminus with the 14th Finance Commission cycle i.e. from 2017-18 to 2019-2020.
- Funds are earmarked for North-East States, Desert Development Programme (DDP), Natural Calamities for providing assistance to States/UTs and Water Quality for allocation to States with chemically contaminated quality affected habitations and JE/AES affected high priority districts with bacteriological contamination.
- National Water Quality Sub Mission (NWQSM) on Arsenic and Fluoride has been started to provide safe drinking water to about 28,000 affected habitations in the country by March 2021.

National Monsoon Mission Phase II (NMM)

Launched: 2012-13

Objectives

- To build a working partnership between the academic and R & D Organizations both national and international, and the MoES to improve the operational monsoon forecast skill over the country and develop relevant climate applications for agriculture, hydrology and power sectors.
- To develop and improve a state-of-the art dynamical modelling frame work for improving prediction skill of
  - Seasonal and extended range predictions
  - Short and medium range(up to two weeks) prediction

Salient Features of NMM

- Participating Institutions:
  - Indian Institute of Tropical Meteorology, Pune
  - National Centre for Medium Range Weather Forecast, Noida
  - India Meteorological Department, New Delhi
- For Long range forecasting (upto a season), American model called Climate Forecast System (CFS) is used, which is a coupled-Ocean forecasting system i.e. it combines data from ocean, atmosphere and land.
- For short to medium range (upto 20 days) Unified Model (UM) developed by UK is used.
- In its phase I, IMD was able to develop high resolution-coupled dynamical prediction system (seasonal and extended time scale). For the first time, IMD used the Monsoon Mission dynamical model to prepare operational seasonal forecast of 2017 monsoon rainfall over India.
- The Ministry has now launched the Monsoon Mission Phase II program, for next 3 years (2017-2020) with emphasis on predicting extremes and development of applications based on monsoon forecasts.

EBD_7894

MINISTRY OF FINANCE AND MINISTRY OF COMMERCE

One Crore loan in 59 minutes for MSMEs

Launched : November, 2018

Objective

- Promoting automation, reducing the lengthy loan approval process and frequent visits to bank branches.

Salient feature of One Crore loan in 59 minutes

- The loan amount will be between Rs 10 lakh and 1 crore. The rate of interest (RoI) starts from 8%. After the approval in principle of the application, the loan amount will be disbursed in 7-8 working days.
- There is no mandatory requirement for collateral as the online portal is directly connected to the Credit Guarantee Fund Trust for Micro and Small Enterprises scheme.
- For registration, the borrower does not need to make any payment. A borrower whose proposal matches the products of lenders and who wants to receive an approval in principle will be required to make a nominal payment of Rs 1,000 plus applicable taxes.
- There is no fee for the registration, but once the applicant's proposal matches the bank's products, the borrower will have to be submit a fee of Rs 1,000 plus taxes.

National Pension Scheme (NPS)

Launched: 2004

Objectives

- To provide retirement income to all the citizens
- To institute pension reforms and to inculcate the habit of saving for retirement amongst the citizens.

Salient Features of NPS

- Administered by PFRDA
- Defined contributions scheme. 3 types:
  - Tier 1 NPS account -non-withdrawable permanent retirement account type
  - Tier 2 NPS account – voluntary withdraw able account which is allowed only when there is already existing Tier I account
  - NPS – Swavalamban scheme
- All existing members of the government's 'Swavalamban Yojana NPS lite' will auomatically be migrated to the Atal pension Yojana. It will now replace the Swavalamban scheme
- Simple-opening an account with NPS provides A PERMANENT RETIREMENT ACCOUNTNUMBER (PRAN), which is a unique number and it remains with the subscriber throughout his lifetime.
- Portable- NPS provides seamless portability across jobs and across locations, unlike all current pension plans, including that of the EPFO.
- Market linked - Investor can choose overall risk by diversifying into different asset classes, called as asset allocation, (e=equity, c=credit risk, securities other than government, g=government securities).
- At closure of NPS account, out of the total withdrawal, only 40% of accumulatedbalance is tax exempted. No tax exemption is given on withdrawal of NPS moneywithout its closure.

Pradhan Mantri Mudra Yojana (PMMY)

Launched: 8 April, 2015

Objectives

- Financial support for growth of micro enterprises sector.
- Pradhan Mantri MUDRA Yojana (Micro Units Development and Refinance Agency) was launched with the purpose to provide funding to the non-corporate small business sector. Pradhan Mantri Mudra Yojana (PMMY) is open and is available from all Bank branches across the country.

Salient Features of PMMY

- MUDRA loans are extended by banks, NBFCs, MFIs and other eligible financial intermediaries as notified by MUDRA Ltd.
- MUDRA Bank would be responsible for refinancing all Las Mile Financiers such as Non-Banking Finance Companies, Societies, Trusts, Section 8 Companies, Co-operative Societies, Small Banks, Scheduled Commercial Banks and Regional Rural Banks which are in the business of lending to micro/small business entities engaged in manufacturing, trading and services activities.
- A refinance corpus for MUDRA at 20000 crores, to be allocated by RBI from the Priority Sector lending shortfall has also be formed.
- The small businesses/startups or entrepreneurs can avail loans from Rs. 50 thousand to 10 Lakh to start/ grow their business under the three, Shishu, Kishore and Tarun categories of the scheme.

Scheme	Amount of Loan
Shishu	Up to Rs.50000/-
Kishore	Above Rs.50000/- and up to Rs. 5 Lakh
Tarun	Above Rs. 5 lakh and up to Rs.10 lakh

- There is no subsidy for the loan given under PMMY. However, at present, MUDRA extends a reduction of 25bps in its interest rates to MFIs/NBFCs, who are providing loans to women entrepreneurs.
- Banks have been mandated by RBI not to insist for collateral security in the case of loans upto 10 lakh extended to the units in the Micro Small Enterprises sector.
- The overdraft amount of 5000 sanctioned under PM Jan Dhan Yojana has been also classified as MUDRA loans under Prime Minister MUDRA Yojana (PMMY).

Pradhan Mantri Suraksha Bima Yojana (PMSBY)

Launched: 9 May, 2015

Objectives

- PMSBY is a one year cover Personal Accident Insurance Scheme, renewable from year to year, offering protection against death or disability due to accident.
- Available to people in age group 18 to 70 years with bank account.

Salient Features of PMSBY

- A person has to opt for the scheme every year. He can also prefer to give a long-term option of continuing in which case his account will be auto-debited every year by the bank.
- The scheme will be offered by all Public Sector General Insurance Companies and all other insurers who are willing to join the scheme and tie-up with banks for this purpose.
- Individuals who exit the scheme at any point may re-join the scheme in future years by paying the annual premium.
- Premium payable is Rs.12/- per annum per member.
- Risk coverage available will be Rs. 2 lakhs for accidental death and permanent total disability.
- Rs. 1 lakhs for permanent partial disability.

Atal Pension Yojana (APY)

Launched: 9 May, 2015

Objectives

- Atal Pension Yojana (APY), a pension scheme for citizens of India, is focused on the unorganised sector workers.
- Under the APY, guaranteed minimum pension of Rs. 1,000/- or 2,000/- or 3,000/- or 4,000 or 5,000/- per month will be given at the age of 60 years depending on the contributions by the subscribers.

Salient Features of APY

- It replaced the Swavalamban scheme.
- The beneficiaries will not be able to exit the scheme before the age of 60
- The minimum period of contribution by the subscriber under this would be 20 years or more.
- In case of death of subscriber, the spouse of the subscriber shall be entitled for the same amount of pension till his or her death.
- After the death of both the subscriber and the spouse, the nominee of the subscriber shall be entitled to receive the pension wealth, as accumulated till age of 60 years of the subscribe
- It is administered by the Pension Fund Regulatory and Development Authority. The Institutional Architecture of NPS would be utilised to enrol subscribers under APY.

Pradhan Mantry Jeevan Jyoti Bima Yojana (PMJJBY)

Launched: 9 May, 2015

Objectives

- A one year life insurance scheme.
- Renewable from year to year.
- Offering coverage for death due to any reason.

Salient Features of PMJJBY

- Under PMJJBY, annual life insurance of Rs. 2 lakh would be available on the payment of premium of Rs. 330 per annum by the subscribers.
- The PMJJBY is available to people in the age group of 18 to 50 years having a bank account.
- People who join the scheme before completing 50 years can, however, continue to have the risk of life cover up to the age of 55 subject to payment of premium.
- Premium Rs 330 per annum.
- The payment of premium will be directly auto debited by the bank from a subscriber's account.
- A person has to opt for the scheme every year.
- He can also prefer to give a long-term option of continuing, in which case his account will be auto debited every year by the bank.

Pradhan Mantri Vaya Vandana Yojana (PMVVY)

Launched: 2017

Objectives

- PMVVY to provide social security during old age and to protect elderly persons aged 60 and above against a future fall in their interest income due to uncertain market conditions.
- The scheme enables old age income security for senior citizens through provision of assured pension/ return linked to the subscription amount based on government guarantee to Life Insurance Corporation of India (LIC).

Salient Features of PMVVY

- The scheme provides an assured return of 8% per annum for 10 years.
- Pension is payable as per the frequency of monthly/ quarterly/ half-yearly/ yearly as chosen by the pensioner at the time of purchase.
- The scheme is exempted from Service Tax/ GST.
- On survival of the pensioner to the end of the policy term of 10 years, Purchase price along with final pension instalment shall be payable.
- Loan upto 75% of Purchase Price shall be allowed after 3 policy years (to meet the liquidity needs). Loan interest shall be recovered from the pension instalments and loan to be recovered from claim proceeds.

EBD_7894

- The scheme also allows for premature exit for the treatment of any critical/terminal illness of self or spouse. On such premature exit, 98% of the Purchase Price shall be refunded.
- On death of the pensioner during the policy term of 10 years, the Purchase Price shall be paid to the beneficiary.

Pradhan Mantri Jan-Dhan Yojana (PMJDY)

Launched: 15 August, 2014

Objective

- To ensuring access to various financial services like availability of basic savings bank account, access to need based credit, remittances facility, insurance and pension to the excluded sections i.e. weaker sections & low income groups. This deep penetration at affordable cost is possible only with effective use of technology.

Salient Features of PMJDY

- PMJDY is a National Mission on Financial Inclusion encompassing an integrated approach to bring about comprehensive financial inclusion of all the households in the country.
- The plan envisages universal access to banking facilities with at least one basic banking account for every household, financial literacy, access to credit, insurance and pension facility. In addition, the beneficiaries would get RuPay Debit card having inbuilt accident insurance cover of ₹1 lakh.
- The plan also envisages channeling all Government benefits (from Centre/State/Local Body) to the beneficiaries accounts and pushing the Direct Benefits Transfer (DBT) scheme of the Union Government.
- The technological issues like poor connectivity, on-line transactions will be addressed. Mobile transactions through telecom operators and their established centres as Cash Out Points are also planned to be used for Financial Inclusion under the Scheme. Also an effort is being made to reach out to the youth of this country to participate in this Mission Mode Programme.
- As informed by banks, as on 28.2.2018, 31.20 crore accounts have been opened under Pradhan Mantri Jan-Dhan Yojana (PMJDY) with aggregate deposit balances Rs. 75,572.09 crore. Of these, 25.18 crore (81%) Jan-Dhan accounts are operative. Banks are committed to enhance the number of operative Jan-Dhan accounts.

Stand Up India Scheme (SUIS)

Launched: 5 April, 2016

Objectives

- To promote entrepreneurship among Scheduled Caste/Schedule Tribe and Women for loans in the range of Rs. 10 Lakhs to Rs. 100 Lakhs.
- The Scheme is expected to benefit large number of such entrepreneurs, as it is intended to facilitate at least two such projects per bank branch (Scheduled Commercial Bank) on an average one for each category of entrepreneur.

Salient Features of SUIS

The broad features of the scheme are as under

- Composite loan between Rs. 10 lakh and upto Rs.100 lakh, inclusive of working capital component for setting up any new enterprise.
- Debit Card (RuPay) for drawal of working capital.
- Credit history of borrower to be developed.
- Refinance window through Small Industries Development Bank of India (SIDBI) with an initial amount of Rs.10,000 crore.
- Creation of a corpus of Rs. 5,000 crore for credit guarantee through NCGTC.
- Handholding support for borrowers with comprehensive support for pre loan training needs, facilitating loan, factoring, marketing etc.
- Web Portal for online registration and support services.
- The overall intent of the proposal is to leverage the institutional credit structure to reach out to these underserved sectors of the population by facilitating bank loans in the non-farm sector set up by such SC, ST and Women borrowers. The initiative will also develop synergies with ongoing schemes of other Departments.

Swachh Bharat Kosh (SBK)

Launched: 2014

Objectives

- Individuals and philanthropists have expressed interest in contributing to efforts to achieve the objective of Clean India (Swachh Bharat) by the year 2019.
- The Swachh Bharat Kosh has been set up to facilitate channelization of philanthropic contributions and Corporate Social Responsibility (CSR) funds towards this cause.

Salient Features of SBK

- It would be administered by a Governing Council chaired by Secretary, Department of Expenditure.
- Donations to the "Swachh Bharat Kosh", other than the sums spent for "Corporate Social Responsibility" are eligible for 100% deduction under section 80G of the Income-tax Act, 1961. This is applicable to the assessment year 2015-16 and subsequent years.

Start Up India (SUI)

Launched: 16 January, 2016

Objectives

- Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem that is

conducive for the growth of startup businesses, to drive sustainable economic growth and generate large scale employment opportunities.

- The Government through this initiative aims to empower startups to grow through innovation and design.

Salient Features of SUI

- **Simplification and Handholding**
  - Simple Compliance Regime for startups based on Self-certification
  - Launch of Mobile app and Portal for compliance and information exchange
  - Startup India Hub to handhold startups during various phases of their development
  - Legal support and fast-tracking patent examination at reduced costs
  - Relaxed norms of public procurement for startups
  - Faster exit for startups
- **Funding support and Incentives**
  - Providing funding support through a Fund of Funds with a corpus of Rs. 10,000 crore.
  - Credit guarantee fund for startups.
  - Tax exemption on capital gains invested in Fund of Funds.
  - Tax exemption to startups for 3 years.
- **Industry-Academia Partnership and Incubation**
  - Organizing Startup Fests to showcase innovations and providing collaboration platforms
  - Launch of Atal Innovation Mission (AIM) with Self –Employment and Talent Utilization (SETU) Program of NITI Aayog
  - Harnessing private sector expertise for setting up incubators
  - Setting up of 7 new research parks modeled on the Research Park at IIT Madras
  - Launching of innovation focused programs for students.
  - Annual Incubator Grand Challenge to promote good practices among incubators.
- **Credit Guarantee Fund**

  The initiative provides for creating a credit guarantee fund for startups through Small Industries Development Bank of India (SIDBI) with a Corpus of Rs.500 crore per year for the next four years. With this Action Plan the Government intends to accelerate spreading of the startup movement:
  - From digital/technology sector to a wide array of sectors including agriculture, manufacturing, social sector, healthcare, education, etc.; and
  - From existing tier 1 cities to tier 2 and tier 3 cities including semi-urban and rural areas.

Make In India

Launched: 25 September, 2014

Objectives

- The main objective of make in India campaign at spinning the country into a global manufacturing hub and offers a large numbers of employments.
- Designed to do facilitate Investment
- Foster Innovation
- Enhance skill development
- Protect Intellectual property rights
- Build Best-In-Class Manufacturing
- Infrastructure Providing employment
- To make healthy relationships with worldwide nations to make India digital

Salient Features of Make in India

- Target an increase in manufacturing sector growth to 12-14% per annum over the medium term.
- An increase in the share of manufacturing in the country's Gross Domestic Product from 16% to 25% by 2022.
- To create 100 million additional jobs by 2022 in manufacturing sector.
- Creation of appropriate skill sets among rural migrants and the urban poor for inclusive growth.
- An increase in domestic value addition and technological depth in manufacturing.
- Enhancing the global competitiveness of the Indian manufacturing sector.
- Ensuring sustainability of growth, particularly with regard to environment.
- An Investor Facilitation Cell (IFC) dedicated for the Make in India campaign was formed in 2014 with an objective to assist investors in seeking regulatory approvals, hand-holding services through the pre-investment phase, execution and after-care support.
- Various sectors have been opened up for investments like Defence, Railways, Space, etc. Also, the regulatory policies have been relaxed to facilitate investments and ease of doing business.
- Six industrial corridors are being developed across various regions of the country. Industrial Cities will also come up along these corridors.

MINISTRY OF COAL AND MINISTRY OF CHEMICALS FERTILIZERS

Scheme for Harnessing and Allocating Koyala Transparently in India (SHAKTI)

Launched: 2017

Objectives

- To alleviate one key challenge in power sector i.e. lack of coal linkage.
- To provide affordable power, access to coal and accountability in the allocation of coal.

Salient Features of SHAKTI

- This policy will award fuel supply agreements to coal plants already holding letters of assurance (LoAs). It is issued to new consumers on being approved by the appropriate authority, based on recommendation of a committee constituted Specific terms & conditions

EBD_7894

of the LOA to be complied with within a stipulated time period for being eligible to enter into FSA for commencing coal supply.

- Thermal plants holding LoAs will be eligible to sign fuel supply pacts under the new policy after ensuring that all the conditions are met.
- Coal linkages would be awarded to state-owned power distribution companies (discoms). These, in turn, would assign linkages to
  - state or central power generation companies via allocation, and
  - Private units through auction.
- The independent power producers (IPPs) participating in the auction will bid for discounts on the existing tariff and this would be adjusted from the gross coal bills.
- Power plants will have to give discount on their tariffs to get linkages. This could lead to under-recovery by the units, but it is still better than no fuel supply.

Nutrient Based Subsidy Scheme (NBSS)

Launched: 2010

Objectives

- To ensure balanced use of fertilizers, improve agriculture productivity; promote growth of indigenous fertilizer industry and to reduce the burden of subsidy.
- To ensure that adequate quantity of P&K is made available to the farmers at statutory controlled price.

Salient Features of NBSS

- Under this scheme a fixed amount of subsidy decided on annual basis, is provided to fertilizer companies (other than Urea) depending on its nutrient content to fertilizer manufacturer.
- The Nutrient Based Subsidy (NBS) Policy is being implemented w.e.f. 1.4.2010 by the Department of Fertilizers and under the said policy, a fixed amount of subsidy decided on annual basis, is provided on each grade of subsidized Phosphatic & Potassic (P&K) fertilizers depending on its Nutrient Content. At present 22 grades of P&K fertilizers are covered under the NBS policy.
- The benefits accruing to the farmers are as under:
  - The P&K fertilizers are made available to farmers in adequate quantities.
  - More grades of P&K fertilizers have brought under the purview of the NBS Scheme giving the farmers wider choice to use complex fertilizer grades.
- To improve fertility of soil and promote sustainable agriculture in the county, the Government is implementing the following schemes/projects:
  1. Soil Health Management (SHM) programme under National Mission for Sustainable Agriculture (NMSA) assists State Governments in following components:
     - Setting up of static/mobile soil testing laboratories (STLs).
     - Strengthening of static/mobile STLs.
     - Training and demonstrations on balanced use of fertilizers.
  2. Soil Health Card Scheme has been introduced to assist State Governments to issue soil health cards to all farmers in the country. Soil health card will provide information to farmers on nutrient status of their soil along with recommendation on appropriate dosage of nutrients to be applied for improving soil health and its fertility. Soil Health status will be assessed regularly in a cycle of 3 years so that nutrient deficiencies are identified and amendments applied.

Pradhan Mantri Jan Aushadhi Yojana (PMJAY)

Launched: 2016

Objectives

- Create awareness among public regarding generic medicines.
- Create demand for generic medicines through medical practioners.
- Create awareness through education and awareness program that high price need not be synonymous with high quality.
- Provide all the commonly used generic medicines covering all the therapeutic groups.
- Provide all the related health care products too under the scheme.

Salient Features of PMJAY

- Ensure access to quality medicines
- Extend coverage of quality generic medicines so as to reduce the out of pocket expenditure on medicines and thereby redefine the unit cost of treatment per person
- Create awareness about generic medicines through education and publicity so that quality is not synonymous with only high price
- A public programme involving Government, PSUs, Private Sector, NGO, Societies, Co-operative Bodies and other Institutions
- Create demand for generic medicines by improving access to better healthcare through low treatment cost and easy availability wherever needed in all therapeutic categories.

SUVIDHA

Launched: 2018

Objective

- To ensure achievement of government's vision of Affordable and Quality Healthcare for All.

Salient Features of SUVIDHA

- It is a 100% Oxo-biodegradable Sanitary Napkin, under the Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP).
- The affordable sanitary napkin will be available for Rs. 2.50 per pad at over 3200 Janaushadhi Kendras across India and would ensure 'Swachhta, Swasthya and Suvidha'for the underprivileged Women of India.
- This step taken by the Department of Pharmaceuticals will ensure the achievement of Prime Minster Shri Narendra Modi's vision of Affordable and Quality Healthcare for All.
- Pradhan Mantri Bhartiya Janaushadhi Pariyojana (PMBJP) is a campaign launched by the Department of Pharmaceuticals to provide quality medicines at affordable prices to the masses.

Plastic Parks Scheme (PPS)

Launched: 2013

Objectives

- To increase the competitiveness, polymer absorption capacity and value addition in the domestic downstream plastic processing industry through adaptation of modern, research and development led measurers.
- To increase investments in the sector through additions in capacity and production, creating quality infrastructure and other facilitation to ensure value addition and increase in exports.
- To achieve environmentally sustainable growth through innovative methods of waste management, recycling, etc.
- To adopt a cluster development approach to achieve the above objectives owing to its benefits arising due to optimization of resources and economies of scale.

Salient Features of PPS

- The scheme support setting up of a need based "Plastic Parks' which is an ecosystem with requisite state of the art infrastructure
- It will also provide financial support for infrastructure development such as administrative buildings, roads, water supply etc.
- It shall also support initiatives to ensure that the capacity of the beneficiary SPV and member enterprises is suitably strengthened in order to absorb the proposed initiatives.
- Funding Pattern – The centre will provide 50% of the funds and rest will be contributed by the SPV formed by State Government or State Industrial Development Corporation.

MINISTRY OF CIVIL AVIATION

Ude Desh ka Aam Nagrik (UDAN)

Launched: 2016

Objective

- To get more people to fly in the smaller towns. To boost regional air connectivity and provide various incentives to airlines. Aims that at least half the seats on every flight should have a fare cap of Rs2,500 per seat per hour of flying.

Salient Features of UDAN

- The UDAN scheme seeks to provide connectivity to un-served and under-served airports of the country through revival of existing air-strips and airports.
- This first-of-its-kind scheme will ensure affordability, connectivity, growth and development.
- It aims to increase ticketing volume from 80 million to 300 million by 2022.
- Under it regional connectivity will be developed on market-based mechanism under which Airlines will bid for seat subsidies.
- It will create affordable yet economically viable and profitable flights on regional routes so that flying becomes affordable to the common man even in small towns.
- Under it, airlines will have complete freedom to enter into code sharing with larger airlines for connectivity and they will be exempted from various airport charges.
- Airlines will have exclusive rights for three years to fly on a particular regional route.
- On these routes for regional flights Airfares will be capped at 2500 rupees for an hour's flight.
- Central and State governments and airport operators will provide a financial stimulus in the form of concessions to airlines
- The mechanism of Viability Gap Funding (VGF) will be provided to interested airlines to kick-off operations from such airports so that the passenger fares are kept affordable
- Government will provide subsidy to airlines for first three years of operations when they will have exclusive flying rights on the selected routes.
- Once the market in these routes gets jump started, it will operate on a commercial basis as per market forces of supply and demand.

Digi Yatra

Launched: 2017

Objective

- To bring together entire industry to develop a digital ecosystem that will deliver Indian customers a seamless, consistent and paperless service experience at every touch point of their journey.

Salient Features of Digi Yatra

- Centralised registration system for passengers and each of them would get a unique ID on booking the tickets

EBD_7894

- ID can be created by sharing name, e-mail id, mobile number and details of any identity proof, including Aadhaar
- The airline would share the passenger data and the ID with the airport from where the passenger would be flying out
- Optionally linking of Aadhaar to airlines at the time of booking for faster airport entry and automated check-ins without requiring any paper-based interventions

MINISTRY OF ELECTRONICS & IT AND MINISTRY OF COMMUNICATION

Digital India

Launched: 2014

Objective

- A programme to transform India into digital empowered society and knowledge economy.

Salient Features of Digital India

- The Digital India programme is centred on three key vision areas: Digital Infrastructure as a Utility to Every Citizen, Governance & Services on Demand, Digital Empowerment of Citizens
- It aims to provide the much needed thrust to the nine pillars of growth areas, namely: Broadband Highways, Universal Access to Mobile Connectivity, Public Internet Access Programme, e-Governance: Reforming Government through Technology, e-Kranti: NeGP 2.0, Information for All, Electronics Manufacturing, IT for Jobs, Early Harvest Programmes.
- For effective management of the Digital India programme, the programme management structure would consists of a Monitoring Committee on Digital India headed by the Prime Minister, a Digital India Advisory Group chaired by the Minister of Communications and IT and an Apex Committee chaired by the Cabinet Secretary.
- Public Private Partnerships would be preferred wherever feasible to implement e- Governance projects.

Pradhan Mantri Gramin Digital Saksharta Abhiyan (PMGDSA)

Launched: 2017

Objective

- To make 6 crore rural households digitally literate by March 2019.

Salient Features of PMGDSA

- PMGDISHA is expected to be one of the largest digital literacy programmes in the world. Under the scheme, 25 lakh candidates will be trained in the FY 2016-17; 275 lakh in the FY 2017-18;
- And 300 lakh in the FY 2018-19. To ensure equitable geographical reach, each of the 250,000 Gram Panchayats would be expected to register an average of 200-300 candidates.
- Digitally literate persons would be able to operate computers/digital access devices (like tablets, smart phones, etc.), send and receive emails, browse internet, access Government Services, search for information, undertaking cashless transactions, etc. and hence use IT to actively participate in the process of nation building.
- It aims to bridge digital divide by targeting the rural population including marginalised sections (SC, ST, BPL, women, differently-abled persons and minorities).
- The implementation of the Scheme would be carried out under the overall supervision of Ministry of Electronics and IT in active collaboration with States/ UTs through their designated State Implementing Agencies, District e-Governance Society (DeGS), etc.

India BPO Promotion Scheme (IBPS)

Launched: 2017

Objectives

- Creation of employment opportunities for the youth, by promoting the IT/ITES Industry particularly by setting up the BPO/ITES operations.
- Promotion of investment in IT/ITES Sector in order to expand the base of IT Industry and secure balanced regional growth.

Salient Features of IBPS

- Financial Support: Up to 50% of expenditure incurred on BPO/ITES operations towards capital expenditure (CAPEX) and/or operational expenditure (OPEX) on admissible items, subject to an upper ceiling of Rs. 1 Lakh/Seat.
- Special incentives toward employment of women & specially enabled persons.
- Incentive for generating employment beyond target & wider dispersal within state including rural areas.
- Encouragement for local entrepreneurs.
- Special consideration for Hilly states of HP, J&K and UK.

Electronics Development Fund (EDF)

Launched: 2017

Objective

- As part of the "Digital India" agenda of the Government, it is envisaged to develop the Electronics System Design and Manufacturing (ESDM) sector to achieve "Net Zero Imports" by 2020.

Salient Features of EDF

- It is set up as a "Fund of Funds" to participate in professionally managed "Daughter Funds" which in

turn will provide risk capital to companies developing new technologies in the area of electronics, nano-electronics and Information Technology (IT).
- It will help create a battery of Daughter funds and Fund Managers who will be seeking good start-ups (potential winners) and selecting them based on professional considerations.
- The EDF will also help attract venture funds, angel funds and seed funds towards R&D and innovation in the specified areas.
- CANBANK Venture Capital Funds Ltd. (CVCFL) is the Fund Manager for EDF.

Bharat Interface for Money (BHIM)

Launched: 2016

Objective

- To enable fast, secure, reliable cashless payments through mobile phone.

Salient Features of BHIM

- BHIM is Aadhaar-based payments app developed by the National Payment Corporation of India (NPCI).
- The app allows easily transferring money or making a payment from your bank account using only phone number.
- It can work even on basic phones as it supports USSD payments.
- It has mobile wallet facility in which money can be loaded.
- Using it anyone can directly connect their phone to bank account like a debit card.
- The app also allows user to scan a QR code.
- The merchant can also generate his QR code through the app.
- Payment can be done through scanning QR code.
- Merchants can also use the BHIM app to receive money from a smartphone or Aadhaar Pay if customer has linked a bank account and Aadhaar ID.
- Payments through this app are happening directly from and to bank accounts, so merchants don't have to worry about transferring wallet earnings to the bank account.
- All major UPI connected Indian banks accepts money through BHIM app.
- Even banks not connected to UPI can receive money through BHIM through IFSC assigned to banks.

Software Technology Park Scheme (STPS)

Launched: 2015

Objective

- For the development and export of computer software, including export of professional services using communication links or physical media.

Salient Features of STPS

- It is a 100% export-oriented scheme which integrates concept of 100 percent Export Oriented Units (EOU) and Export Processing Zones (EPZ) and the concept of Science Parks / Technology Parks.
- It is unique in its nature as it focuses on one product / sector, i.e. computer software.
- Other important features are
  - Provisioning of single-point contact services for member units.
  - A company can set up STP unit anywhere in India.
  - 100 Percent Foreign Equity is permitted.
  - All the imports of Hardware & Software in the STP units are completely duty free, import of second hand capital goods also permitted.
  - Re-Export of capital goods is also permitted.
  - The sales in the Domestic Tariff Area (DTA) shall be permissible up to 50 Percent of the export in value terms.

Bharat Net Project (BNP)

Launched: 2014

Objective

- To provide broadband connectivity to Gram Panchayats through optical fibre network.

Salient Features of BNP

- The Union Cabinet has approved the second phase of the Bharat Net project
- that forms the backbone for the government's Digital India initiative.
- Bharat Net Project is the new brand name of National Optical Fibre
- Network (NOFN) which was launched in October, 2011 to provide broadband
- connectivity to all 2.5 Lakh Gram Panchayats.
- Bharat Net is Centre's rural internet connectivity programme which is
- implemented by Bharat Broadband Network Limited (BBNL).
- It is world's largest rural broadband connectivity programme using Optical
- fibre.
- It seeks to connect all of India's households, particularly the rural areas,
- through broadband connectivity.
- The project is being funded by Universal service Obligation Fund (USOF).

Sampoorna Bima Gram Yojana (SBGY)

Launched: 2017

Objective

- To provide banking services through the postal network needs to be taken forward to provide

EBD_7894

affordable life insurance services to people living in rural areas of the country.

Salient Features of SBGY

- Under the Yojana, at least one village having a minimum of 100 households will be identified in each of the revenue districts of the country.
- Following this, effort will be taken to cover all households of that identified village with a minimum of one RPLI (Rural Postal Life Insurance) policy each.
- The main objective of the scheme is to cover all households in the identified Sampoorna Bima Gram village.
- Under the scheme expansion of clientele base of PLI, it has now been decided that benefits of PLI will no more be confined to Government and semi-Government employees, but will also be available to professionals such as Doctors, Engineers, Lawyers, Charted Accountants and Bankers.
- The decision has been taken to expand the cover of social security and bring maximum number of people under the protection of Postal Life Insurance (PLI).
- These major initiatives being undertaken by Department of Posts are expected to serve as an instrument of securing lives of people as well as enhancing financial inclusion.

Pandit Deen Dayal Upadhyaya Sanchar Kaushal Vikas Pratisthan Scheme (PDDUSKVPS)

Launched: 2017

Objective

- To supplement telecom skilled manpower creation for the growth of telecom sector and to generate livelihood for the youth of the nation.

Salient Features of PDDUSKVPS

- BSNL's satellite phone service will be offered in a phased manner. In the first phase, the service will be extended to the government agencies handling a disaster, state police, railways, Border security forces and other government agencies. In the subsequent phases, the phone service would be offered to those people who are travelling in flight and ships. Global satellite phone service is modern satellite phone service.
- Under Pandit Deen Dayal Upadhyaya Sanchar Kaushal Vikas Pratisthan Scheme, the ministry will impart training to 10,000 people from 10 States/UTs in the first phase. States like Uttar Pradesh, Bihar, Odisha, Punjab and Haryana will get benefitted in the first phase. Further, the Department of Telecommunications (DoT) plans to established more than 1,000 Sanchar Kaushal Vikas Pratisthan in future.
- In addition, a new award called Deen Dayal Upadhyaya Telecom Skill Excellence Award has been instituted to recognize achievers and talents in Telecom sector.

MINISTRY OF PETROLEUM AND NATURAL GAS, MINISTRY OF POWER AND MINISTRY OF RENEWABLE ENERGY

Pradhan Mantri Ujjwala Yojana (PMUY)

Launched : 2016

Objectives

it is all about making women strong both physically and mentally . As according to this scheme Government of India provides a LPG connection to each and every women house holder that comes under certified Poverty Line (Below Poverty Line).

- Empowering women both physically and mentally and improving their poor health.
- Reducing the serious health hazards associated with cooking based on fossil fuel and decreasing Death rate.
- Reducing the number of deaths in India due to unclean cooking fuel (by accidental or because of serious diseases).
- Preventing young children from significant number of acute respiratory illnesses caused due to indoor air pollution by burning the fossil fuel . As mostly in villages small and young kids roam around their mother all the day even no matter if their mom is cooking.
- Finally Again , its a social and welfare scheme which in future will help in making India more Developed and Strong .

Salient Feature of PMUY

- Cabinet Committee on Economic Affairs (CCEA) approved Rs 8000 crore for the next 3 years.
- Pradhan Mantri Ujjwala Yojana will provide 5 crore LPG connections to BPL families, with the financial support of Rs 1600.
- Budget Speech of 2016 had announced about the scheme and made a budgetary provision of Rs 2000 crore in the current Financial Year (FY).
- Connections will be issued on the name of women beneficiaries.
- EMI facility will also be provided for stove and refill cost.
- It is complimentary to Prime Minister's Give It Up campaign under which 75 lakh middle class and lower middle class households have voluntarily given up their cooking gas subsidy.

Pratyaksh Hastantrit Labh (PAHAL)

Launched : 1 January, 2015

Objectives

Under this scheme LPG cylinders will be sold to Cash Transfer Compliant (CTC) consumers at the market determined price,

while the cash subsidy will be directly transferred to the bank account of the beneficiary by the following method :

- Primary : Consumers having Aadhar number have to get it linked with bank account so as to get subsidy directly in their bank accounts.
- Secondary : Consumers lacking Aadhar number will get subsidy in their account after submitting their relevant bank account details to the LPG distributor.

Salient feature of PAHAL

- It is the world's largest cash subsidy (added to Guinness Book of world records) under the Direct Benefit Transfer Scheme.
- Domestic LPG cylinders will be sold to LPG consumers in the entire country at Market Determined Price (without subsidy). An advance payment will also as soon as a person books the first cylinder, to ensure that he has enough money to buy it at market price.
- The total cash benefit applicable on LPG cylinder will then be transferred to the CTC (Cash Transfer Compliant) consumer for each subsidized cylinder delivered (up to the cap) as per his entitlement.
- LPG consumers who do not wish to avail the LPG subsidy for LPG cylinders can simply choose to opt out of subsidy.
- Consumers needs to have a bank account to receive the subsidy. This is facilitated by Jan Dhan. Also seeding the account with AADHAAR is manadatory for getting the benefits.

Pradhan Mantri LPG Panchayat Scheme

Launched : 1 May, 2018

Objectives

- The main objective of Pradhan Mantri LPG Panchayat is to let the women know about the economic advantages of using the LPG instead of traditional fossil fuel.
- Under the PMUY, central government aims to provide LPG connection to 5 crore households in the country. This scheme is not to just distribute free LPG connections but also reduce the serious health hazards among women who uses fossil fuels for cooking. The LPG Panchayat is an approach to create awareness among women and protect their health.
- LPG Panchayats discussions will bring together around 100 LPG users to create an interactive platform about safe and sustainable usage of LPG. At time of launching PMUY , government has fixed the target to cover five crore households by 2019 under the scheme. So far three crore connections have been allotted under the PMUY.
- Pradhan Mantri LPG Panchayat will be helpful to clear all the doubts about Pradhan Mantri Ujjwala Yojana (PMUY). The agendas will also include the safe practices, quality of service provided by distributors and availability of refill cylinders.

Salient feature of LPG Panchayat Scheme

- It is an interactive communication platform for rural LPG users on various subjects like safe usage of LPG, its benefit to environment, women empowerment and women health, and also use the forum to motivate the consumers to use LPG regularly as a clean cooking fuel.
- One lakh LPG Panchayats would be activated across the country during next one and a half years. One panchayat will have around 100 LPG customers of nearby areas.
- The idea of this platform is to trigger a discussion through sharing of personal experiences on the benefits of use of clean fuel compared to traditional fuels like cowdung, charcoal, or wood.

Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY)

launched : 25 July, 2015

Objectives

- 24×7 uninterrupted electricity supply to each rural household across the country by 2022.
- Electrifying all villages and habitations as per new definition.
- Providing electricity Connection to Below Poverty Line (BPL) families free of charg.

Salient Feature of DDUGJY

- The existing Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY) has been subsumed in the DDUGJY.
- All Discoms are eligible for financial assistance under the scheme.
- Rural Electrification Corporation Limited (REC) will be the nodal agency for implementation of the scheme.
- All villages and households shall be electrified.
- Increase in agriculture yield.
- Business of Small and household enterprises shall grow resulting into new avenues for employment.
- Improvement in Health, Education, Banking (ATM) services.
- Improvement in accessibility to radio, telephone, television, internet and mobile.
- Betterment in social security due to availability of electricity.
- Accessibility of electricity to schools, panchayats, hospitals and police stations.
- Rural areas shall get increased opportunities for comprehensive development.

National LED Programme

Launched : 5 January, 2015

Objectives

- To promote efficient lighting
- To reduce electricity bills and help preserve environment

EBD_7894

Salient Feature of National LED Programme

- LED bulbs are provided to domestic consumers with a target to replace 77 crore incandescent bulbs with LED bulbs.
- EESL (Energy Efficiency Services Ltd.) enables domestic households to procure LED lights at an affordable price of Rs. 10/- each and the balance on easy instalment from their electricity bill.
- Bachat Lamp Yojana (offered CFL at the cost of incandescent bulb) was replaced by DELP Scheme (Domestic Efficient Lighting Program- provided LED bulbs). This scheme is now called as UJALA.

UNNAT JYOTI BY AFFORDABLE LEDS FOR ALL (UJALA)

Launched : 1 May, 2015

Objectives

- To promote efficient lighting.
- To reduce electricity bills and help preserve environment.

Salient Features of UJALA

- LED bulbs are provided to domestic consumers with a target to replace 77 crore incandescent bulbs with LED bulbs.
- EESL (Energy Efficiency Services Ltd.) enables domestic households to procure LED lights at an affordable price of Rs. 10/- each and the balance on easy installment from their electricity bill.
- Bachat Lamp Yojana (offered CFL at the cost of incandescent bulb) was replaced by DELP Scheme (Domestic Efficient Lighting Program- provided LED bulbs). This scheme is now called as UJALA.

STREET LIGHTING NATIONAL PROGRAM (SLNP)

Launched : 5 January, 2015

Objectives

- Reduce energy consumption in lighting which helps DISCOMs to manage peak demand. Mitigate climate change by implementing energy efficient LED based street lighting.
- Provide sustainable service model that obviates need for upfront capital investment as well as additional revenue expenditure to pay for procurement of LED lights.
- Enhance municipal services at no upfront capital cost of municipalities.

Salient Features of SLNP

- It is world's Largest Street Light Replacement Programme.
- EESL enables municipalities to replace conventional lights with LEDs at no upfront cost.
- The balance cost is recovered through the municipalities by monetising the energy savings.
- ULB contracts are typically of 7 years duration, where a minimum energy saving (of typically 50%) is guaranteed. Also, free replacements and maintenance of lights at no additional cost is done by EESL.

Ujwal DISCOM Assurance Yojana (UDAY)

Launched: 5 November, 2015

Objectives

- Financial turnaround and revival of Power Distribution companies (DISCOMs)
- In long term - affordable and accessible 24x7 Power for All.

Salient Feature of UDAY

- States shall takeover 75% of DISCOM debt as on 30 September 2015 over two years – by 2016-17.
- Centre will not include the debt taken over by the States as part of fiscal deficit of respective States.
- States will issue non-SLR including SDL bonds in the market or directly to the respective banks / Financial Institutions (FIs) holding the DISCOM debt to the appropriate extent.
- DISCOM debt not taken over by the State shall be converted by the Banks / FIs into loans or bonds with interest rate not more than the bank's base rate plus 0.1%. Alternately, this debt may be fully or partly issued by the DISCOM as State guaranteed DISCOM bonds at the prevailing market rates which shall be equal to or less than bank base rate plus 0.1%.
- States shall take over the future losses of DISCOMs in a graded manner and shall fund them as follows :
  - State DISCOMs will comply with the Renewable Purchase Obligation (RPO) with Ministry of Power.
  - States accepting UDAY and performing as per operational milestones will be given additional / priority funding through Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY),Integrated Power Development Scheme (IPDS), Power Sector Development Fund (PSDF) or other such schemes of Ministry of Power and Ministry of New and Renewable Energy.
  - Such States shall also be supported with additional coal at notified prices and, in case of availability through higher capacity utilization, low cost power from NTPC and other Central Public Sector Undertakings (CPSUs).
  - States not meeting operational milestones will be liable to forfeit their claim on IPDS and DDUGJY grants.
  - UDAY is optional for all States. However, States are encouraged to take the benefit at the earliest as benefits are dependent on the performance.

Integrated Power Development Scheme (UDAY)

Launched : 18 September, 2015

Objective

- To provide quality and reliable 24x7 power supply in the urban area.

Salient feature of UDAY

- Financial assistance is provided to all Discoms (including private ones).
- Maximum grants provided by GoI to the states under this scheme is 75% (90% for special category states).
- The scheme provides for:
  - strengthening of sub-transmission and distribution networks in urban areas;
  - metering of distribution transformers/feeders/consumers in urban areas; and
  - IT enablement of distribution sector and strengthening of distribution network.
- The projects under the scheme shall be formulated for urban areas (Statutory Towns) only
- PFC (Power Finance Corporation Ltd) is the nodal agency.

Pradhan Mantri Sahaj Bijali Har Ghar Yojana (Saubhagya)

Launched : 25 September, 2017

Objectives

- Environmental upgradation by substitution of Kerosene for lighting purposes
- Improvement education services
- Better health services
- Enhanced connectivity through radio, television, mobiles, etc.
- Increased economic activities and jobs
- Improved quality of life especially for women

Salient Feature of Saubhagya

- The total outlay of the project is Rs.16,320 crore with rural households commanding a share of 86 per cent. Gross Budgetory Support (GBS) accounts for nearly three-fourths of the total outlay.
- The government of India will provide grant of 60 per cent to state governments, while state government (utilities) will be required to bring in 10 per cent of the total project outlay. The remaining 30 per cent will come from loans from banks and other lending agencies. For special states (economically weak states and north-eastern states), the funding pattern is different.
- Beneficiaries for free electricity connections would be identified using Socio Economic and Caste Census (SECC) 2011 data. However, un-electrified households not covered under the SECC data would also be provided electricity connections under the scheme on payment of Rs.500 which shall be recovered by power distribution utilities in 10 installments through electricity bills.
- For un-electrified that are located in remote and inaccessible areas, solar power packs of 200-300 W with battery banks will be provided. Households will be equipped with five LED lights, one DC (direct current) fan and one DC power plug. The package will also include repair and maintenance (R&M) for a period of five years.
- Smart technology: For easy and accelerated implementation of the scheme, modern technology shall be used for household survey by using mobile apps. Beneficiaries shall be identified and their application for electricity connection along with applicant photograph and identity proof shall be registered on spot.
- The Gram Panchayat and other public institutions in the rural areas may be authorised to collect application forms along with complete documentation, distribute bills and collect revenue in consultation with the Panchayat Raj Institutions and urban local bodies.
- Rural Electrification Corporation Ltd will continue to remain the nodal agency for the operationalisation of the scheme throughout the country.

SAATHI (Sustainable and Accelerated Adoption of efficient Textile technologies to Help small Industries)

Launched : 24 October, 2017

Objective

- Features to increase efficiency of small and medium Powerloom units through energy and cost savings.

Salient feature of SAATHI

- A joint initiative of Ministry of Power and Ministry of Textiles .
- Energy Efficiency Services Limited (EESL), would procure energy efficient Powerlooms, motors and Rapier kits in bulk and provide them to the small and medium Powerloom units at no upfront cost.
- EESL will be repaid over a period of 4 to 5 year in installments through resulting energy and cost savings by the owner.
- Cluster wise demonstration projects and workshops will be organized.

Kisan Urja Suraksha Evam Utthaan Mahabhiyan (KUSUM)

Launched : 2018

Objective

- It aims to incentivise farmers to run solar farm water pumps and use barren land for generating solar power to have extra income.

EBD_7894

Salient Feature of KUSUM

- Utilisation of barren land by farmers to generate 10,000 MW of solar energy and sell it to grid. For this, discoms would be given 50 paise per unit as generation-based incentives to buy power from farmers for five years.
- The government will provide subsidy to farmers for buying 17.5 lakh off grid solar farm pumps. The Centre and the states will provide 30% subsidy each on solar pumps. Another 30% will be met through loans while 10% of the cost will be borne by the farmer.
- Solarisation of grid-connected farm pumps involving 7,250 MW capacity.
- Solarisation of government departments' grid connected water pumps.
- The total cost of the capacities under this scheme would be Rs 1.4 lakh crore, out of which, the Centre will provide Rs 48,000 crore financial assistance.

Jawaharlal Nehru National Solar Mission (JNNSM)

Launched : 11 January, 2010

Objectives

- To establish India as a global leader in solar energy.
- The target of the mission is to create 100 GW (earlier target was 20 GW) solar power capacity by 2022.
- The target will principally comprise of 40 GW Rooftop and 60 GW through Large and Medium Scale Grid Connected Solar Power Projects.
- The target also includes setting up of dedicated manufacturing capacities for poly silicon material to annually make about 2 GW capacity of solar cells.
- To promote programmes for off grid applications, reaching 2000 MW by 2022 including 20 million solar lighting systems.
- To achieve 20 million sq. solar thermal collector area by 2022.

Salient Feature of JNNSM

- The Mission has 3 phases i.e. Phase I (2010-13), Phase II (2013-15) and Phase III (2017-22).
- This capital subsidy will be provided for Rooftop Solar projects in various cities and towns, for Viability Gap Funding (VGF) based projects to be developed through the Solar Energy Corporation of India (SECI) and for decentralized generation through small solar projects .
- The Government may approach bilateral and international donors as also the Green Climate Fund for achieving this target.

Atal Jyoti Yojana

Objectives

- Features to provide Solar Street Lighting Systems for public use and to popularise solar energy.
- People of the 5 states - Assam, Bihar, Jharkhand, Odisha and Uttar Pradesh.

Salient Feature of Atal Jyoti Yojana

- It is a sub-scheme under Off-Grid and Decentralized Solar Application Scheme of MNRE.
- Energy Efficiency Services limited (EESL) is its implementing agency
- Under this scheme Solar LED Lights are to be installed in rural, semi-urban and urban areas which do not enjoy adequate coverage of power.

Green Energy Corridor Project

Launched : 2013

Objective

- Its objective is to synchronise electricity produced from renewable sources, such as solar and wind, with conventional power stations in the grid.

Salient Feature of Green Energy Corridor Project

- Construction of the inter-state transmission network for connecting renewable energy-rich states under Green Corridor-I will be completed.
- Besides, a Green Corridors-II for solar parks is also started which is connecting solar parks in different states including Andhra Pradesh, Madhya Pradesh, Karnataka, Rajasthan and Gujarat.
- The first phase of the program is designed to support 33 GW of solar and wind power, while the second phase will link 22 GW capacity.
- As of now, there are 33 solar projects in 21 states including Rajasthan, Madhya Pradesh, Gujarat, Telangana, Andhra Pradesh, Karnataka, Uttar Pradesh, Jammu & Kashmir, Punjab, Tamil Nadu and Odisha, among others.
- The government aims to create an ambitious 175 GW of renewable energy capacity by 2022.

Development of Solar Cities Scheme

Launched : September, 2011

Objective

- to motivate the local Governments for adopting renewable energy technologies and energy efficiency measures.

Salient Features of Development of Solar Cities Scheme

- The Solar City aims at minimum 10% reduction in projected demand of conventional energy at the end of five years (2012-17), through enhanced supply from renewable energy sources and energy efficiency measures.
- The program assists Urban Local Governments by providing financial assistance up to Rs. 50.00 Lakhs per city/town and technical help.
- A total of 60 cities/towns are proposed to be supported for development as Solar Cities.

Scheme for Development of Solar Parks and Ultra Mega Power Project

Launched : 22 February, 2017

Objectives

- promote ecologically sustainable growth by reduction in carbon emissions and carbon footprint.
- To provide a huge impetus to solar energy generation by acting as flagship demonstration facility to encourage project developers and investors.
- To enable states to bring in significant investment from project developers to meet its Solar Renewable Purchase Obligation mandate and to provide employment to local population .
- contribute to long term energy security of the state by avoiding procurement of expensive fossil fuels for conventional power plants.

Salient Features of Scheme for Development of Solar Parks and Ultra Mega Power Project

- 40 GW solar power capacity will be generated under the scheme by 2019-20.
- It would ensure setting up of at least 50 solar parks each with a capacity of 500 MW and above in various parts of the country.
- Smaller parks in Himalayan and other hilly States with difficult terrain will also be considered under the scheme.
- All the States and UTs are eligible for benefits under the scheme.
- Solar Energy Corporation India (SECI) will administer the scheme under the direction of MNRE. The approved grant will be released by SECI.
- The State Governments/UTs are required to select the SPPD (solar power park developer) for developing and maintaining the solar parks.

Surya Mitra Skill Development Program

Launched : 2018

Objectives

Solar PV Technician course (Suryamitra Program) has been designed with the objective to develop skilled and employable workforce (Suryamitras) catering to the needs of Solar PV industries and EPC Projects as below:

- The Suryamitras should be able to perform the jobs related to Design, Component Procurement, Site Survey, Installation, Commissioning and Operation & Maintenance of a Solar PV system in EPC projects.
- The Suryamitras should be capable to take positions as SPV Technicians as well as other supervisory and managerial posts in Solar PV component manufacturing organizations.
- Suryamitras should also be capable of taking assignments as entrepreneurs for Self Employment. Min. 10% of the Suryamitras should come-out to take such assignments.

Salient Feature of Surya Mitra Skill Development Program

- MNRE is the sponsor (100%) and NISE (National Institute of Solar Energy) is implementing the scheme.
- It is a skill development program of duration 600 hrs or 90 days.
- Special emphasis is given to skill youth from SC/ST/ OBC categories.
- The qualification required to participate in the program is ITI (Electrical & Wireman)/Diploma in Engineering (Electrical, Electronics & Mechanical). Higher qualified participants such as B. Tech etc are not eligible for this programme.
- short term training programmes for small hydro, entrepreneurship development, operation & maintenance of solar energy devices and boiler operations in co-generation plants are also organised.

MINISTRY OF MINORITY AFFAIRS

Cyber Gram

Launched : February, 2014

Objectives

- To provide hands-on training in computers for the students of Minority Community and to enable them to acquire basic ICT skills that would empower them to :
  - Become digitally literate.
  - Actively participate in knowledge based activities.
  - Access financial, social and government services.
  - Use Internet for communications.
  - Reinforcing the learning of trained beneficiaries by providing free Internet access for 30 hours.

Salient Feature of Cyber Gram

- The Union Government and State Government contribution will be 75:25 (90:10 for NE states including Sikkim).
- The Cybergram Initiative is a component under Multi-Sector Development Program (MsDP) of the ministry of minority affairs.
- Common Service Centres e-Governance services India Ltd (CSC SPV) will prescribethirty-nine (39) hours Basic Computer Concepts (BCC) syllabus for the training.
- The Village Level Entrepreneur VLEs (having computers and internet availability) near Madrasas/ Schools would be the lowest level in the implementation structure of the Initiative and would be the Training Centre under the Initiative.

EBD_7894

Hamari Dharohar

Launched : 2014-15

Objectives

- To curate rich heritage of minorities under overall concept of Indian Culture.
- Curating iconic exhibitions.
- Preservation of literature/ documents etc.
- Support and promotion ofcalligraphy etc.
- Research and Development.

Salient Feature of Hamari Dharohar

- Curating exhibitions including iconic exhibitions.
- Support and promotion of calligraphy etc.
- Preservation of literature, documents, manuscripts etc.
- Documentation of oral traditions and art forms.
- Support to ethnic museums (not supported under schemes of Ministry of Culture or its bodies) for showcasing and preserving heritage of minority communities.
- Support for organizing heritage related seminars/ workshops.
- Fellowship for research in preservation of heritage and development.
- Any other support to individual/ organization in furtherance of cause of protection and promotion of rich heritage of minority communities.

Jiyo Parsi

Launched : 2013

Objectives

- To reverse the declining trend of Parsi population by adopting a scientific protocol and structured interventions (infertility treatment), stabilize their population and increase the population of Parsis in India.
- To bring attitudinal change regarding health of the community.

Salient Feature of Jiyo Parsi

- It is a Central sector scheme
- Advocacy: counseling, workshops, etc
- Health of the community: crèche/ childcare support, senior citizen honorarium for childcare, assistance to elderly.
- Medical assistance: financial assistance for Assisted Reproductive technology including IVF and surrogacy
- Out-reach program/Information, education and communication.

Nai Manzil

Launched : 8 August, 2015

Objective

- The Scheme aims to benefit the minority youths who do not have a formal school leaving certificate, i.e those in the category of school- dropouts or educated in community education institutions like Madarsas, in order to provide them formal education and skills, and enable them to seek better employment and livelihoods in the organised sector.

Salient Feature of Nai Manzil

- It is an integrated scheme of education and skill.
- A Non-residential programme of 9-12 months duration involving a Basic Bridge Programme (For Class VIII or Class X) is provided.
- Minimum 30% seats are earmarked for minority girls.
- World Bank supports the scheme.
- The women trained under "Nai Roshni", scheme for leadership development of Minority women, will also be used as mobilizers for this scheme.

Padho Pradesh

Launched : 2013-14

Objective

- To award interest subsidy to meritorious students belonging to economically weaker sections of notified minority communities so as to provide them better opportunities for higher education abroad and enhance their employability.

Salient Feature of Padho Pradesh

- The prime motto of this scheme is to provide the support for educational welfare for minorities by offering an educational loan with a subsidiary in interest rates.
- The subsidy in loan interest will be continued until the end of the course.
- Students who need a loan for partial courses can also get benefited. Subsidy for the educational loan will be offered up to 100% in interest rates.

Nai Uddan

Launched : May, 2016

Objective

- The purpose of this scheme is to provide financial support to the minority candidates those who have cleared prelims conducted by Union Public Service Commission, Staff Selection Commission and State Public Service Commissions to adequately prepare them to compete for appointment to Civil Services in the Union and the State Governments and to increase the representation of the minority in the Civil Services.

Salient Feature of Nai Uddan

- In this central sector Scheme every year up to 2000 candidates will be given financial support under the scheme throughout the country on fulfilling the eligibility criteria till the budgetary allocation is exhausted.

- Financial support will be availed by candidate for one time only
- Selection of the candidates will be based on first-come-first- serve basis
- The distribution of slots for different minorities is based on the data of Census, 2011.

Nai Roshni

Launched : 2012-13

Objectives

- Leadership Development of Minority Women.
- To empower and instil confidence among minority women by providing knowledge, tools and techniques for interacting with Government systems, Banks and other institutions at all levels.

Salient Feature of Nai Roshni

- Organisations eligible under the scheme for applying for financial assistance.
- The scheme will be implemented through the above organisations with the aid of Ministry of Minority Affairs.
- Leadership development training modules will be developed pertaining to rights of women in education, employment, livelihood etc; these will be used to empower women.
- Specific training modules will also be based on local needs and issues faced by women from the minority community.
- Training modules will include audio visual aids and case studies and qualities of leadership will form an integral part of the training.
- Outside agencies may also be engaged for preparation of training modules.
- Committee will also be there for approving training modules.
- Scheme aims to empower minority women and it is chiefly implemented through NGOs.
- Under current guidelines, scheme is implemented through Gram Panchayat at village level and local urban bodies at district level.
- It is also telecast in electronic media in Hindi and regional languages.

USTTAD (Upgrading the Skills and Training in Traditional Arts/Crafts for Development)

Launched : 2015

Objective

- To preserve heritage of traditional arts and crafts of minority communities and build capacity of traditional crafts persons and artisans and establish linkages of traditional skills with the global market.

Salient Feature of USTTAD

- It envisages boosting the skill of craftsmen, weavers and artisans who are already engaged in the traditional ancestral work.
- Exhibition/Marketing of their products will be done through Hunar Haat and Shilp Utsav.
- Under the scheme, assistance will be provided to traditional artisans to sell their products in order to make them more compatible with modern markets.
- It is fully funded by Union Government.
- Applicable for all areas in India.
- Training on soft skills, spoken english and IT will also be provided.
- More than one member of the family is eligible to gain benefits.
- USTTAD apprenticeship stipened for R&D will be provided.

Maulana Azad National Academy for Skills (MANAS)

Launched : March, 2016

Objectives

- MANAS is an ambitious and over-arching skill development architecture, aimed at providing an all India Level training framework, based upon tie-ups with National/International training organizations (on PPP mode) for imparting training to the minority population, for skills that are currently in demand.
- MANAS will also provide concessional credit for minority community after meeting their Skilling Needs for expanding their existing businesses and setting up new businesses.

Salient Feature of MANAS

- Setup as SPV for expanding access to skill development programme for marginalized sections of minority communities – All India collaborative framework (based on PPP mode).
- Focus on entire spectrum of skill sets in demand by the market meet credit requirement for self employment – wide range of Skill based Courses, of different durations/ levels.
- Provide a sustainable and scalable model, with great flexibility Training Programmes can be tailor made for implementation in any part of the country, for any skill sets, for any level of training with multiple choices in terms of funding etc.
- Meet diverse skill training/up-gradation needs of minority communities in terms of Identification, Preservation & Promotion of their traditional arts/ crafts, vocations under schemes like Hamari Dharohar, USTAAD etc.
- Convergence of Financial & Development activities of the Corporation & Linkages with leading local / national & international organizations for all its activities from training to placements in job/ self

EBD_7894

employment projects for trainees, for providing high quality skill training.

- Provides highly transparent, credible and almost leak proof Skill Development Framework, by extensive use of ICT Biometric based attendance system of trainees and trainers, Live CCTV coverage of on ongoing training, highly interactive website providing comprehensive information, to all stake holders.

Seekho aur Kamao (Learn and Earn)

Launched : 2013-14

Objectives

- To preserve and upgrade traditional skills of minorities and establish their linkages with market potential.
- To improve employability of existing workers, school dropouts etc. and place the candidates in job.
- To have better livelihood for marginalized minorities and bring them into the mainstream.
- To enable minorities to avail opportunities in the growing market.
- To develop potential human resource for the country.
- To empower the minority communities by providing them skill development training.
- To reduce unemployment rate of minorities.

Salient Feature of Learn and Earn

- This a Central Sector scheme.
- It has two components:
  - Placement Linked skill training program for modern trades.
  - Skills training program for traditional art forms/ crafts/trades.
- The skill training for modern skills must result in 75% placement, out of which 50% should be in organised sector.
- It is a PPP based scheme, and priority will be given to institutions which guarantee 75% placements.
- SHGs will be created.

MINISTRY OF LAW AND JUSTICE

Pro Bono Legal Service

Launched : April, 2017

Objectives

- To encourage lawyers and legal professionals to provide pro bono legal services.
- To recognize pro bono legal work being provided by lawyers and legal professionals.
- To create a database capturing vital information of lawyers for appropriate positions in the relevant field.

Salient Feature of Pro Bono Legal Service

- The initiative is a web based platform, through which interested lawyers can register themselves to volunteer pro bono services for the underprivileged litigants.
- It aims to create a database capturing vital information of lawyers for appropriate positions in the relevant field.

Nyaya Mitra

Launched : 20 April, 2017

Objective

- Nyaya Mitra scheme is aimed at reducing pendency of cases across selected districts, with special focus on those pending for more than 10 years.

Salient Feature of Nyaya Mitra

- Nyaya Mitra would be a retired judicial or executive officer (with legal experience). Function of Nyaya Mitra.
- Facilitate the connection of litigants to District Legal Service Authority (DLSA), CSC Tele Law, and other government agencies. And civil society organisations.
- Render assistance towards prison reforms.

Tele Law Scheme

Launched : 20 April, 2017

Objective

- Facilitating delivery of legal advice through an expert panel of lawyers – stationed at the State Legal Services Authorities (SLSA).

Salient Feature of Tele Law Scheme

- This scheme is called the Tele-Law scheme because that is the name that the portal will get, where people can directly go and receive legal aid.
- Such video conferencing can be arranged at the CSC which is located at the remote village as well. They will connect with paralegal volunteers or PLVs.
- The villagers will be able to contact the PLVs for their various issues. Around 1000 PLVs shall be hired for this – all of this will be women. Therefore the scheme will also aid in empowering women.
- There will be 500 CSCs all over the state and in these CSCs there will be two PLVs each to assist with the legal matters.
- Such canters shall also track the progress of the applicant's cases and maintain a record of the same with the District Legal Service Authorities each week. They will be available 10 days a month in the villages.
- It shall come forth across 1000 panchayats in Uttar Pradesh and Bihar. The legal consultation will cost only Rs. 30 for the villagers but for BPL people, this amount will immediately return to their account.
- The PLVs shall get a remuneration of Rs. 500 instead of Rs. 250 per day which they used to get until recently. This shall be on a per day basis depending upon the day when they are providing their assistance.
- The project would be launched across 1800 panchayats in Uttar Pradesh, Bihar, North Eastern States and Jammu & Kashmir.

MINISTRY OF MINES

Pradhan Mantri Khanij Kshetrra Kalyan Yojana (PMKKKY)

Launched : 17 September, 2015

Objectives

- To implement various developmental and welfare projects/programs in mining affected areas that complement the existing ongoing schemes/projects of State and Central Government;
- To minimize/mitigate the adverse impacts, during and after mining, on the environment, health and socio-economics of people in mining districts; and
- To ensure long-term sustainable livelihoods for the affected people in mining areas.

Salient Feature of PMKKKY

- The Pradhan Mantri Khanij Kshetra Kalyan Yojana (PMKKKY) is implemented by the District Mineral Foundations (DMFs) of the respective districts using the funds accruing to the DMF.
- In the case of all mining rents executed before 12th January, miners had to contribute an amount equal to 30% of the royalty payable by them to the DMFs.
- Where mining leases are granted after 12.01.2015, the rate of contribution would be 10% of the royalty payable.
- Using the funds generated by this contribution, the DMFs are expected to implement the PMKKKY. By these rates of contribution, it's expected that with current level of royalty collection in the country, nearly Rs.6000 crore would be utilized for the implementation of PMKKKY in mining areas of different States.
- The Central Government issued a directive to the State Governments, under Section 20A of the MMDR Act, 1957 providing guidelines for implementation of PMKKKY and directing the States to incorporate the same in the rules framed by them for the DMFs.

MINISTRY OF PANCHAYATI RAJ

Gram Swaraj Abhiyan

Launches : April – May, 2018

Objective

- Promote social harmony, spread awareness about propoor initiatives of government, reach out to poor hou seholds.

Salient feature of Gram Swaraj Abhiyan

- The campaign is undertaken under the name of "Sabka Sath, Sabka Gaon, Sabka Vikas"
- It is a special focused intervention of seven schemes in backward districts.
- Seven Scheme are: Pradhan Mantir Jan Dhan Yojan, Pradhan Mantri Jeevan Bimna yojana, Pradhan Mantri Suraksha Bima Yojana, SAUBHAGYA, UJALA, Pradhan Mantri Ujjwla Yojana, Mission Indradhanush.

Rshtriya Gram Swaraj Abhiyan

Launched : 21 April, 2018

Objective

- Enhance capacities and effectiveness of Panchayats and the Gram Sabha.

Salient Feature of Rshtriya Gram Swaraj Abhiyan

- This scheme will extend to all States and UTs of the Country and will also include institutions of rural local government in non-Part IX areas, where Panchayats do not exist.
- The scheme will have both Central Component - National Level activities including "National Plan of Technical Assistance", "Mission Mode project on e-Panchayat", "Incentivization of Panchayats" and State component - Capacity Building of Panchayati Raj Institutions (PRIs).
- The Central Component will be fully funded by the Government of India. However, Centre:State funding pattern for State Component will be 60:40 for all States, except North East and Hill States where Centre:State funding pattern will be 90:10. For all Union Territories (UTs) (with and without legislatures), the Central share will be 100%.
- The implementation and monitoring of the activities of the scheme will broadly be aligned for achieving the Sustainable Development Goals (SDGs) with main thrust on Panchayats identified under Mission Antyodaya and 115 Aspirational districts as identified by NITI Aayog.
- The Scheme will converge capacity building initiatives of other Ministries with particular focus on those Ministries which will be impacted substantially by this Scheme.
- This scheme will extend to all States and UTs of the country and will also include institutions of rural local government in non-Part IX areas, where Panchayats do not exist.

MINISTRY OF RURAL DEVELOPMENT

Saansad Adarsh Gram Yojana (SAANJHI)

Launched : 11 October, 2014

Objectives

- To trigger processes which lead to holistic development of the identified Gram Panchayats.
- To substantially improve the standard of living and quality of life of all sections of the population through
- Improved basic amenities
- Higher productivity
- Enhanced human development

EBD_7894

- Better livelihood opportunities
- Reduced disparities
- Access to rights and entitlements
- Wider social mobilization
- Enriched social capital
- To generate models of local level development and effective local governance which can motivate and inspire neighboring Gram Panchayats to learn and adapt.
- To nurture the identified Adarsh Grams as schools of local development to train other Gram Panchayats.

Salient Feature of SAANJHI

- It aims to develop three Adarsh Grams by March 2019, of which one would be achieved by 2016. Thereafter, five such Adarsh Grams (one per year) will be selected and developed by 2024.
- Gram Panchayat would be the basic unit for development. It will have a population of 3000-5000 in plain areas and 1000-3000 in hilly, tribal and difficult areas. • Member of Parliament (MP) will identify one Gram Panchayat to be taken up immediately, and two others to be taken up a little later.
- Lok Sabha MP has to choose a Gram Panchayat from within his/her constituency and Rajya Sabha MP a Gram Panchayat from the rural area of a district of his/her choice in the State from which he/she is elected.
- Nominated MPs may choose a Gram Panchayat from the rural area of any district in the country.
- In the case of urban constituencies (where there are no Gram Panchayats), the MP will identify a Gram Panchayat from a nearby rural consitutency.
- The scheme will be implemented through a village development plan that would be prepared for every identified gram Panchayat.
- Model of development strategy from supply-driven to demand-driven
- SAANJHI aims at instilling certain values, such as
  - People's participation,
  - Antyodaya,
  - gender equality, dignity of women,
  - Social justice, spirit of community service,
  - Cleanliness, eco-friendliness, maintaining ecological balance,
  - Peace and harmony, mutual cooperation,
  - Self-reliance, local self-government,
  - Transparency and accountability in public life, etc.

Pradhan Mantri Gram Sadak Yojana(PMGSY)

Launched : 25 December, 2000

Objective

- To provide single all-weather road connectivity to all eligible unconnected habitations in rural areas with population of 500 persons and above (in plain areas) and 250 persons and above (in hilly states, desert areas, tribal areas and selected tribal and backward districts).

Salient Feature of PMGSY

- 75 paise per liter has been earmarked for this scheme out of cess levied on high speed diesel.
- The unit for this program is a habitation and not a revenue village.
- It also has an upgradation component with a target to upgrade existing rural roads in order to ensure full farm to market connectivity. PMGSY-II aims to cover upgradation of existing selected rural roads based on a criterion to make the road network vibrant.
- PMGSY is aggressively encouraging use of "Green Technologies" and non-conventional materials like waste plastic, cold mix, geo-textiles, fly-ash, iron and copper slag etc. in rural roads.

Mission Antyodaya

Launched : 2017

Objectives

- Secured and easy to operate.
- Easy to Access the information anywhere anytime.
- Role based authentication.
- Thrust on sustainable economic activity.
- Linking micro enterprises to markets- scale.
- Measuring outcomes against baseline.
- The Socio Economic Caste Census (SECC) 2011 for the first time provides us the names of households and their deprivation enabling evidence-based intervention for many anti-poverty programs.

Salient Feature of Mission Antyodaya

- It is a State - led accountability and convergence framework for rural transformation to make a real difference based on measurable outcomes to the lives of 1,00,00,000 households in 5,000 rural clusters or 50,000 Gram Panchayats in 1,000 days.
- Gram Panchayat is the basic unit for monitoring transformation and for ranking on the basis of objective criteria.
- Over 25 departments and ministries of Central and State Governments will be participating in this Mission through their specific programmes and schemes.
- Key Processes under Mission Antyodaya:
  - Carry out baseline survey of households and monitor the progress periodically.
  - Ensure convergence of programmes/ schemes targeted towards development of rural areas.
  - Institutionalize partnerships at Gram Panchayat/ cluster between PRIs, community organizations, NGOs, SHGs, institutions and field level functionaries of different departments (e.g., ASHA workers, Anganwadi Workers, etc.)
  - Promote enterprise through partnership with institutions and professionals.

Pradhn Mantri Avas Yojana

Launched : 25 June, 2015

Objectives

- Provide a pucca house, with basic amenities, to all houseless householder and households living in kutcha and dilapidated house in rural areas by 2022.
- Immediate objective is to cover 1.00 crore households which are houseless or living in kutcha house/ dilapidated house in three years from 2016-17 to 2018- 19.

Salient Feature of Pradhn Mantri Avas Yojana

- Unit assistance of Rs. 1.20 lakh in plain and Rs 1.30 lakh in hilly states, difficult areas and IAP district.
- Provision of assistance for toilets (Rs. 12000) for construction of toilets though convergence with Swacch Bharat Mission-Gramin, MGNREGS or any other dedicated the source of funding.
- The cost of unit assistance is to be shared between Central and State Government in the ratio 60:40 in plain areas and 90:10 for North Eastern and the Himalayan States.
- Beneficiary selection is to be done using housing deprivation parameters in the Socio Economic and Caste Census (SECC), 2011 to be verified by Gram Sabha.
- It allows for construction using local materials and local house designs. The beneficiary to be assisted by in-house construction with house design typologies inclusive of disaster resilience features the are suitable to their local geo-climatic conditions.
- A pan-India training and certification programme of Masons has been launched in the States/UTs.

Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)

Launched : 2006

Objectives

- Providing not less than 100 days of unskilled manual work as a guaranteed employment in a financial year to every household in rural areas as per demand, resulting in creation of productive assets of prescribed quality and durability;
- Strengthening the livelihood resource base of the poor;
- Proactively ensuring social inclusion ; and
- Strengthening Panchayati Raj Institutions.

Salient Feature of MGNREGA

- Strong social safety net for the vulnerable groups by providing a fall-back employment source, when other employment alternatives are scarce or inadequate.
- Growth engine for sustainable development of an agricultural economy. Through the process of providing employment on works that address causes of chronic poverty such as drought, deforestation and soil erosion, the Act seeks to strengthen the natural resource base of rural livelihood and create durable assets in rural areas.
- Empowerment of rural poor through the processes of a rights-based Law.
- Adult members of a rural household, willing to do unskilled manual work, may apply for registration in writing or orally to the local Gram Panchayat.
- The Gram Panchayat after due verification will issue a Job Card. The Job Card will bear the photograph of all adult members of the household willing to work under MGNREGA and is free of cost
- The Job Card should be issued within 15 days of application.
- A Job Card holder may submit a written application for employment to the Gram Panchayat, stating the time and duration for which work is sought. The minimum days of employment have to be at least fourteen.
- The Gram Panchayat will issue a dated receipt of the written application for employment, against which the guarantee of providing employment within 15 days operates.
- Work should ordinarily be provided within 5 km radius of the village. In case work is provided beyond 5 km, extra wages of 10% are payable to meet additional transportation and living expenses.
- Wages are to be paid according to the Minimum Wages Act 1948 for agricultural labourers in the State, unless the Centre notifies a wage rate which will not be less than Rs. 60/ per day. Equal wages will be provided to both men and women.
- At least one-third beneficiaries shall be women who have registered and requested work under the scheme.
- Work site facilities such as crèche, drinking water, shade have to be provided.
- The shelf of projects for a village will be recommended by the gram sabha and approved by the Zilla panchayat.
- At least 50% of works will be allotted to Gram Panchayats for execution.
- The Central Government bears the 100 percent wage cost of unskilled manual labour and 75 percent of the material cost including the wages of skilled and semi-skilled workers.

Shyama Prasad Mukherji Rurban Mission (SPMRM)

Launchrd : 2016

Objective

- To stimulate local economic development, enhance basic services, and create well planned Rurban clusters.

Salient Feature of SPMRM

- It aims to create 300 rural growth clusters across the country to:

EBD_7894

- bridge the rural urban divide- economic, technological and those related to facilities and services.
- spread development in the region.
- attract investment in the rural areas.
- stimulate local economic development with emphasis on reduction of poverty and unemployment in rural areas.

- A 'Rurban cluster', would be a cluster of geographically contiguous villages with a population of about 25000 to 50000 in plain and coastal areas and with a population of 5000 to 15000 in desert, hilly or tribal areas.
- Clusters will be selected by the state governments.
- The State Government shall identify existing Central Sector, Centrally Sponsored and State Government Schemes relevant for the development of the cluster and converge their implementation in an integrated and time bound manner.
- Central Government shall provide Critical Gap Funding (CGF) to the clusters to supplement the shortfall in funding available through various Government schemes in achieving the outcomes.
- The scheme will function with 14 mandatory components to ensure an optimum level of development of a cluster, which include skill development training linked to economic activities, digital literacy, fully equipped mobile health unit and inter-village road connectivity.

Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

Launched : 2016

Objectives

- To provide technical and professional support to the States to transit to the Mission mode, establish Mission implementation architecture and systems and prepare State Perspective and Implementation Plans (SPIPs) and Annual Action Plans (AAPs) and undertake appraisal of the SPIPs and AAPs.
- To provide professional support to the National Rural Livelihood Mission and the State Rural Livelihood Missions in the development of strategies for promoting social mobilization and inclusion, community institution building, capacity building, financial literacy and inclusion including SHG credit linkage and insurance, livelihood promotion, redemption of entitlements, convergence with other programmes, and monitoring and evaluation of the Mission activities.
- To undertake the capacity building and training programmes to strengthen the National Rural Livelihoods Mission and State Rural Livelihoods Missions.
- To guide and support the State Rural Livelihoods Missions, the Resource States and the National Resource Organizations under NRLM to conduct capacity building and training programmes for various stakeholders and facilitate inter-state collaboration in all Mission activities.
- To undertake all activities necessary to strengthen Panchayati Raj Institutions (PRIs) to enable them to discharge their functions related to National Rural Livelihoods Mission.
- To promote participatory micro level planning for convergent poverty reduction.
- To provide professional support to the Central and State Governments in implementation of the Placement linked Skill Development Programme.
- To set up an efficient ICT based Management Information System for monitoring the implementation of NRLM and provide periodic financial and physical progress reports to the Ministry.
- To provide technical support to the Central Government and the State Governments on convergence of NRLM activities with other programmes/schemes of the Government of India and the State Governments.
- To enter into partnership and collaboration with other public and private institutions, banks, insurance companies, universities and other academic institutions, agencies, CSOs, N.G.Os, Community Based Organisations (CBOs) and other bodies of repute, both national and international, in areas relevant to the objectives of NRLM.
- To undertake and support research, evaluation and other studies related to matters having a bearing on the objectives of NRLM which would provide inputs for improving the quality of implementation of NRLM.
- To collect information on and document best national and international practices, models and innovations in social mobilisation, financial inclusion, vulnerability reduction, livelihood promotion and public private partnerships and promote their replication.
- To organize conferences, symposia, workshops, consultation, seminars etc. on areas related to NRLM and other poverty alleviation programmes.
- To publish books, pamphlets and literature and take up or arrange production of print, audio and audio visual publicity material related to NRLM.
- To appoint professionals, consultants, retainers and other employees on contract or on deputation basis to carry out the functions of the Society.
- To receive grants in aid from the Government of India and resource support including financial support from national and international Agencies/ Organisations to undertake activities in furtherance of the objects of the Society.
- To acquire, hire or take on lease property, movable or immovable, and provide their maintenance as may be necessary to carry out the objects of the Society.

- To hire, lease, transfer or dispose of any movable or immovable property of the Society. The disposal and transfer of immovable property however shall be subject to prior approval of the Central Government.
- To incur expenditure on the basis of annual budget for carrying out the objectives of the Society in accordance with the Rules and Bye-Laws of the Society with due regard to economy and probity.
- To do all such other things as may be necessary, ancillary, incidental or conducive to the attainment of all or any of the objects of the Society.
- To perform any other tasks assigned to the society by the Central Government.

Salient Feature of DAY-NRLM

- **Universal Social Mobilization:** NRLM would ensure that at least one member from each identified rural poor household, preferably a woman, is brought under the Self Help Group (SHG) network in a time bound manner. NRLM would ensure adequate coverage of vulnerable sections of the society such that 50% of the beneficiaries are SC/STs, 15% are minorities and 3% are persons with disability, while keeping in view the ultimate target of 100% coverage of BPL families.
- **Promotion of Institutions of the poor:** Strong institutions of the poor such as SHGs and their village level and higher level federations would be promoted.
- **Training, Capacity Building and Skill Building:** NRLM would ensure that the poor are provided with the requisite skills for: managing their institutions, linking up with markets, managing their existing livelihoods, enhancing their credit absorption capacity and credit worthiness, etc.
- **Revolving Fund and Capital Subsidy:** Subsidy would be available in the form of revolving fund and capital subsidy.
- **Universal Financial Inclusion:** NRLM would work towards achieving universal financial inclusion, beyond basic banking services to all the poor households, SHGs and their federations.
- **Provision of Interest Subsidy:** The rural poor need credit at low rate of interest and in multiple doses to make their ventures economically viable.
- NRLM would look at the entire portfolio of livelihoods of each poor household, and work towards stabilizing and enhancing the existing livelihoods and subsequently diversifying their livelihoods.
- **Infrastructure creation and Marketing support:** NRLM would seek to ensure that the infrastructure needs for key livelihoods activities of the poor are fully met. 20% of the state's programme outlay is reserved for this purpose.
- **Skills and Placement Projects:** NRLM would pursue skill upgradation and placement projects through partnership mode as it is one of the best investments in youth, and provides impetus to livelihoods opportunities in emerging markets. National Skill Development Corporation (NSDC) would be one of the leading partners in this effort. 15% of the central allocation under NRLM is earmarked for this purpose.
- NRLM encourages public sector banks to set up RSETIs in all districts of the country. RSETIs transform unemployed rural youth in the district into confident self-employed entrepreneurs through need-based experiential learning program followed by systematic handholding support.
- **Innovations:** NRLM believes that successful innovations can reduce the learning curve for poverty eradication by showing a better pathway or a different pathway out of poverty. 5% of the Central allocation is earmarked for innovations.
- **Convergence:** NRLM would place a very high emphasis on convergence with other programs of the Ministry of Rural Development and other Central Ministries, and programs of state governments for developing synergies directly and through the institutions of the poor.
- **Partnerships with NGOs and other CSOs:** NRLM would proactively seek partnerships with Non-Government Organizations (NGOs) and other Civil Society Organizations (CSOs), at two levels - strategic and implementation.
- **Linkages with PRIs:** Formal mechanisms would be established for regular consultations between the institutions of the poor and the PRIs for exchange of mutual advice, support and sharing of resources. However, care would be taken to protect their autonomy. Where there are no PRIs, the linkages would be with traditional local village institutions.
- **External Sensitive Support Structures:** NRLM's process-intensive effort would require dedicated human resources. Realizing this, NRLM would be setting up sensitive and dedicated support structures at the National, State, district and sub-district levels. NRLM Advisory, Coordination and Empowered Committees and National Mission Management Unit at the national level, State Rural Livelihoods Missions (SRLMs) as autonomous bodies and State Mission Management Units at state level, District Mission Management Units at district level, and sub-district units at block and/or cluster levels would constitute these support structures. These structures would have suitable linkages with Government(s), District Rural Development Agencies (DRDAs), and PRIs.
- **Technical Support:** NRLM would provide technical assistance to the States and all other partners for creating and strengthening their institutional capacities for its effective implementation.

EBD_7894

- **Monitoring and Learning:** NRLM would monitor its results, processes and activities through web-enabled comprehensive MIS, regular meetings of the Performance Review Committee(s), visits by senior colleagues, Local, District, State and National Monitoring Groups and the mechanisms of Review and Planning Missions. Process monitoring studies, thematic studies and impact evaluations would provide inputs to the above. It would also promote social accountability practices to introduce greater transparency.
- **Funding Pattern:** NRLM is a Centrally Sponsored Scheme and the financing of the program would be shared between the Centre and the States in the ratio of 75:25 (90:10 in case of North Eastern States including Sikkim; completely from the Centre in case of UTs).
- **Phased Implementation:** A phased implementation approach is adopted in NRLM. NRLM would reach all districts and blocks by the end of 12th Five-year Plan. The blocks that are taken up for intensive implementation of NRLM, would have access to a full complement of trained professional staff and cover a whole range of activities of universal and intense social and financial inclusion, livelihoods, partnerships etc.
- **Transition to NRLM :** All States/UTs would have to transit to NRLM within a period of one year from the date of formal launch of NRLM. Further funding under SGSY ceases thereafter.

MINISTRY OF RAILWAYS, MINISTRY OF ROAD TRANSPORT AND MINISTRY OF SHIPPING

Avataran

Launched : Budget 2016-17

Objective

- Transformation of Indian Railways through seven Mission mode activities.

Salient feature of Avataran

- Mission 25 Tonne – It aims to increase revenue by augmenting carrying capacity. To achieve this 10-20% freight loading will be done through 25-tonne axle-load wagons in 2016-17 and target movement of 70% of freight traffic on high axle load wagons by FY19-20.
- Mission Zero Accident: It comprises of two sub missions a. Elimination of unmanned level crossings: The goal is to eliminate all unmanned level crossings on Broad Gauge in the next 3-4 years. b. TCAS (Train Collision Avoidance System): An indigenous technology has been developed to prevent head on collisions and improve throughput by increasing average sectional speeds.
- Mission PACE (Procurement and Consumption Efficiency): This mission aims to improve our procurement and consumption practices to improve the quality of goods and services.
- Mission Raftaar: It targets doubling of average speeds of freights trains and increasing the average speed of superfast mail/express trains by 25 kmph in the next 5 years. Loco hauled passenger trains will be replaced by DEMU/MEMU over the next five years. It will complement Mission 25 Tonne to increase throughput of the railway system.
- Mission Hundred: This mission will commission at least a hundred sidings in the next 2 years.
- Mission beyond book-keeping: It will establish an accounting system where outcomes can be tracked to inputs. This will transform IR as right accounting would determine right costing and hence right pricing and right outcomes.
- Mission Capacity Utilisation: It proposes to prepare a blueprint for making full use of the huge new capacity that will be created through two Dedicated Freight Corridors between Delhi-Mumbai and Delhi-Kolkata scheduled to be commissioned by 2019.

Yatri Mitra Seva

Launched : September, 2016

Objective

- To provide support to old and differently abled passengers requiring assistance at the stations.

Salient feature of Yatri Mitra Seva

- A Yatri Mitra can either be a Sahayak or any other person provided by IRCTC or the service provider appointed by IRCTC for this purpose.
- IRCTC may provide this service 'Free of cost' through some NGO, PSUs etc under CSR. However, if there is lack of response, IRCTC may arrange this service on payment basis through a service provider or on its own.
- Yatri Mitra shall provide Wheel chair cum porter services to differently abled, ailing and old person.

Bharatmala Pariyojana

Launched : 31 July, 2015

Objective

- Bharatmala Pariyojana is a new umbrella program for the highways sector that focuses on optimizing efficiency of freight and passenger movement across the country by bridging critical infrastructure gaps through effective interventions like development of Economic Corridors, Inter Corridors and Feeder Routes, National Corridor Efficiency Improvement, Border and International connectivity roads, Coastal and Port connectivity roads and Green-field expressways

Salient Feature of Bharatmala Pariyojana

- Improving the quality of roads - The launch of the scheme has been done for bring a new wave

of development in the nation in the form of well-maintained and developed roads. Under this project, the construction of roads, in all parts of the nation will be undertaken.

- Total road construction - As per the draft of the scheme, government and the ministry will strive to complete new roads, which will add up to a whopping 34, 800 kms.
- Integrated scheme - The Bharatmala is the name that is given to the road development and it will include many other related schemes as well. With the completion of all the schemes, the overall success of the scheme will be guaranteed.
- Total tenure of the program -The central government has the plans of finishing the scheme within a span of five years. Thus, all is set for finishing the first phase before the end of 2022.
- Segmentation in phases - Due to the sheer magnitude and spread of the scheme, it will be divided into seven distinct phases. As of now, the first phase in under construction.
- Constriction on a daily basis - To finish the first phase in time, the respective department has made efforts of constructing at least 18 km of path on a daily basis. To beat the clock, continued efforts are being made to raise it to 30 km/day.
- Different categories of road construction - It has been highlighted in the official draft of the scheme that to provide better connectivity, the construction of various categories of roads will be undertaken.
- Multi-source of finding - One source will not be enough for funding a mammoth project. Thus, the government will have to depend on other sources for generating adequate money to meet the expenses.

Setu Bharatam

Launched : 2016

Objective

- To make all the national highways in India free from railway crossings.

Salient Feature of Setu Bharatam

- Development of bridges for safe and seamless travel on National Highways and to make all National Highways free of railway level crossings by 2019.
- 208 Railway Over Bridges (ROB)/Railway Under Bridges (RUB) will be built at the level crossings at a cost of Rs. 20,800 crore as part of the programme
- Also, about 1500 old and worn down bridges will also be improved by replacement/widening/strengthening in a phased manner at a cost of about Rs. 30,000 crore.

Char Dham Highway Project

Launched : December, 2016

Objective

- Main objective is this project to develop around 900 km of national highways. It will allow uninterrupted access for pilgrims to the four Himalayan shrines of Kedarnath, Badrinath, Gangotri and Yamunotri in Uttarakhand.

Salient Feature of Char Dham Highway Project

- The Government has decided to upgrade highway connectivity to two lane with paved shoulders to Chardham from Rishikesh leading to Kedarnath, Badrinath, Gangotri & Yamunotri including Tanakpur Pithoragarh section targeted for completion by 2020.
- This also has provision for landslide mitigation and other road safety measures, which will provide all weather road connectivity for pilgrims and for movement of defense forces.

Sagarmala

Launched : 2015

Objectives

- To promote port-led development in the country through harnessing India's 7,500 km long coastline, 14500 km of potentially navigable waterways and strategic location on key international maritime trade routes.
- It aims at:
  - Reducing cost of transporting domestic cargo through optimizing modal mix
  - Lowering logistics cost of bulk commodities by locating future industrial capacities near the coast
  - Improving export competitiveness by developing port proximate discrete manufacturing clusters
  - Optimizing time/cost of EXIM container movement.

Salient Feature of Sagarmala

- **Port Modernization & New Port Development:** De-bottlenecking and capacity expansion of existing ports and development of new greenfield ports
- **Port Connectivity Enhancement:** Enhancing the connectivity of the ports to the hinterland, optimizing cost and time of cargo movement through multi-modal logistics solutions including domestic waterways (inland water transport and coastal shipping)
- **Port-linked Industrialization:** Developing port-proximate industrial clusters and Coastal Economic Zones to reduce logistics cost and time of EXIM and domestic cargo
- **Coastal Community Development:** Promoting sustainable development of coastal communities through skill development & livelihood generation activities, fisheries development, coastal tourism etc.
- Projects considered for funding under Sagarmala Programme will either be provided equity support (SPV route) from Sagarmala Development Company Limited (set up under the Companies Act, 2013 to assist the State level/zone level Special Purpose

EBD_7894

Vehicles) or funded (other than equity support) from the budget of Ministry of Shipping.

- In order to execute the last mile connectivity rail connectivity and internal rail projects of the Major Ports more effectively and efficiently a Special Purpose Vehicle (SPV) – The Indian Port Rail Corporation (IPRC) is incorporated under the Companies Act 2013, under the administrative control of the Ministry of Shipping.
- National Sagarmala Apex Committee chaired by Minister of Shipping will provide overall policy guidance and approve National Perspective plan. A National Perspective Plan has been crafted after detailed consultations with key stakeholders in the central and state governments, public sector companies as well as private players from shipping, ports, etc.
- **Center of Excellence in Maritime and Ship Building (CEMS):** it is being set up by Ministry of Shipping in collaboration with Siemens and Indian Register of Shipping (IRS) under Sagarmala Programme.
- CEMS will have campuses at Vishakhapatnam and Mumbai, and will provide industry-relevant skill development, equip students with employable engineering and technical skills in the port and maritime.
- **Coastal Berth Scheme under Sagarmala:** It aims to provide financial support to ports or state governments for creation of infrastructure for movement of cargo and passenger by sea or national waterways.

MINISTRY OF SKILL DEVELOPMENT AND ENTREPRENEURSHIP

Pradhan Mantri Yuva Yojana (PMYY)

Launched : November, 2016

Objectives

- Educate and equip potential and early stage entrepreneurs.
- Connect entrepreneurs in enabling networks of peers, mentors, incubators, funding and business services.
- Coordinate and support entrepreneurs through Entrepreneurship Hubs(E-Hubs).
- Catalyze a culture shift to support aspiring entrepreneurs.

Salient Feature of PMYY

- This scheme was launched and managed by the Central Government of India.
- Over 7 lakh students will get entrepreneurship training through 3,050 training institutions in the next 5 years.
- The training institutions network for this scheme consists of 2,200 institutes of higher learning, 500 ITIs, 300 schools, and 50 entrepreneurship development centres.
- These institutions will have online training methods and students and access study materials at home easily.
- Young entrepreneurs who have made significant contribution to the growth of real assets in the economy will be awarded in a award ceremony which is expected to be conducted on 16th January, 2017.
- Pradhan Mantri Yuva Yojana is for educated youngsters who are not skilled and knowledgeable enough to face global competition.
- Anyone less than 30 years of age can apply for this scheme.
- The Sector Skill Council(SCC) will closely work with the local authorities and industries and pave way for job aggregation.
- The selected candidates who perform well during the training will be given incentives and the ones who are not performing well will have to exit the training.
- Under this scheme, the selected entrepreneurs will be benefited from easy access to mentor network, information, constant support from the training institutions.
- The Ministry of Skill Development and Entrepreneurship has also released lab guidelines which will be followed throughout the scheme.

Pradhan Mantri Kaushal Vikas Yojana (PMKVY)

Launched : 2015

Objective

- To enable a large number of Indian youth to take up industry-relevant skill training that will help them in securing a better livelihood.

Salient Feature of PMKVY

- Objective is to train 24 lakh youths with an estimated training cost of Rs. 1, 500 crores.
- To create registry of skills
- Increasing the productivity of the skilled individuals which would be used for nation's development
- On an average trainee will get Rs. 8000 as a reward (one time only). This would be given by third party assessment body. However in order to receive the reward, trainee will have to appear for assessment test and based on the test results, reward would be given. This money will be directly credited to the bank account of the candidate.
- In order to cross-check whether candidate has already been paid Rs. 8, 000 reward, use of Aadhar number will be made. So that is why Aadhar number is must for receiving the reward.
- Training would be provided based on the National Skill Qualification Framework (NSQF) and industry led standards and it would be a need based training.
- Most of the skills do not require any educational qualification or experience.
- Feedback would be collected by all the trainees who undergo assessment. This will help in calculating the effectiveness of Kaushal Vikas Scheme.

Skills Acquisition and Knowledge Awareness for Livelihood Promotion (SANKALP)

Launched : 15 July, 2015

Objectives

- Strengthened institutional mechanisms at National and State levels to guide planning, delivery and monitoring of market relevant training;
- Improved Quality and Market Relevance of Skill Development programs;
- Improved access to and completion of skills training for female trainees and other disadvantaged groups; and
- Expanding skills training through private-public partnerships (PPPs).

Salient Feature of SANKALP

- It is an outcome-oriented project supported by World Bank
- It has been designed to operationalize the sub-missions under the National Skill Development Mission.
- It is a centrally sponsored scheme.
- It envisages setting up of:
  - National Skill Certification Body
  - National Accreditation board and National Skill Research Division within National Skill Development Agency.
  - Development of Labour Market Information System
  - Kaushal Mart as a Skilling Resource Marketplace offering a credible platform for exchange of skilling resources of different kinds.
  - Takshila as National Portal for trainers and assessors,
- A Skills Fund has been provisioned under SANKALP with an aim to set up industry lead and job-oriented skill training institutions. It shall be set up as competitive challenge fund that shall provide verifiable and reliable use of grants (subject to maximum ceiling per project) for a long term, sustainable, impact at a local community/ province/ national level.
- India International Skill Centers (IISC) are being set up to train for overseas placements.

Skill Strengthening for Industrial Value Enhancement (STRIVE)

Launched : 15 July, 2015

Objective

- To develop a robust mechanism for delivering quality skill development training by strengthening institutions such as State Skill Development Missions (SSDMs), National Skill Development Corporation (NSDC), Sector Skill Councils (SSCs), ITIs and National Skill Development Agency (NSDA) etc.

Salient Features of STRIVE

- It is a Rs. 2,200 crore - central sector scheme, with half of the scheme outlay as World bank loan assistance.
- It is an outcome focused schemes marking shift in government's implementation strategy in vocational education and training from inputs to results.
- It shall incentivize ITIs to improve overall performance including apprenticeship by involving SMEs, business association and industry clusters.

National Apprenticeship Promotion Scheme (NAPS)

Launched :19 August, 2016

Objective

- To promote apprenticeship training and to increase the engagement of apprentices from present 2.3 lakh to 50 lakh cumulatively by 2020.

Salient Feature

- Financial outlay The Scheme has an outlay of 10,000 crore rupees with a target of 50 Lakh apprentices to be trained by 2020.
- NAPS will be implemented by Director General of Training (DGT) under the aegis of Union Ministry of Skill Development and Entrepreneurship (MSDE).
- Under NAPS, Central Government for the first time will provide financial incentives to the employers to engage apprentices. Central Government will also directly share 25% of the total stipend (maximum of 1,500 rupees per month per apprentice) payable to an apprentice with employers. In addition, it will support basic training which is considered an essential component of apprenticeship training. The Central Government will bear 50% of the total expenditure incurred on providing basic training to an apprentice.
- All transactions including registration by employers, apprentices, registration of contract and payment to employers will be made in online mode.
- The employers who are eligible are required to employ apprentices in the range of 2.5% to 10% of the total workforce strength of their establishment.

MINISTRY OF SOCIAL JUSTICE AND EMPOWERMENT

Swachhta Udyami Yojana (SUY)

Launched : 2 October, 2014

Objective

- Cleanliness and providing livelihood to Safai Karamcharis and liberated Manual Scavengers to achieve the overall goal of "Swachh Bharat Abhiyan" initiated by the Prime Minister.

EBD_7894

Salient Feature of SUY

- National Safari Karmacharis Finance & Development Corporation (NSKFDC) is implementing the scheme.
- It is for extending financial assistance for Construction, Operation & Maintenance of Pay and Use Community Toilets in Public Private Partnership (PPP) Mode and Procurement & Operation of Sanitation related Vehicles
- Concessional loan for viable community toilet projects and sanitation related vehicles to collect the garbage, to consolidate the ongoing efforts for realising the objectives of the 'Swachh Bharat Abhiyan'
- Entrepreneurs among safai karmacharis and identified manual scavengers can avail loan upto defined ceiling at concessional rate of interest @ 4% per annum. In case of women beneficiaries, there is a rebate of 1% in the rate of interest charged.

Deendayal Disabled Rehabilitation Scheme (DDRS)

Launched : 2003

Objectives

- To create an enabling environment to ensure equal opportunities, equity, social justice and empowerment of persons with disabilities.
- To encourage voluntary action for ensuring effective implementation of the people with disabilities (equal opportunities and protection of rights) act of 1995.

Salient Feature of DDRS

- Promoting voluntary action: parents/guardians and voluntary organisations are encouraged to provide rehabilitation services.
- To provide financial assistance to facilitate delivery of various services to voluntary organizations' grants-in-aid to NGOS
- to make available the whole range of services necessary for rehabilitation of persons with disabilities
  - Including early intervention,
  - Development of daily living skills, education,
  - Skill-development oriented towards employability,
  - Training and awareness generation.

Rashtriya Vayoshri Yojana

Launched : 1 April, 2017

Objective

- To help the Senior Citizens to overcome their age relatedphysical impairment and to lead a dignified and productive life with minimal dependence on care givers or other members of the family.

Salient Feature of Rashtriya Vayoshri Yojana

- Free of cost distribution of the devices, commensurate with the extent of disability/infirmity that is manifested among the eligible senior citizens.
- In case of multiple disabilities/infirmities manifested in the same person, the assistive devices will be given in respect of each disability/impairment.
- The devices will help the Senior Citizens to overcome their age related physical impairment and to lead a dignified and productive life with minimal dependence on care givers or other members of the family.
- The Scheme will be implemented through the sole implementing agency, 'Artificial Limbs Manufacturing Corporation (ALIMCO)', (a PSU under the Ministry of Social Justice and Empowerment).
- ALIMCO will undertake one year free maintenance of the aids & assisted living devices.
- Beneficiaries in each district will be identified by the State Governments/UT Administrations through a Committee chaired by the Deputy Commissioner/ District Collector.
- As far as possible, 30% of the beneficiaries in each district shall be women.
- The State Government/UT Administration/District Level Committee can also utilize the data of BPL beneficiaries receiving Old Age Pension under the NSAP or any other Scheme of the State/UT for identification of senior citizens belonging to BPL category.
- The devices will be distributed in Camp mode.
- The expected financial outlay over the next three years (i.e. upto 2019-20) is Rs. 483.6 Crores.

Pradhan Mantri Adarsh Gram Yojana (PMAGY)

Launched : 2009

Objectives

To ensure integrated development of the selected 1000 villages with more than 50% SC population into "model villages" so that:

- They have all requisite physical and social infrastructure for their socioeconomic development.
- Disparity between SC and non-SC population in terms of common socioeconomic indicators (e.g. literacy rate, completion rate of elementary education, IMR/MMR, ownership of productive assets, etc.) is eliminated.
- Untouchability, discrimination, segregation, and atrocities against SCs are eliminated, as are other social evils like discrimination against girls/women, alcoholism and substance (drugs) abuse, etc.

Salient Feature of PMAGY

This scheme carries a number of growth plans for the villages.

- The plans under this scheme are Bharat Nirman, Pradhan Mantri Gram Sadak Yojana to ensure that villages have good roads, water delivery, accommodation, electrification, Sarva Shiksha Abhiyan, Mahatma Gandhi National Rural Employment Guarantee Act, ICDS, hygiene, etc.

- Villages that have more than 50% of the scheduled castes inhabitants' will be eligible for this program.
- The schemes target is to make a model village that is self-sufficient and meeting the minimum requirements of every public sector.
- This scheme offers facility that is required for a grand livelihood.

Sugamya Bharat Abhiyan/Accessible India Compaign

Launchrd : 2015

Objectives

- Making public space, transport, tourist places, airports, railway stations and information and communication technology in the country differently-able friendly
- The campaign emphasizes that all persons with disabilities (PwDs) should have equal opportunities to live independently and participate in all aspects of life as every other in the society so as to make their lives productive, safe and dignified.

Salient Feature of Sugamya Bharat Abhiyan

- For creating universal accessibility for Persons with Disabilities, the campaign has been divided into three verticals: Built Environment Accessibility; Transport System Accessibility and Information & Communication ecosystem accessibility.
- Divyang Sarathi Mobile App- For easy information dissemination to Divyanjans (Persons with disabilities) pertaining to the Department of Empowerment of Persons with Disabilities (DEPwD), including its various acts, rules, regulations and guidelines, etc.
- Other initiatives under the scheme are :
  - Organisations, both public and private are encouraged to use their CSR funds for building accessible infrastructure.
  - 'Inclusiveness and Accessibility Index' is to be used by the government to assess the effort of various industries on how are they making their workplace ready for Persons with Disabilities (PwD).
  - "Sugamya Pustakalaya" is an online library for Persons with print disabilities as part of the Accessible India (Sugamya Bharat) Campaign.

Self Employment Scheme for Rehabilitation of Manual Scavengers (SRMS)

Launched : January, 2007

Objective

- To assist the manual scavengers, identified during various surveys, for their rehabilitation in alternative occupations.

Salient Feature of SRMS

As per the revised Scheme, identified manual scavengers, one from each family, are provided onetime cash assistance. Following benefits to the identified manual scavengers and their dependants

- Onetime cash assistance.
- Loans for project cost on concessional rates of interest.
- Credit linked back-end capital subsidy.
- Skill Development Training upto two years with stipend.

MINISRY OF SCIENCE AND TECHNOLOGY

National Biopharma Mission

Launched : 30 June, 2017

Objectives

- Development of products from leads that are at advanced stages in the product development lifecycle and relevant to the public health.
- Strengthening and establishing shared infrastructure facilities for both product discovery validation and manufacturing.
- Developing human capital by providing specific training to address the critical skills gaps in researchers, nascent biotech companies across the product development value chain, including in business plan development and market penetration.
- Creating and enhancing technology transfer and intellectual property management capacities and capabilities in public and private sector.

Salient Feature of National Biopharma Mission

- To develop new vaccines, biotherapeutics, diagnostics and medical devices to address the rising burden of diseases.
- To bring isolated centres of excellence (Academia) together, enhance regional capabilities and strengthen the current bio-clusters network in terms of capacities as well as quantity and quality of output.
- The programme will help deliver 6-10 new products in the next five years, create several dedicated facilities for next-generation skills.
- The initial focus will be on Vaccines for HPV, Dengue and biosimilars for cancer, diabetics and rheumatoid arthritis and medical devices and diagnostics.
- This mission will develop platform technologies for product validation, link institutions to strengthen clinical trial networks, promote partial derisking for novel products, and build capacities in emerging areas such as translational bioinformatics, bioethics etc.
- NBM is an industry- academia collaborative mission launched by Department of Biotechnology.
- The mission will be implemented by BIRAC (Biotechnology Industry Research Assistance Council).
- It will include the World Bank assisted INNOVATE IN INDIA (i3) program to create an enabling ecosystem to promote entrepreneurship and indigenous manufacturing in the sector.

EBD_7894

- Private sector, Government and Academia are together considered as the triple helix of medical innovation which can spur the much required development of Biopharma.

Biotech- KISAN (Krishi Innovation Science Application Network) & Cattle Genomic Scheme

Launched : 2016

Objectives

- Linking available science and technology to the farm by first understanding the problem ofthe local farmer and provide solutions to those problems.
- The working together, in close conjunction, of scientists and farmers is the only way toimprove the working conditions of small and marginal farmers.
- This programme aims to work with small and marginal farmers especially the woman farmer for better agriculture productivity through scientific intervention and evolving best farming practices in the Indian context.

Salient Feature of Biotech- KISAN & Cattle Genomic Scheme

- **For Farmers :** The Biotech-KISAN is a Farmer centric scheme launched by of the Department of Biotechnology, where scientists will work in sync with farmers to understand problems and find solutions.
- **By Farmers :** Developed in consultation with the farmers. Soil, Water, Seed and Market are some key points that concern small and marginal farmers. Biotech-KISAN aims to link farmers, scientists and science institutions across the country in a network that identifies and helps solve their problems in a cooperative manner.
- **Empower women :** The woman farmer is often neglected. It is important to empower the women farmer, help her meet her concerns for better seed, storage of seed and protection of the crops from disease and pest. The women farmer is also the prime caretaker of livestock and she is eager to combine traditional wisdom in handling the livestock and with current best practices, especially in the context of emerging livestock disease. The scheme includes the Mahila Biotech- KISAN fellowships, for training and education in farm practices, for women farmers. The Scheme also aims to support the women farmers/ entrepreneur in their small enterprises, making her a grass root innovator.
- **Connects Globally :** Biotech-KISAN will connect farmers to best global practices; training workshops will be held in India and other countries. Farmers and Scientists will partner across the globe.
- **Impacts Locally :** The scheme is targeted towards the least educated marginalised farmer; Scientists will spend time on farms and link communication tools to soil, water seed and market. The aim is to understand individual problems of the smallholding farmers and provide ready solutions.
- **Across India :** Biotech KISAN will connect farmers with science in the 15 agro-climatic zones of the country in a manner, which constantly links problems with available solutions.
- **Hubs and Spoke :** In each of these 15 regions, a Farmer organisation will be the hub connected to different science labs, Krishi Vigyan Kendra and State Agriculture Universities co-located in the region. The hub will reach out to the farmers in the region and connect them to scientists and institutions.
- **Farmers as Innovators :** The hub will have tinkering lab, communication cell and will run year-long training, awareness, workshops and which will act as education demonstration units to encourage grass root innovation in the young as well as women farmers.
- **Communicating Best Practises** : There will be a communication set-up to make radio and TV programmes for local stations, as well as daily connectivity through social media.

Innovation of Science Pursuit for Inspire Research (INSPIRE)

Launched : 31 December, 2008

Objective

- To communicate to the youth population of the country the excitements of creative pursuit of science and attract talent to the study of science at an early stage and build the required critical human resource pool for strengthening and expanding the Science & Technology system and R&D base.

Salient Feature of INSPIRE

- Expected to attract talent, foster creativity, motivate youth and promote research as a career.
- An integrated scheme covering the age group of 10 - 32 years of youth population.
- No additional or separate examination system for identification of talent in any component of the scheme.
- Direct release of Awards, Scholarships etc., to students.
- Involvement of Academia, Scientific Community/ Industry, State functionaries and other Stakeholders.

MINISTRY OF TEXTILE

Scheme for Integrated Textile Parks (SITP)

launched : July, 2005

Objectives

- The Scheme for Integrated Textile Parks (SITP) was launched in 2005 to provide the industry with State of the art world-class infrastructure facilities for setting up their textile units.

- Primary objective of the SITP is to provide the industry with worldclass state of the art infrastructure facilities for setting up their textile units. The scheme would facilitate textile units to meet international environmental and social standards.
- SITP would create new parks of international standards at potential growth centres. This scheme envisages engaging of a panel of professional agencies for project identification and execution.
- Each Integrated Textile Park (ITP) under the scheme would normally have 50 units. The number of entrepreneurs and the resultant investments in each ITP could vary from project to project. However, aggregate investment in land, factory buildings and Plant & Machinery by the entrepreneurs in a Park shall be atleast twice the cost of common infrastructure proposed for the Park.
- The new ITPs being set up under the Scheme may be excluded fromthe SEZs.

Salient Feature OF SITP

- The Scheme targets industrial clusters and locations with high growth potential, which require strategic interventions for developing worldclass infrastructure support.
- An ITP under the scheme should preferably have 25 integrated units with components like Land (registered under the name of SPV), common infrastructure (compound, road, drainage, electricty, etc), buildings for common facilities (creche, canteen, laboratories, etc), and factory buildings for production purposes.
- The total project cost shall be funded through a mix of Equity/Grant - from the Ministry of Textiles, State Government, State Industrial Development Corporation, Industry, Project Management Consultant and Loan - from Banks/ Financial Institutions.
- The Government of India's (GOI) support under the Scheme by way of Grant or Equity will be limited to 40% (90% for first two projects in N.E states and J&K) of the project cost subject to a ceiling of Rs. 40 crore.
- the combined equity stake of GOI/State Government/ State Industrial Development Corporation, if any, should not exceed 49%.
- The release of GoI assistance to the SPV shall be done in 3 (three) installments in the ratio of 30:40:30 depending upon fulfillment of terms and conditions.
- Each project will normally be completed in 3 years from the date of release of the first installment of government grant. (Delays can lead to cancellation of project and imposition of penalty).
- The ITPs can also get benefits from ATUFS, SAMARTH, etc.

Integrated Scheme for Development of Silk Industry

Launched : March, 2018

Objectives

- To improve the productivity and quality of silk through R&D intervention.
- To promote improved cross-breed silk and the import substitute Bivoltine silk so that Bivoltine silk production in India enhances to such a level that raw silk imports become nil by 2022 thereby making India self-sufficient in silk.
- To increase productive employment from 85 lakhs to 1 crore persons by 2020.

Salient Feature of Integrated Scheme for Development of Silk Industry

- The scheme will benefit 85 lakh people in the silk sector.
- It will provide livelihood opportunities for women, those belonging to SCs and STs, and other weaker sections of the society across the country, including those from Left-Wing Extremism affected areas and North Eastern Region.
- Silk farmers, seed producers and chawki rearers will be brought under Direct Benefit Transfer, with Aadhaar linkage.
- A helpline will be set up for timely redressal of grievances & outreach programmes will be undertaken.
- Registration process & reporting by seed production centres, basic seed farms and extension centre will be automated through web-based software.
- Support to be given to:
  - Private graineurs to produce quality seed
  - Chawki Rearing Centres with incubation facilities, to produce and supply chawki worms
  - Adopted seed-rearers to generate quality seed cocoons
- Cold storage will be set up, which will also provide mobile disinfection units and equipment support for mechanization.
- 131 new Chawki Rearing Centres (CRCs) will be established for scientific handling of silkworm eggs and rearing of young age silkworm larvae under controlled conditions to enhance quality of cocoon and their harvest.
- 81 units will be installed to provide cocoon drying facility in a scientific manner for improved reeling.
- Automatic reeling machine for mulberry, improved reeling/spinning machineries and Buniyaad Reeling machines for Vanya silk under Make in India program will be disseminated to produce quality silk.
- For Government-owned facilities, 100% cost will be borne by the Government of India.
- For individual beneficiaries: SC/ST- 65% cost by Central Government, 25% by State Government and 10% by the beneficiary.

EBD_7894

- Beneficiaries from NE states, J&K, Himachal Pradesh, Uttarakhand, Jharkhand, Chhattisgarh - 80% cost to be borne by Central Government whereas individual and State Government will bear 10% each.
- General: 50% cost will be borne by the Central Government, 25% by the State Government.

Power Tex India scheme

Launched : 3 April, 2017

Objectives

- The main Objective of In-Situ Up-Gradation component is to benefit the economically weaker low-end power loom units by providing them financial assistance.
- Group Workshed scheme will benefit all power loom units having up to 8 looms.
- Under Yarn Bank Scheme Yarn will be purchased at the wholesale rate and it will be sold to small weavers at a reasonable price, which will cut-off middle man supplier's brokerage charge on sales of yarn.
- Pradhan Mantri Credit Scheme will provide Loan Facility under Pradhan Mantri Mudra Yojana to power loom units which are decentralized.
- Solar Energy Scheme provides financial assistance for the installation of solar photo voltaic plants to alleviate the power cut problems.

Salient Feature of Power Tex India scheme

- It has nine major components: In-situ Upgradation of Plain Powerlooms, Group Workshed Scheme (GWS), Yarn Bank Scheme, PM Credit Scheme, Solar Energy Scheme, Common Facility Centre (CFC), Tex Venture Capital Fund, Facilitation, IT, Awareness, Market Development and Publicity for Powerloom Schemes, and Grant-in-Aid and Modernisation & Upgradation of Powerloom Service Centres (PSCs)
- The two major schemes are: 1. Pradhan Mantri Credit Scheme (PMCS) for powerloom weavers and 2. Solar energy scheme for powerlooms.
- PMCS for power looms: financial assistance (including margin money subsidy and interest reimbursement) will be given as against the credit facility under Pradhan Mantri Mudra Yojana and under Stand-Up India to SC/ST/Women entrepreneurs of the decentralised power loom units.
- There is also a provision of universal insurance to the powerloom workers (18-59 years age) in case of natural death, accidental death and partial / permanent disability due to accident.

Amended Technology Upgradation Fund Scheme (ATUFS)

Launched : 13 January, 2016

Objectives

- To promote Ease of doing Business in the country and to achieve the vision of general employment and promoting exports through Make in India and Zero Effect and Zero Defect in manufacturing.
- To facilitate augmentation of investment, productivity, quality, employment, exports along with import substitution in textile industry and to indirectly promote investment in the textile machinery manufacturing.

Salient Feature of ATUFS

- It is a credit-linked Central Sector Scheme.
- Under the scheme subsidy is given to the units/entities through nodal financial institutions and not through the state govt.
- there is a provision of one-time capital subsidy over a period of 5 years for eligible bench-marked machinery.
- It covers Capital Investment Subsidy (CIS), while earlier schemes of TUFS had provisions both for interest reimbursement as well as Capital Subsidy.
- ATUFS is targeted towards focused segments like garmenting, and the segments which have achieved desired level of modernization like spinning etc. have been excluded.

Scheme for Capacity Building in Textiles Sector (SCBTS/SAMARTH)

Launched : December, 2017

Objectives

- To provide the demand-driven, placement oriented National Skill Qualification Framework (NSQF) compliant skilling programmes to incentivize and supplement the efforts of the industry in creating jobs in the organized textile and related sectors, covering the entire value chain of textiles, excluding Spinning and Weaving.
- To promote skilling and skill upgradation in the traditional sectors of handlooms, handicrafts, sericulture and jute.
- To enable provision of sustainable livelihood either by wage or self-employment to all sections of the society across the country.

Salient Feature of SCBTS/SAMARTH

- It is a skill development scheme covering the entire value chain of the textile sector excluding Spinning & Weaving in organized Sector to be implemented from 2017-18 to 2019-20.
- Skill gap and skilling requirements will be assessed and skills will be imparted accordingly.
- In addition to domain specific hard skills, the program shall also provide 30 hours of soft skills.
- Trainees will be assessed and certified by an accredited Assessment Agency.
- There shall be placement guarantee of the 70% successful trainees (for courses in organised sector, all 70% have to be placed in wage employment, while for courses in traditional sector, atleast 50% are to be placed in wage employment).
- Post Placement tracking will be mandatory under the scheme.

MINISTRY OF TOURISM

Swadesh Darshan

Launched : 2015

Objectives

- To position tourism as a major engine of economic growth and job creation.
- Develop circuits having tourist potential in a planned and prioritized manner.
- Promote cultural and heritage value of the country to generate livelihoods in the identified regions.
- Enhancing the tourist attractiveness in a sustainable manner by developing world class infrastructure in the circuit /destinations.
- Follow community based development and pro-poor tourism approach.
- Creating awareness among the local communities about the importance of tourism for them in terms of increased sources of income, improved living standards and overall development of the area.
- To create employment through active involvement of local communities.
- Harness tourism potential for its effects in employment generation and economic development.
- To make full use of the potential and advantages in terms of available infrastructure, national culture and characteristic strong points of each and every region throughout the country by development of theme based circuits.
- Development of tourist facilitation services to enhance visitor experience/satisfaction.

Salient Feature

- It has been launched as a 100% centrally funded scheme. Further, the government will also leverage the voluntary funding available for CSR initiatives of CPSUs.
- The overall funding powers have been kept under National Steering Committee (NSC) under Tourism Minister of India.
- The funding will be decided on state-to-state basis, and on the basis of project reports created by PMC (Programme Management Consultant), which will be appointed by Mission Directorate under Member Secretary NSC.
- Government also thinks to create awareness about tourism in local communities, promote local arts, culture, handicrafts, cuisine, etc to generate livelihoods in the identified regions; and harness tourism potential for its direct and multiplier effects in employment generation and economic development.
- Under the scheme fifteen thematic circuits have been identified for development.
- They are: North-East India Circuit, Buddhist Circuit, Himalayan Circuit, Coastal Circuit, Krishna Circuit, Desert Circuit, Tribal Circuit, Eco Circuit, Wildlife Circuit, Rural Circuit, Spiritual Circuit, Ramayana Circuit, Heritage Circuit, Sufi Circuit and Tirthankar Circuit.
- Tourist Circuit is defined as a route having at least three major tourist destinations which are distinct and apart.

Pilgrimage Rejuvenation and Spiritual Augmentation Drive (PRASAD)

Launched : 2015

Objectives

- Integrated development of pilgrimage destinations in a planned, prioritized and sustainable manner to provide complete religious tourism experience.
- Harness pilgrimage tourism for its direct and multiplier effects on employment generation and economic development.
- Follow community-based development and pro-poor tourism concept in development of the pilgrimage destinations.
- Leveraging public capital and expertise.
- Enhancing the tourist attractiveness in a sustainable manner by developing world-class infrastructure in the religious destination.
- Creating awareness among the local communities about the importance of tourism for them in terms of increase in sources of income, improved living standards and overall development of the area.
- Promote local arts, culture, handicrafts, cuisine, etc., to generate livelihood in the identified places.

Salient Feature of PRASAD

- Under the PRASHAD scheme twenty five sites have been identified for development.
- For components within public funding, Central Government will provide 100% fund.
- For improved sustainability of the project, efforts shall be made to involve PPP and CSR as well.

Adopt a Heritage: Apni Dharohar, Apni Pehchaan

Launched : September, 2017

Objectives

- Develop basic tourism infrastructure in and around heritage monuments.
- Inclusive tourist experience for heritage site / monument or tourist site.
- Promote cultural and heritage value of the country to generate livelihoods of local communities of respective heritage site / monument/ tourist site.
- Enhance the tourist attractiveness in a sustainable manner.
- Create employment through active involvement of local communities.

EBD_7894

- Harness tourism potential for its multiplier effects in employment generation and economic development.
- Develop sustainable tourism infrastructure.

Salient Feature

- A unique endeavour of Ministry of Tourism in close collaboration with Ministry of Culture and Archaeological Survey of India (ASI).
- Under this scheme, Private, Public Sector Companies and Corporate individuals can adopt the sites and take up the responsibility for making heritage and tourism more sustainable through conservation and development.
- The project primarily focuses on development and maintenance of world-class tourist infrastructure and amenities.
- Recently, seven shortlisted companies were given 'Letters of Intent' for fourteen monuments under this scheme.
- These companies will be the future 'Monument Mitras' who would associate pride with their CSR activities.
- Recently, Red Fort has been adopted by Dalmia Bharat Group under the

MINISTRY OF TRIBAL AFFAIRS

Van Dhan Scheme

Launched : April, 2018

Objective

- Economic development of tribals involved in collection of Minor Food Produces (MFPs) by helping them in optimum utilization of natural resources and provide them sustainable livelihood.

Salient Feature of Van Dhan Scheme

- Under it, 10 Self Help Groups (SHGs) of 30 Tribal gatherers will be constituted.
- The SHGs will then be trained and provided with working capital to add value to products they collect from forest.
- They will be able to market their products, by working under leadership of collector, not only within states but also outside states.
- TRIFED will provide all required training and technical support to SHGs.
- They will be trained on sustainable harvesting, collection, primary processing and value addition.
- They will be formed into clusters to aggregate their stock in tradable quantity and link them with facility of primary processing in Van Dhan Vikas Kendra.
- Van Dhan Vikas Kendra will be established under scheme which will provide skill upgradation and capacity building training and setting up of primary processing and value addition facility.
- It will be used for training of beneficiaries by providing them equipment and tools for primary level processing and infrastructure and building for housing.
- The SHGs will supply their stock after primary processing to State Implementing Agencies or can directly tie up with corporate secondary processor.
- Big corporates will create secondary level value addition facility at district level and tertiary level value addition facility at state level under the PPP model.
- The PPP model will be based on utilising Private entrepreneur skills in undertaking processing as well as marketing of the produce.
- The central and state governments will provide necessary support by creating infrastructure and providing enabling environment for undertaking value addition of systematic scientific lines.

Eklavya Model Residential Schools (EMRS)

Launched : 1998

Objectives

- To provide quality middle and high-level education to Scheduled Tribe (ST) students in remote areas.
- To enable them to avail of reservation in high and professional educational courses and as jobs in government and public and private sectors.
- To have access to the best opportunities in education at par with the non-ST population.

Salient Feature of EMRS

- Ministry of Tribal Affairs has actively initiated various efforts to make more Eklavya Model Residential Schools (EMRS) functional.
- Government has sought to extend the facility of EMRSs in all the 672 Blocks where ST population is more than 50% of the total population in a span of next five years.
- Eklavya Model Residential School Scheme was started in 1998 and first school was started in the year 2000 in Maharashtra.
- EMRSs have been functioning as institutions of excellence for tribal students.
- As per existing EMRS Guidelines of 2010, at least one EMRS is to be set up in each Integrated Tribal Development Agency (ITDA)/Integrated Tribal Development Project (ITDP) having 50% ST population in the area.
- State Government/UT Administration is solely responsible for the management and effective functioning of the EMRSs, school admissions, appointment of teachers/staff and personnel matters.

Vanbandhu Kalyan Yojana (VKY)

Launched : 28 October, 2014

Objectives

- Improving the quality of life in tribal areas.
- Improving the quality of education.
- Qualitative and sustainable employment for tribal families.

- Bridging infrastructure gaps with focus on quality.
- Protection of tribal culture and heritage.

Salient Feature of VKY

- It is a central sector scheme.
- this is actually a process (rather than just scheme) which utilises an Outcome-based approach and convergence strategy.
- the scheme ensures that all the intended benefits through various schemes of Central and State Governments covered under the respective Tribal Sub-Plans actually reach them by way of appropriate convergence.
- Based on low literacy criteria blocks are selected from each 10 states with schedule V areas to be developed under the scheme.

MINISTRY OF WOMEN AND CHILD DEVELOPMENT

Integrated Child Development Services (ICDS)

Launched : 1975

Objectives

- Improvement in the health and nutritional status of children 0–6 years and pregnant and lactating mothers.
- Reduction in the incidence of their mortality and school drop out.
- Provision of a firm foundation for proper psychological, physical and social development of the child.
- Enhancement of the maternal education and capacity to look after her own health and nutrition and that of her family.
- Effective co-ordination of the policy and implementation among various departments and programmes aimed to promote child development.

Salient Feature of ICDS

- Move will also help the government to access the impact of the flagship programme for supplementary nutrition- Integrated Child Development Scheme.
- It will monitor and supervise as well as close the gap between recommended diet and daily intake on an average basis.
- Angandwadi centres will be equipped with software enabled tablet devices for uploading data when required. This will record the nutrition supply levels of children and directly upload it.
- The implementation of ICDS will be monitored as data on nutrition supply will be received from states and UTs through periodic reports.
- Government has also established Central Monitoring Units in 2007 for monitoring and evaluation.
- ICDS provides supplementary nutrition, pre-school education, nutrition and health education and check ups for economically underprivileged sections via a network of 13.42 lakh AWCs.
- ICDS is one of the biggest and most unique programmes for early childhood development.
- It is a commitment to India's welfare by breaking the cycle of poverty, malnutrition and lack of education.

National Nutrition Mission (POSHAN Abhiyaan)

Objectives

- Scheme aimed at reduction in the levels of malnutrition among women and child, recently, the Government has set up National Nutrition Mission (NNM) for improving the nutritional indicators of children and pregnant women and lactating mothers.
- The Mission aims to prevent and reduce prevalence of stunting among children (0-6 years) in the country by 6%, undernutrition (underweight) prevalence among children (0-6 years) by 6%, prevalence of anaemia among children (6-59 m) by 9%, prevalence of anaemia among women (15-49 years) by 9% and reduction in prevalence of low birth weight by 6%.
- The Goals set under the mission will be achieved by ensuring convergence with various programmes; incentivizing States/ UTs; IT enabled Real Time Monitoring (ICT-RTM) by using Smart Phones and Tablets; Evaluation; Community mobilisation awareness advocacy; IEC, Online Course on Nutrition for Children, Nutrition message from folk songs and songs on WASH, and strengthening human resource, etc.

Salient Feature of POSHAN Abhiyaan

- The mission, commencing 2017-18, has a target to reduce under-nutrition and low birth-weight by 2 per cent each year.
- It will strive to achieve reduction in stunting from 38.4 per cent as per the National Family Health Survey-4 to 25 per cent by 2022.
- It also aims to bring down anaemia among young children, women and adolescent girls by three per cent per year.
- Under NNM, the ministries of women and child development, health and family welfare, and water and sanitation will work together.
- The mission will form an apex body that would fix targets and monitor, supervise and guide nutrition-related interventions across the ministries.
- The mission would include several components like an ICT (information and communications technology)-based real-time monitoring system, incentivizing of states and Union territories to meet their targets, social audits, and setting up of nutrition resource centres.
- Anganwadi workers will also be offered incentives for using IT-based tools such as smart phones.
- vadhaar card is a mandatory requirement to avail the benefits of the mission.

EBD_7894

Scheme for Adolescent Girls (SAG)

Launched : 24 January, 2018

Objectives

- Enable the AGs for self-development and empowerment.
- Improve their nutrition and health status.
- Promote awareness about health, hygiene, nutrition.
- Support out of school AG to successfully transition back to formal schooling or bridge learning / skill training.
- Provide information/guidance about existing public services such as Primary Health Centers, Rural Hospitals etc.

Salient Feature of SAG

- Nutrition provision
- Iron and folic acid (IFA) supplementation
- Health check-up and referral services
- Nutrition & health education (NHE)
- Counseling/guidance on family welfare, ARSH, child care practices and home management.
- Upgrade home-based skills, life skills and integrate with the national skill development program (NSDP) for vocational skills.
- Mainstream out of school adolescent girls into formal/ non-formal education.
- Provide information/guidance about existing public services such as PHC, CHC, post office, bank, police station, etc.

Pradhan Mantri Matru Vandana Yojana (PMMVY)

Launched : 1 January, 2017

Objectives

- Providing partial compensation for the wage loss in terms of cash incentives so that the woman can take adequate rest before and after delivery of the first living child.
- The cash incentive provided would lead to improved health seeking behaviour amongst the Pregnant Women and Lactating Mothers (PW&LM).

Salient Feature of PMMVY

- Cash incentive of Rs 5000 in three instalments i.e. 1st instalment of Rs 1000/ - on early registration of pregnancy, 2nd instalment of Rs 2000/ - after six months of pregnancy and 3rd instalment of Rs 2000/ - after child birth is registered and the child has received the first cycle of BCG, OPV, DPT and Hepatitis - B, or its equivalent/ substitute.
- The eligible beneficiaries would receive the incentive given under the Janani Suraksha Yojana (JSY) for Institutional delivery and the incentive received under JSY would be accounted towards maternity benefits so that on an average a woman gets Rs 6000.
- Universal screening of pregnant women for Anaemia and Iron and Folic Acid (IFA) supplementation, Calcium supplementation in pregnancy, Deworming in pregnancy.

Beti Bachao, Beti Padhao Yojana

Launched : 22 January, 2015

Objectives

- Celebrate the girl child's birth
- Prevent gender biased sex selective elimination/ abortion
- Protect the girl child and ensure her survival
- Ensure girl child is educated

Salient Feature of Beti Bachao, Beti Padhao Yojana

- A sustained social mobilization and communication campaign to create equal value for the girl child & promote her education.
- Enable inter-sectoral and inter-institutional convergence at district/block/grassroot levels.
- It's a Pan India Scheme, with 100% assistance from Central Government
- It has no provision for individual cash transfer. Monitorable targets include-
- Improve the Sex Ratio at Birth (SRB) in selected gender critical districts by 2 points in a year.
- Reduce Gender differentials in Under Five Child Mortality Rate from 7 points in 2014 (latest available SRS report) to 1.5 points per year
- At least 1.5 % increase per year of Institutional Deliveries.
- Increase enrolment of girls in secondary education to 82% by 2018-19.
- Provide functional toilet for girls in every school in selected districts.
- Improve the Nutrition status of girls - by reducing number of underweight and anemic girls under 5 years of age.
- Ensure universalization of ICDS
- Promote a protective environment for Girl Children through implementation of Protection of Children from Sexual Offences (POCSO) Act 2012.
- Train Elected Representatives/ Grassroot functionaries as Community Champions to mobilize communities to improve CSR and promote Girl's education.
- Monitoring of the BBBP Scheme would be at following levels at National level, State level, District level, Block Level, and Gram Panchayat/Ward Level. Digital Guddi-Gudda Board' is a platform for dissemination of Information, Education and Communication (IEC) Material on BBBP and to update monthly birth statistics. It has been adopted as a Best Practice under Beti Bachao Beti Padhao (BBBP) scheme by The Union Ministry of Women and Child Development.

Sukanya Samriddhi Yojana (SSY)

Launched : 2015

Objectives

- To motivate parents to open an account in the name of a girl child and for her welfare to deposit maximum of their savings upto the prescribed limits.
- To meet the requirement of higher education expense for girls.

Salient Feature of SSY

- A small savings scheme, it is a part of Beti Bachao, Beti Padhao Yojana.
- The Sukanya Samriddhi Account is opened to facilitate their education and marriage expenses with a minimum deposit of Rs 1,000 and a maximum of Rs 1.5 lakh.
- A parent or legal guardian can open an account in the name of the girl child until she attains the age of ten years.
- She can withdraw 50% of the money after reaching age of 18 e.g. For higher education. 18 years deadline will also help preventing child-marriages.
- The annual deposit (contributions) qualifies for Section 80C benefit and the maturity benefits are non-taxable.
- It would prevent early marriages of girl and ensure equitable share to a girl child in resources and savings of a family in which she is generally discriminated as against a male child.

Pradhan Mantri Ujjwala Yojana (PMUY)

Launched : 1 May, 2016

Objectives

- Empowering women and protecting their health.
- Reducing the serious health hazards associated with cooking based on fossil fuel.
- Reducing the number of deaths in India due to unclean cooking fuel.
- Preventing young children from significant number of acute respiratory illnesses caused due to indoor air pollution by burning the fossil fuel.

Salient Feature of PMUY

Rehabilitative centres are given financial support for providing shelter and basic amenities such as:

- Food, clothing, medical care, legal aid.
- Education in the case the victims are children.
- Vocational training and income generation activities to provide the victims with alternate livelihood option.

Rajiv Gandhi Scheme for Empowerment of Adolescent Boys –(Saksham)

Launched : Febuary 2014

Objectives

- To make the Adolescent Boys gender sensitive.
- To create sensitized Ahimsa Messengers to address Violence against Women.
- To enable ABs for self-development and empowerment.
- To address the health needs i.e. the physical, mental and emotional health of ABs.
- To promote awareness about health, hygiene, nutrition and Adolescent Reproductive & Sexual Health (ARSH) and family and child care.
- To provide appropriate information and vocational skills for ABs above 16 years through National Skill Development Program (NSDP) for future work-participation.
- To provide necessary life skill education and to provide information/guidance about existing public services.
- To channelize the energies of ABs for nation building.

Salient Feature of Saksham

- Address the health needs- physical, mental and emotional- of boys and promote awareness of hygiene, nutrition and sexual and reproductive health.
- Provide vocational skills to those aged above 16 years through the National Skill Development Program (NSDP).
- The structures under the Integrated Child Development Services Scheme (ICDS) will be utilised as a platform. This will be supported by a dedicated Saksham unit/ cell created at the Centre and in the State, district and block levels.

Swadhar Greh Scheme

Launched : 2015

Objectives

- To cater to the primary need of shelter, food, clothing, medical treatment and care of the women in distress and who are without any social and economic support.
- To enable them to regain their emotional strength that gets hampered due to their encounter with unfortunate circumstances.
- To provide them with legal aid and guidance to enable them to take steps for their readjustment in family/ society.
- To rehabilitate them economically and emotionally.
- To act as a support system that understands and meets various requirements of women in distress.
- To enable them to start their life afresh with dignity and conviction.

Salient Feature of Swadhar Greh Scheme

The objectives would be pursued adopting the following strategies-

EBD_7894

- Temporary residential accommodation with the provision of food, clothing, medical facilities etc.
- Vocational and skill up gradation trainings for economic rehabilitation of such women.
- Counseling, awareness generation and behavioral trainings.
- Legal aid and Guidance.
- Counseling through telephone.

Gender Champions Scheme

Launched : 2015

Objective

- The broad mandate of a Gender Champion is to provide an integrated and interdisciplinary approach to understanding the social and cultural constructions of gender that shape the experiences of women and men in society. The aim is to make the young boys and girls gender sensitive and create positive social norms that value the girls and their rights.

Salient Feature of Gender Champions Scheme

- Gender Champions are envisaged as responsible leaders who will facilitate an enabling environment within their schools/colleges/ academic institutions where girls are treated with dignity and respect.
- Scheme will strengthen the potential of young girls and boys to advocate for gender equality and monitor progress towards gender justice.

One Stop Centre (OSC)

Launched : 1 April, 2015

Objectives

- To provide integrated support and assistance to women affected by violence, both in private and public spaces under one roof.
- To facilitate immediate, emergency and non-emergency access to a range of services including medical, legal, psychological and counselling support under one roof to fight against any forms of violence against women.

Salient Feature of OSC

- It's funded through Nirbhaya Fund.
- The Central Government provide 100% financial assistance to the State Government /UT Administrations under the Scheme.
- Implementing Agency: State Government/ UT Administration.

Mahila e-Haat

Launched : 7 March, 2016

Objectives

- Mahila E-Haat would help to meet the goal of financial inclusion of women by leveraging technology for showcasing products made or sold by women entrepreneurs. They can also showcase services provided by them.
- The portal has been set up with an investment of under Rs.10 lakh from the Rashtriya Mahila Kosh (RMK) an autonomous body under the Union Women and Child Development Ministry for the socio-economic empowerment of women.

Salient Feature of Mahila e-Haat

- It's an online marketing platform for women.
- Beneficiary- All Indian women citizens more than 18 years of age and women SHGs.
- It's an initiative for meeting aspirations and need of women entrepreneurs which will leverage technology for showcasing products made/manufactured/sold by women entrepreneurs.
- It has been set up with an investment of under Rs.10 lakh from the Rashtriya Mahila Kosh—an autonomous body under the WCD ministry for the socio-economic empowerment of women.

National Repository of Information for Women (NARI)

Launched : 2 January, 2018

Objective

- To spread information about schemes and benefits provided by the Government to women. It also contains information about schemes by both Central and the States Governments. The WCD Minister has also given an overview of the agenda of the ministry in the current year 2018.

Salient Feature of NARI

- Users can log on to www.nari.nic.in to access information on different programmes offered by various states as well as the Centre.
- The portal carries details on 350 different schemes for women and will be updated from time to time.
- The schemes are divided into eight different categories – Health, Education, Employment, Housing and Shelter, Addressing Violence, Decision Making, Social Support and Legal Support.
- The search can be facilitated according to age and it is divided into four categories – 0-6 years, 7-17 years, 18-60 years and 60+years.
- Women from all the states and union territories of India can access the information.
- The portal provides links to the Ministries, Departments and various autonomous bodies offering these schemes as well as easy access to online applications and grievance redressal.
- An updated reel also updates women about the new implementations of the ministry.
- The portal offers tips on safety, adoption, health & nutrition, Direct benefits, knowledge corner and getting involved in programs.

MINISTRY OF WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION

Namami Gange Yojana

Launched : May, 2015

Objectives

- To arrest the pollution of Ganga River and revive the river.
- To improve the inter-ministerial, and centre-state coordination with increased involvement in the preparation of action plan and increased monitoring at central and state levels.
- Biodiversity conservation, afforestation, and water quality monitoring
- Programs for the conservation of species such as Golden Mahaseer, Dolphins, Ghariyals, Turtles, Otters, etc.
- Increased recharge of the aquifers, reduced erosion, and improved health of river ecosystem.

Salient Feature of Namami Gange Yojana

- Will cover 8 states/UTs, 47 towns & 12 rivers under the project.
- Establishment of Clean Ganga Fund.
- Under the aegis of National Mission for Clean Ganga (NMCG) & State Programme Management Groups (SPMGs) States and ULBs and PRIs will be involved in this project.
- Setting river centric urban planning process to facilitate better citizen connects, through interventions at Ghats and River fronts.
- **Entry Level Activities:** river surface cleaning to address the floating solid wastes; rural sanitation to arrest the pollution (solid & liquid) entering through rural sewage drains and construction of toilets
- **Medium Term Activities:** Expansion of coverage of sewerage infrastructure in 118 urban habitations on banks of Ganga; Pollution will be checked through Treatment of waste water in drains by applying bio-remediation method, in-situ treatment; municipal sewage & effluent treatment plants; Managing the industrial pollution; Biodiversity conservation; Afforestation, and water quality monitoring.
- **Long Term Activities:** determination of ecological-flow, increased water-use efficiency, and improved efficiency of surface irrigation.

Jal Kranti Abhiyan

Launched : 5 June, 2015

Objectives

- To strengthen grass root involvement of all stake holders including Panchyati raj institutions and local bodies in the water security and development schemes like participatory Irrigation Management (PIM).
- To encourage the adoption of traditional knowledge in water resource conservation and its management.
- To utilize sector-level expertise from different levels in government, NGOs, citizen, etc.
- Enhancing livelihood security through water security in rural areas.

Salient Feature of Jal Kranti Abhiyan

There are four important components of Jal Kranti Abhiyan

I. Jal Gram Yojana: two villages, preferably facing acute water scarcity are being selected as "Jal Grams"
   - From each Jal Grams, one elected representative of Panchayat and one representative of the Water Users Association are being identified as Jal Mitra/ Neer Nari and training is being imparted to them to create mass awareness.
   - Expenditure on various works being taken in each Jal Gram will be met from existing schemes of Central/State Governments, such as PMKSY, MGNREGA, RRR of water bodies, AIBP etc.

II. Development of Model Command Area: a model command area of about 1000 hectare in a State shall be identified. It shall be selected by the ministry, in consultation with state governments, from an existing / ongoing irrigation project in the state where funds for development are available from various schemes.

III. Pollution Abatement and

IV. Mass Awareness Programme.

- A card known as Sujalam Card (with the logo Water Saved, Water Produced) is being prepared for every Jal gram which would provide the yearly status/ information on availability of water for the village from all sources.
- Central Water Commission (CWC) and Central Ground Water Board (CGWB) are the nodal agencies for implementation.
- States will be encouraged to form State Water Policy in accordance with National Water Policy, 2012.
- The program involves use of modern technologies along with traditional wisdom for devising area/ region specific innovative measures for increasing water security.

National Hydrology Project

Launched : 2016-17

Objectives

- The NWIC would result in proper data storage, exchange, analysis and dissemination on hydrology. Increase time of flood forecast from 1 day to 3 day a dvance.

EBD_7894

- Increase time of flood forecast from 1 day to 3 day advance.
- Mapping of flood affected areas for disaster management.
- Assessment of water in river basin (both surface and ground).
- Reservoir operations through seasonal yield forecast, drought management and SCADA (Supervisory control and data acquisition).
- Design of surface and ground water structures, hydropower units, interlinking of rivers, smart cities and fulfilling Digital India.

Salient Feature of National Hydrology Project

- NHP was approved by the Union cabinet in April 2016 as a central sector scheme with a total outlay of Rs 3679 crore. Later it was approved by the World Bank Board.
- Of the total fund, Rs 3,640 crore will be spent for the national project, remaining Rs 39 crore will be used to establish National Water Informatics Centre (NWIC) as a repository of nation-wide water resources data.
- It aims at improving extent, quality, and accessibility of water resources information, decision support system for floods and basin level resource planning and strengthen capacity of institutions in India.
- It is expected to take forward the success of the Hydrology Project-I and Hydrology Project-II by covering the entire country, including the states along the Ganga and Brahmaputra-Barak basins.
- Earlier Project-I and Project-II were limited only to large river systems viz. Krishna and Satluj-Beas. They had established real-time flood forecast systems to give reservoir managers an accurate picture of the water situation in their region.
- The early forecast had increased the time available for early flood warnings and improved flood management preparation from hours to days, saving hundreds of lives and avoided flood damages of $65 million a year.

Atal Bhujal Yojana

Launched : March, 2018

Objective

- Sustainable ground water management with emphasis ondemand side interventions with community participation.

Salient Feature Atal Bhujal Yojana

- It is a Central Sector Scheme and is proposed to be implemented with World Bank assistance.
- It would initially be implemented with community participation in 78 identified districts in Gujarat, Maharashtra, Haryana, Karnataka, Rajasthan, Uttar Pradesh and Madhya Pradesh.

Dam Rehabilitation and Improvement Project (DRIP)

Launched : 2012

Objectives

- Rehabilitation of old dams in country experiencing distress and are in need of attention for ensuring their structural safety and operational efficiency.
- Strengthening institutional capacity and project management in this area.
- Bring greater awareness on dam safety issues and finding novel solutions to address them by pooling best knowledge, technologies and experience available around world.

Salient Feature of DRIP

- It is an externally-aided project as 80% of the total project is provided by the World Bank as loan/credit and remaining 20% is borne by the States/Central Government in which repair and Rehabilitation of 225 dams will be done.
- it is proposed to extend DRIP for a period of two year i.e. upto June 2020 in view of anticipated complexities in some of the important activities of DRIP.
- The Emergency Action Plan (EAP) for the Dams has been proposed that identifies potential emergency conditions at a dam and prescribes the procedures to be followed to minimize loss of life and property damage.

National Groundwater Management Improvement Scheme (NGMIS)

Launched : 2018

Objectives

- Sustainable management of ground water by addressing supply as well as demand side to reduce ground water consumption.
- The project also aims to create awareness among farmers about the ill effects of rapid drying-up of groundwater in the wells.

Salient Feature of NGMIS

- Infrastructure development includes building recharge structure\facilities for utilising rain water directly from roof top, creating rain water harvesting structures for conserving surplus run-off and recharging ground water in aquifers.
- Scheme would be meant for "sustainable management of ground water by addressing supply as well as demand side to reduce ground water consumption".
- NGMIS will be implemented across the country, but special focus will be on states having 'dark' (over-exploited) zones where the withdrawal of water is more than the recharge.
- These states include Haryana, Gujarat, Rajasthan, Maharashtra, Karnataka, Uttar Pradesh (Bundelkhand

region and parts of western UP) and Madhya Pradesh (Bundelkhand region).

- Indiscriminate use of ground water, mainly for irrigation, has increased the number of over-exploited units from 802 in March, 2009 to 1,071 in March, 2011 in the country.
- The over-exploited units are mostly concentrated in Punjab, Haryana, Delhi, western UP, Rajasthan, Gujarat, Karnataka, Andhra Pradesh, Telangana and Tamil Nadu.
- The programme would be implemented during 2017-2022 period.
- It is being framed in coordination with existing programmes and activities including MGNREGA, the Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) as well as the National Hydrology Project (NHP).
- It will also have a 'performance-based incentive' system as its key component to reward states and local authorities for improvement in groundwater management.
- The NGMIS will cover the policy aspects of irrigation efficiency, crop diversification and artificial recharge in the areas which witnessed uncontrolled and unplanned groundwater extraction over the last 50 years.

NITI AAYOG

Transformation of Aspirational Districts Programme

Launched : January, 2018

Objective

- To quickly and effectively improve the performance of these districts across identified key performance indicators in sectors which improves quality of life as well as economic productivity of its citizens: health and nutrition, education, agriculture and water resource management, financial inclusion and skill development and basic infrastructure.

Salient Feature of Transformation of Aspirational Districts Programme

- The Government is committed to raising the living standards of its citizens and ensuring inclusive growth for all – SabkaSaath, SabkaVikas.
- To enable optimum utilization of their potential, this program focusses closely on improving people's ability to participate fully in the burgeoning economy. Health & Nutrition, Education, Agriculture & Water Resources, Financial Inclusion & Skill Development, and Basic Infrastructure are this programme's core areas of focus.
- After several rounds of consultations with various stakeholders, 49 key performance indicators have been chosen to measure progress of the districts. Districts are prodded and encouraged to first catch-up with the best district within their state, and subsequently aspire to become one of the best in the country, by competing with, and learning from others in the spirit of competitive & cooperative federalism.
- NITI Aayog in partnership with the Government of Andhra Pradesh has created a dashboard for monitoring the real-time progress of the districts. District Information Officers underwent training on March 23, 2018 on how to enter data to the dashboard and generate MIS (Management Information System) reports. On April 1, 2018 districts will start entering data. Beginning May 2018, districts will be ranked based on progress made ('delta ranking') on a real-time basis. The dashboard will be open to the public to monitor the progress of the Aspirational Districts.

Atal Innovation Mission (AIM)

Launched : February, 2016

Objectives

- To evolve a shared vision of national development priorities, sectors and strategies with the active involvement of States in the light of national objectives. The vision of the NITI Aayog will then provide a framework 'national agenda' for the Prime Minister and the Chief Ministers to provide impetus to.
- To foster cooperative federalism through structured support initiatives and mechanisms with the States on a continuous basis, recognizing that strong States make a strong nation.
- To develop mechanisms to formulate credible plans at the village level and aggregate these progressively at higher levels of government.
- To ensure, on areas that are specifically referred to it, that the interests of national security are incorporated in economic strategy and policy.
- To pay special attention to the sections of our society that may be at risk of not benefitting adequately from economic progress.
- To design strategic and long term policy and programme frameworks and initiatives, and monitor their progress and their efficacy. The lessons learnt through monitoring and feedback will be used for making innovative improvements, including necessary mid-course corrections.
- To provide advice and encourage partnerships between key stakeholders and national and international like-minded Think Tanks, as well as educational and policy research institutions.
- To create a knowledge, innovation and entrepreneurial support system through a collaborative community of national and international experts, practitioners and other partners.
- To offer a platform for resolution of inter-sectoral and inter-departmental issues in order to accelerate the implementation of the development agenda.
- To maintain a state-of-the-art Resource Centre, be a repository of research on good governance and best

EBD_7894

practices in sustainable and equitable development as well as help their dissemination to stake-holders.

- To actively monitor and evaluate the implementation of programmes and initiatives, including the identification of the needed resources so as to strengthen the probability of success and scope of delivery.
- To focus on technology upgradation and capacity building for implementation of programmes and initiatives.
- To undertake other activities as may be necessary in order to further the execution of the national development agenda, and the objectives mentioned above.

Salient Feature of AIM

- It has two core functions:
  - Entrepreneurship promotion through Self-Employment and Talent Utilization (SETU), wherein innovators would be supported and mentored to become successful entrepreneurs.
  - Innovation promotion: to provide a platform where innovative ideas are generated.
- The holistic framework includes:
  - Atal Tinkering Labs (ATLs) Where students from Class 6th to Class 12th learn innovation skills and develop ideas.
  - Atal Incubation Centres (AICs): They will be set up at the university, NGO, SME and Corporate industry levels for promoting entrepreneurship in universities and industry.
  - Atal New India Challenges and Atal Grand Challenges – To promote technology driven innovations and product creation for social and commercial impact
  - Mentor India Campaign: It's a strategic nation building initiative to engage leaders who can guide and mentor students. Industry, Academia, Government, Global Collaborations as a key to success.

Sustainable Action for Transforming Human Capital (SATH)

Launched : June, 2017

Objectives

- Aims to identify and build future 'role model' states.
- To initiate transformation in the education and health sectors.

Salient Feature of SATH

- NITI Aayog will work in close collaboration with their state machinery to design a robust roadmap of intervention, develop a program governance structure, set up monitoring and tracking mechanisms, handhold state institutions through the execution stage and provide support on a range of institutional measures to achieve the end objectives.
- For Health Sector, NITI Ayog has elected Uttar Pradesh, Assam and Karnataka while for education sectors Madhya Pradesh, Jharkhand and Odisha.

Aspirational Districts Programme

Launched : 2018

Objective

- To quickly and effectively transform some of the most underdeveloped districts of the country.

Salient Feature of Aspirational Districts Programme

- It focuses on transforming 115 districts across 28 states that have witnessed the least progress along certain development parameters.
- Broad contours of the programme include convergence (of central and state schemes), collaboration (of central, state level 'Prabhari' officers & district collectors), and competition among districts.
- 49 indicators across five core dimensions have been identified: health and nutrition, education, financial inclusion, agriculture and water resources, skill development and basic infrastructure.
- Dashboard to monitor real-time progress in the districts.
- Cooperative Federalism: Local, state and central governments work together to design, implement and monitor measures to drive development in the districts.

DEPARTMENT OF SPACE

Bhuvan Isro's Geo-Portal

Launched : 12 August, 2015

Objective

- To develop a software application which allows users to explore a 2D/3D representation of the surface of the Earth.

Salient Feature of Bhuvan Isro's Geo-Portal

- It provides 1m resolution satellite data for more than 350 cities and services several users for their remote sensing application needs.
- The portal also, provides the detailed information regarding household amenities data and Census Population data at district and village level respectively.
- It supports disaster management and also provides active support for flagship programmes of the government including Integrated Watershed Development Program, National Mission for Clean Ganga, AMRUT etc.
- Various programs using its services:
  - ENVIS program of Ministry of Environment, Forests & Climate Change.
  - Bhuvan Panchayats Web Portal which facilitates decentralised planning at grassroot level.
  - Bhuvan Ganga mobile app and web portal which

ensures people participation in providing vital information for Clean Ganga project.

MINISTRY OF DEFENCE

One Rank One Pension Scheme

Launched : 1 July, 2014

Objective

- To provide uniform pension be paid to the Armed Forces personnel retiring in the same rank with the same length of service, regardless of their date of retirement.

Salient Feature of One Rank One Pension Scheme

- Under the scheme the benefits will be provided w.e.f. 1st July 2014.
- The arrears will be paid in four half-yearly instalments. However all widows, including war widows will be paid arrears in one instalment.
- Pension will be re-fixed for all pensioners retiring in the same rank and with the same length of service as the average of minimum and maximum pension in 2013.
- Personnel who voluntarily retire will not be covered under the OROP scheme.
- In future, the pension would be re-fixed every 5 years.

MINISTRY OF HOUSING AND URBAN AFFAIRS

Pradhan Mantri Awas Yojana (PMAY)

Launched : 2015

Objectives

The visionary Pradhan Mantri housing Yojana scheme focus on four categories includes:

- Building and/ or enhancing the houses led by legatees.
- Promotion of 'Affordable Housing' for weaker section through credit linked subsidy.
- Rehabilitation of existing slum dwellers with private sector participation using land as resource.
- Affordable housing in association with private and government funding.

Salient Feature of PMAY

- The Indian government will provide an interest subsidy of 6.5% on housing loans availed by the beneficiaries for a period of 15 years from the commencement of their loan tenure.
- This scheme can well be termed as a Pro-women scheme due to its preference over to the female applicants in the family.
- During the allocation of houses under the scheme of PMAY, the preference in allocating the ground floors will be given to the senior citizens and to the differently-abled.
- All the houses built under PMYA scheme would be carried out through technology and will have eco-friendly compliance.

Deendayal Antyodaya Yojana-National Urban Livelihoods Mission (DAY-NULM)

Launched : 25 September, 2014

Objectives

- To reduce poverty and vulnerability of the urban poor households by enabling them to access gainful self employment and skilled wage employment opportunities, resulting in an appreciable improvement in their livelihoods on a sustainable basis, through building strong grassroots level.
- The mission would also aim to providing the shelter equipped with essential services to the urban homeless in a phased manner. The scheme also address the livelihood concern of the urban street vendors by facilitating with suitable space, institutional credit, and social security and skills to the urban street vendor for accessing emerging market opportunities.

Salient Feature of DAY-NULM

- Employment through Skill Training and Placement - An expenditure of Rs.15, 000 per person is allowed on training of urban poor which is Rs.18, 000 in North-East and J&K. Moreover, Training urban poor to meet the enormous demand from urban citizens by imparting market-oriented skills through City Livelihood Centers.
- Social Mobilization and Institution Development - It will be done through formation of Self-Help Groups (SHG) for training members and hand holding, an initial support of 10, 000 is given for each group. Assistance of Rs.50, 000 is provided to Registered Area Level Federations.
- Subsidy to urban poor - An interest subsidy of 5% - 7% for setting up individual micro-enterprises with a loan of up to 2 lakh and for group enterprises with a loan limit of up to Rs.10 lakhs.
- Shelters for urban homeless - Cost of construction of shelters for urban homeless is fully funded under the Scheme.
- Other means - Development of vendor markets and also the promotion of skills for the vendors through setting up infrastructure and special projects for the rag picker and differently abled etc.

Smart Cities Mission

EBD_7894

Launched : 2015

Objectives

- It aims to promote cities that provide core infrastructure and give a decent quality of life to its citizens, a clean and sustainable environment and application of 'Smart' Solutions.
- It aims to focus on sustainable and inclusive development and to set examples that can be replicated both within and outside the Smart City, catalysing the creation of similar Smart Cities in various regions and parts of the country.
- To improve the ease of living particularly for poor, women, elderly and differently abled.

Salient Feature of Smart Cities Mission

- Promoting mixed land use in area based developments–planning for 'unplanned areas' containing a range of compatible activities and land uses close to one another in order to make land use more efficient. The States will enable some flexibility in land use and building bye-laws to adapt to change.
- Housing and inclusiveness - expand housing opportunities for all.
- Creating walkable localities –reduce congestion, air pollution and resource depletion, boost local economy, promote interactions and ensure security. The road network is created or refurbished not only for vehicles and public transport, but also for pedestrians and cyclists, and necessary administrative services are offered within walking or cycling distance.
- Preserving and developing open spaces - parks, playgrounds, and recreational spaces in order to enhance the quality of life of citizens, reduce the urban heat effects in Areas and generally promote eco-balance.
- Promoting a variety of transport options - Transit Oriented Development (TOD), public transport and last mile para-transport connectivity.
- Making governance citizen-friendly and cost effective - increasingly rely on online services to bring about accountability and transparency, especially using mobiles to reduce cost of services and providing services without having to go to municipal offices. Forming e-groups to listen to people and obtain feedback and use online monitoring of programs and activities with the aid of cyber tour of worksites.
- Giving an identity to the city - based on its main economic activity, such as local cuisine, health, education, arts and craft, culture, sports goods, furniture, hosiery, textile, dairy, etc.
- Applying Smart Solutions to infrastructure and services in area-based development in order to make them better. For example, making Areas less vulnerable to disasters, using fewer resources, and providing cheaper services.

Atal Mission for Rejuvenation and Urban Transformation (AMRUT)

Launched : 2015

Objectives

- Reshaping and overhaul of selected cities and towns at an infrastructural level, with special focus on healthy and green environment for children.
- Reform implementation.
- Providing a constant supply of clean drinking water.
- Improvement and enhancement of the sewerage network.
- Development and management of septage.
- Raise the level of public transport service.
- Installation of storm water drains.
- Creation of environment friendly and green public spaces, such as parks.
- Creation of healthy open spaces for children.

Salient Feature of AMRUT

- The total outlay for AMRUT is Rs. 50,000 crore for five years from FY2015-16 to FY2019-20 and the Mission will be operated as a Centrally Sponsored Scheme.
- Ten percent of the annual budget allocation shall be kept apart and given to the States/UTs every year as incentive for achievement of Reforms.
- Central assistance will be released in three instalments in the ratio of 20:40:40 based on achievement stated in State Annual Action Plans.
- States will transfer funds to urban local bodies within 7 days of transfer by central government and no diversion of funds to be made.
- It makes States equal partners in planning and implementation of projects, thus actualizing the spirit of cooperative federalism by replacing the project-by-project sanctions by MoUD by approval of the State Annual Action Plan once a year by the MoUD and the States have to give project sanctions and approval at their end.
- It also involves individual and institutional capacity building of the Mission Cities and ULBs.
- Recently, Ministry of Housing and Urban Affairs has decided to provide incentive to ULBs covered under AMRUT for Issuance of Municipal Bonds.
- The ministry will incentivise up to 10 Urban Local bodies (ULBs) for up to a maximum of 26 crores.
- Five hundred cities will be taken up under AMRUT which include:
    - All Cities and Towns with a population of over one lakh with notified Municipalities, including Cantonment Boards (Civilian areas).
    - All Capital Cities/Towns of States/ UTs, not covered in above .
    - All Cities/ Towns classified as Heritage Cities by MoUD under the HRIDAY Scheme.
    - Thirteen Cities and Towns on the stem of the main rivers with a population above 75,000 and less than 1 lakh.

- Ten Cities from hill states, islands and tourist destinations (not more than one from each State).

Heritage City Development and Augmentation Yojana (HRIDAY)

Launched : 21 January, 2015

Objectives

- Every year millions of people walk into the country, especially in these cities to learn Indian culture. The scheme aims to provide a better and developed heritage city to the nation and global travellers.
- To preserve the culture and the essence of the heritage cities by planning and implementing the developed infrastructures in all over the cities.
- To enhance the public and basic services like conveyance, sanitisation, streets, water taps, toilets and other benefits for the travellers.
- To implement the growth and the development of the core infrastructure and system of these holy cities. Also they are aiming to conserve the assets of these cities.

Salient Feature of HRIDAY

- The HRIDAY scheme was launched for the development and augmentation of the heritage cities in India. The cities such as Varanasi, Gaya, Amritsar, Ajmer, Kanchipuram, Mathura, Warangal, Puri, Amravati, Velankanni, Dwarka and Badami are the 12 cities added to the list for development.
- The entire development process will be funded by the Central Government of India. Total of Rs. 500 Crore have been allocated for the scheme for 27 months of time.
- Under this scheme the core infrastructure of all these heritage cities will be developed and will be transformed into better quality so that the visitors can enjoy their tours.
- The Tourism ministry has also joined the urban ministry here as they said the scheme will boost up the Indian tourism better than earlier times.

Swachh Bharat Mission (Urban)

Launched : 2 October, 2014

Objectives

- Elimination of open defecation.
- Eradication of Manual Scavenging.
- Modern and Scientific Municipal Solid Waste Management.
- To effect behavioral change regarding healthy sanitation practices.
- Generate awareness about sanitation and its linkage with public health.
- Capacity Augmentation for ULB's.
- To create an enabling environment for private sector participation in Capex (capital expenditure) and Opex (operation and maintenance).

Salient Feature of Swachh Bharat Mission (Urban)

- The Mission will be in force till 2nd October 2019.
- The funding pattern between the Central Government and the State Government/ Urban Local Bodies (ULBs) is 75%:25% (90%: 10% for North Eastern and special category states).
- The gap in financing of the components could be met by the beneficiary contribution, private funding, funds with private companies under Corporate Social Responsibility (CSR) and the Swachh Bharat Kosh of the Ministry of Finance.
- The Mission has following components:

Construction of Household Toilets; Community and Public Toilets; Municipal Solid Waste Management; Information, Education & Communication (IEC) and Public Awareness; Capacity Building and Administrative & Office Expenses (A&OE).

MINISTRY OF HUMAN RESOURCE AND DEVELOPMENT

Samagra Shiksha Scheme

Launched : July, 2018

Objective

- The major objectives of the Scheme are provision of quality education and enhancing learning outcomes of students; Bridging Social and Gender Gaps in School Education; Ensuring equity and inclusion at all levels of school education; Ensuring minimum standards in schooling provisions; Promoting Vocationalisation of education; Support States in implementation of Right of Children to Free and Compulsory Education (RTE) Act, 2009; and Strengthening and up-gradation of SCERTs/State Institutes of Education and DIET as a nodal agencies for teacher training.

Salient Feature of Samagra Shiksha Scheme

- Annual Grant of Rs. 5,000 to Rs. 20,000/- per school for strengthening of Libraries.
- Composite school grant increased from Rs. 14,500-50,000 to Rs. 25,000-1 Lakh and to be allocated on the basis of school enrolment.
- Annual Grant for sports equipments at the cost of Rs. 5000 for Primary Schools, Rs. 10,000 for upper primary schools and up to Rs. 25,000 for secondary and senior secondary schools.
- Allocation for children with Special Needs (CwSN) increased from Rs. 3,000 to Rs. 3,500 per child per annum including a stipend of Rs. 200 per month for CWSN girls to be provided from Classes I to XII. – earlier it was only for classes IX to XII.
- Allocation for uniforms enhanced from Rs. 400 to Rs. 600 per child per annum.
- Allocation for textbooks enhanced from Rs. 150/250 to Rs. 250/400 per child per annum.

EBD_7894

- Upgradation of Kasturba Gandhi Balika Vidyalayas (KGBVs) from Class 6-8 to Class 6-12.
- Strengthening Teacher Education Institutions like SCERTs and DIETs to improve the quality of teachers with SCERT as the nodal institution for in-service and pre-service teacher training
- Enhanced use of digital technology in education through smart classrooms, digital boards and DTH channels.

Rashtriya Madhyamik Shiksha Abhiyan (RMSA)

Launched : 2009

Objectives

- The scheme envisages achieving a gross enrolment ratio of 75% from 52.26% in 2005-06 for classes IX-X within 5 years of its implementation, by providing a secondary school within reasonable distance of any habitation.
- Improve the quality of education imparted at secondary level by making all secondary schools conform to prescribed norms.
- Remove gender, socio-economic and disability barriers.
- Provide universal access to secondary level education.
- Enhance and universalize retention by 2020.

Salient Feature of RMSA

- Important physical facilities provided under the scheme are: Additional class rooms, Laboratories, Toilet blocks, Residential Hostels for Teachers in remote areas etc.
- The scheme envisages to enhance the enrolment by providing a secondary school with a reasonable distance (5-7 km) of habitation, with an aim to ensure GER of 100 per cent and universal retention by 2020.
- Important quality interventions provided under the scheme are: appointment of additional teachers to reduce PTR to 30:1, focus on Science, Math and English education, training of teachers, etc.
- Important equity interventions provided in the scheme are: preference to Ashram schools for upgradation, preference to areas with concentration of SC/ST/ Minority for opening of schools etc.
- Apart from focusing on the vulnerable groups (ST/SC groups, minority girls, etc.) it also aims at inclusive education for differently abled children.

Sarva Shiksha Abhiyan (SSA)

Launched : 2001

Objectives

- All children in school. Education Guarantee Centre, Alternate School, 'Back-to-School' camp by 2003.
- All children complete five years of primary schooling by 2007.
- All children complete of elementary schooling by 2010.
- Focus on elementary education of satisfactory quality with emphasis on education for life.
- Bridge all gender and social category gaps at primary stage by 2007 and at elementary education level by 2010.
- Universal retention by 2010.

Salient Feature of SSA

- It seeks to open new schools in those habitations which do not have schooling facilities and strengthen existing school infrastructure through provision of additional class rooms, toilets, drinking water, maintenance grant and school improvement grants.
- Existing schools with inadequate teacher strength are provided with additional teachers, while the capacity of existing teachers is being strengthened by extensive training, grants for developing teaching-learning materials and strengthening of the academic support structure at a cluster, block and district level.
- SSA seeks to provide quality elementary education including life skills. SSA has a special focus on girl's education and children with special needs.
- SSA also seeks to provide computer education to bridge the digital divide.
- The SSA covers all districts in the country in order to ensure access, retention and quality improvement in elementary education.

Padhe Bharat Badhe Bharat

Launched : 2014

Objectives

- Special focus on improving language development and to create interest in mathematics.
- To recognise social perspective of homeschool transition.

Salient Feature of Padhe Bharat Badhe Bharat

- Launched in 2014, it is implemented countrywide.
- The two tracks of the programme are: Early reading and writing with comprehension (ERWC) and Early mathematics (EM).
- As a follow up, National Reading Initiative was launched to develop and promote the habit of reading among students in elementary schools, thereby extending the programme up to class 8.

Rashtriya Avishkar Abhiyan (RAA)

Launched : July, 2015

Objective

- The objective of this scheme is to foster curiosity, creativity and imagination in young minds; and inculcate skills such as design mindset, computational thinking, adaptive learning, physical computing etc.

Salient Feature of RAA

- Mentoring by institutes like IITs/ IIMs/ IISERs and other central universities and reputed organizations through innovative programmes, student exchanges, etc. to develop a natural sense of passion towards learning of science and maths.
- It is a step to promote scientific temper and enquiry promoting the fundamental duty under Article 51(A).

Rashtriya Uchchatar Shiksha Abhiyan (RUSA)

Launched : 2013

Objectives

- Improving the overall quality of existing state higher educational institutions by ensuring conformity to prescribed norms and standards and adoption of accreditation as a mandatory quality assurance framework.
- Correct regional imbalances in access to higher education through high quality institutions in rural and semi urban areas as well as creating opportunities for students from rural areas to get access to better quality institutions.
- Setting up of higher education institutions in unserved and underserved areas.
- Improve equity in higher education by providing adequate opportunities to socially deprived communities; promote inclusion of women, minorities, SC/ST and OBCs as well as differently abled persons.
- Ensure adequate availability of quality faculty in all higher educational institutions and ensure capacity building at all levels.
- Create an enabling atmosphere in higher educational institutions to devote themselves to research and innovation.
- Integrate skill developments efforts of the government with the conventional higher education system through optimum interventions.

Salient Feature of RUSA

- Norm-based and performance-based funding.
- Commitment by States and institutions to certain academic, administrative and governance reforms will be a precondition for receiving funding.
- Funds would flow from the Ministry of Human Resource Development (M.H.R.D.) to universities and colleges, through the State governments.
- Funding to the States would be made on the basis of critical appraisal of State Higher Education Plans (S.H.E.Ps). S.H.E.P. should address each State's strategy to address issues of equity, access and excellence.
- Each institution will have to prepare an Institutional Development Plan (I.D.P.) for all the components listed under the Scheme. It will be aggregated at the State level, after imposing a super layer of State relevant components into the S.H.E.P..
- State higher education councils (S.H.E.C.) will have to undertake planning and evaluation, in addition to other monitoring and capacity building functions.
- S.H.E.C. will be the key institution at the state level to channelize resources to the institutions from the State budget.
- Two on-going Central schemes of Model Degree Colleges and submission on polytechnics will be subsumed under RUSA.
- U.G.C. Schemes such as development grants for State universities and colleges, one-time catch up grants, etc. will be dove-tailed in RUSA. Individual oriented schemes would continue to be handled by U.G.C..
- Centre-State funding would be in the ratio of 90:10 for North-Eastern States, Sikkim, Jammu and Kashmir, Himachal Pradesh and Uttarakhand and 65:35 for Other States and Union Territories (U.Ts).
- Funding will be provided for government-aided institutions for permitted activities, based on certain norms and parameters, and in a ratio of 50:50.
- States would be free to mobilize private sector participation (including donations and philanthropic grants) through innovative means, limited to a ceiling of 50% of the State share (see chapter 6 of RUSA document for more details).
- State-wise allocations would be decided on the basis of a formulaic entitlement index which would factor in the population size of the relevant age group, G.E.R. and Gender Parity Index (G.P.I.) across categories, State expenditure on higher education, institutional density, teacher-student ratio, issues of access, equity and quality and excellence in higher education, etc. Further allocation of funds would be dependent upon performance of the state and its demonstrated commitment to the reforms agenda.

Midday Meal Scheme

Launched : 1995

Objectives

- Improving the nutritional status of children in classes I-V in Government, Local Body and Government aided schools, and EGS and AIE centres.
- Encouraging poor children, belonging to disadvantaged sections, to attend school more regularly and help them concentrate on classroom activities.

EBD_7894

- Providing nutritional support to children of primary stage in drought affected areas during summer vacation.

Salient Feature of Midday Meal Scheme

- Minimum content of 300 calories of energy and 8-12 gram protein per day for a minimum of 200 days.
- For upper primary stage was fixed at 700 calories and 20 grams of protein.
- It is a Centrally Sponsored Scheme (60:40) which will be fully sponsored by the Union Government.
- Aadhaar linking: The schools and Anganwadis have been asked to collect the Aadhaar number of the children beneficiaries.

Madhyamik and Uchchtar Shiksha Kosh (MUSK)

Launched : August, 2017

Objective

- It would be utilized for schemes of secondary and higher education, all over the country.

Salient Feature of MUSK

- Accruals into the proposed non-lapsable fund will be made available for expansion of secondary education and higher education.
- **For Secondary Education:** Presently, the Ministry of Human Resources Development envisages that the accruals from the Cess would be utilized in the secondary education for:
  - Ongoing Rashtriya Madhyamik Shlksha Abhiyan Scheme and other approved programmes including:
  - National Means-Cum-Merit Scholarship Scheme and
  - National Scheme for Incentives to Girls for Secondary Education.
- **For Higher Education:** the accruals would be utilized for:
  - Ongoing Schemes of Interest Subsidy and contribution for guarantee funds, Scholarship for College & University Students;
  - Rashtriya Uchchtar Shiksha Abhiyaan;
  - Scholarship (from Block Grant to the institutions) and National Mission on Teachers and Training.
  - However, the Ministry of Human Resources Development can allocate funds for any programme/ scheme of secondary and higher education, based on the requirement & prescribed procedure.

UDDAN-Giving Wings to Girls

Launched : 2015

Objective

- Udaan is a platform that empowers the girl students, facilitate their aspiration of joining the prestigious engineering institutions and take important role in development/ progress of the country in future. Under this program, students are provided free offline/online resources through virtual weekend contact classes and study material on pre-loaded tablet while studying in Class XI and Class XII for preparation of admission test to various premier engineering colleges in the country.

Salient Feature of UDDAN-Giving Wings to Girls

- Free of cost support to Girl students of Classes XI and XII to prepare for engineering entrance examination.
- Availability of tutorials, videos and study material.
- Organization of Virtual contact classes at 60 designated city centres.
- Pre-loaded Tablet to facilitate learning beyond class room.
- Orientation Session on using technology to all selected students.
- Assessments designed to provide useful feedback on learning.
- Remedial steps to correct learning.
- Peer learning and mentoring opportunities for meritorious students.
- Motivation sessions with students/parents.
- Student helpline services to clarify doubts, monitor student learning and support technology.
- Constant monitoring and tracking of student progress with feedback.

Ek Bharat Shreshtha Bharat (EBSB)

Launched : 31 October, 2016

Objective

- To actively enhance interaction between people of diverse cultures living in different States and UTs in India to promote greater mutual understanding amongst them.

Salient Feature of EBSB

- As per the programme, each year, every State/UT would be paired with another State/UT in India for reciprocal interaction between the people.
- The paired States/ UTs are to enter into MoUs with each other to carry out common activities under Ek Bharat Shrestha Bharat.

- Rashtriya Ekta Shivir are organised under this programme by Kendriya Vidyalaya Sangathan.

MINISTRY OF LABOUR AND EMPLOYMENT

Pandit Deendayal Upadhyay Shramev Jayate Karyakram

Launched : October, 2014

Objective

- To provide conducive environment for industrial development and doing business with ease through introduction of several labour reforms.

Salient Feature of Pandit Deendayal Upadhyay Shramev Jayate Karyakram

- A dedicated Shram Suvidha Portal: That would allot Labour Identification Number (LIN) to nearly 6 lakhs units and allow them to file online compliance for 16 out of 44 labour laws.
- An all-new Random Inspection Scheme: Utilizing technology to eliminate human discretion in selection of units for Inspection, and uploading of Inspection Reports within 72 hours of inspection mandatory.
- Universal Account Number: Enables 4.17 crore employees to have their Provident Fund account portable, hassle-free and universally accessible.
- Apprentice Protsahan Yojana: Will support manufacturing units mainly and other establishments by reimbursing 50% of the stipend paid to apprentices during first two years of their training.
- Revamped Rashtriya Swasthya Bima Yojana: Introducing a Smart Card for the workers in the unorganized sector seeded with details of two more social security schemes.

Pradhan Mantri Rojgar Protsahan Yojana (PMRPY)

Launched : August, 2016

Objective

- To incentivize employers promoting employment generation and providing social security benefits to the workers.

Salient feature of PMRPY

- The scheme has been launched in this fiscal year 2016-17 in the budget. It is solely targeted towards creating more employment opportunities and fair wage.
- Anyone who is earning up to Rs. 15000 per month and works 240 days a year is eligible to receive the benefits of this scheme.
- Under this scheme the government will bear part of the pension in the form of Wage Pension Scheme in which they will pay 8.33% of the wage for the first 3 years.
- As of now 3 lakh establishments have been registered under this scheme. This just means that under them employees will be hired. It is said that 20 workers will be hired per establishment.
- The scheme has already been launched and it is expected to take effect soon. Already the government has allocated Rs. 1000 crore for this scheme.

Central Sector Scheme for the Rehabilitation of Bonded Labour, 2016

Launched : May, 2016

Objective

- To provide protection to the freed bonded labourers from eviction from their homestead.
- To provide economic and social rehabilitation of freed bonded labourers.

Salient Feature of Central Sector Scheme for the Rehabilitation of Bonded Labour

- The revised scheme is a Central Sector Scheme. The State Government is not required to pay any matching contribution for the purpose of cash rehabilitation assistance.
- Financial assistance has been increased from Rs. 20,000/- to one lakh per adult male beneficiary, Rs. 2 lakh for special category beneficiaries such as children including orphans or those rescued from organized & forced begging rings or other forms of forced child labour, and women and Rs. 3 lakh in cases of bonded or forced labour involving extreme cases of deprivation or marginalization such as trans-genders, or woman or children rescued from ostensible sexual exploitation such as brothels, massage parlours, placement agencies etc., or trafficking, or in cases of differently abled persons, or in situations where the District Magistrate deems fit.
- The amount of assistance for survey of bonded labourers is Rs. 4.50 lakh per district.
- The release of rehabilitation assistance has been linked with conviction of the accused. In cases where the trial has not been concluded, but the District Administration has arrived at a prima facie finding and proof of bondage, then the proposal for cash assistance shall not be stopped for want of details of conviction. However, final disbursement of cash assistance and non-cash assistance shall be made upon

EBD_7894

proof of bondage and other legal onsequences as per judicial process.

- Scheme provides for creation of a Bonded Labour Rehabilitation Fund at District level by each State with a permanent corpus of at least Rs. 10 lakh at the disposal of the District Magistrate for extending immediate help to the released bonded labourers.
- The fund is released by the Ministry under the Scheme to the District National Child Labour Project Society and the District Project Society in turn releases the fund to the implementing agencies including the district administration.
- Special care is made available by the State for addressing the needs of the disabled persons, female freed bonded labourers and bonded child labour by providing safe and secure environment for the capacity building of child bonded labourers, facilities for ensuring their proper education, short stay home till education upto class 12th, skill development, marriage assistance etc.
- The benefits prescribed above shall be, in addition to, other cash or non-cash benefits which a beneficiary under this scheme is entitled to, by or under any other scheme or law applicable for the time being in force. Further, the above benefits would be additionality to other land and housing elements etc.

Platform for Effective Enforcement for No Child Labour (PENCIL)

Launched : September, 2015

Objective

- To involve Centre, State, District, Governments, civil society and the general public in achieving the target of child labour free society.

Salient Feature of PENCIL

- It is an electronic portal to combat the menace of child labour and trafficking.
- It has various components - complaint corner, child & adolescent labour tracking system, NCLP (National Child Labour Project) and State Resource Centre.
- At the State Government level the monitoring is to be done by State Resource Centre established at State Labour Department. At district level District Nodal Officers (DNOs) are nominated to take action on the complaints of their respective districts.

National Child Labour Project (NCLP)

Launched : 14 August, 1987 (Revised-2016)

Objectives

- This is the major Central Sector Scheme for the rehabilitation of child labour.
- The Scheme seeks to adopt a sequential approach with focus on rehabilitation of children working in hazardous occupations & processes in the first instance.
- Under the Scheme, survey of child labour engaged in hazardous occupations & processes has been conducted.
- The identified children are to be withdrawn from these occupations & processes and then put into special schools in order to enable them to be mainstreamed into formal schooling system.
- Project Societies at the district level are fully funded for opening up of special schools/Rehabilitation Centres for the rehabilitation of child labour.
- The special schools/Rehabilitation Centres provide:
  - Non-formal/bridge education
  - Skilled/vocational training
  - Mid Day Meal
  - Stipend @ Rs.150/- per child per month.
  - Health care facilities through a doctor appointed for a group of 20 schools.

Salient Feature of NCLP

- The scheme was started to rehabilitate child labour by adopting a sequential approach.
- Under the scheme the children engaged in child labour would be identified and withdrawn from the identified areas.
- They are then prepared for mainstream education along with vocational training and ensure convergence of services for the benefit of child and family.
- The Scheme will be implemented in close coordination with state, district administration and civil society.

National Career Service

Launched : July, 2017

Objective

- To bridge the gap between those who need jobs and those who want to hire them, between people seeking career guidance and training and those who can provide the counselling and training.

Salient Feature of National Career Service

- It was launched to replace the National Employment Service comprising a network of 978 employment exchanges.

- IT comprises an ICT-based portal, a countrywide set-up of career centres, a multilingual call centre, and a network of career counsellors.
- The national ICT portal primarily facilitates registration of job seekers, job providers, skill providers, career counsellors etc.
- It envisages 100 model career centres to provide a variety of employment related services with primary focus on Career Counseling.

Revised Integrated Housing Scheme

Launched : 1989 (revised many times)

Objective

- To provide financial assistance to workers for construction of new houses.

Salient Feature of Revised Integrated Housing Scheme

- It provides housing subsidy of Rs. 1,50,000/- per worker in three installments directly into the bank account of the beneficiaries.
- The beneficiaries include workers engaged in Beedi/ Iron Ore Mines, Manganese Ore & Chrome Ore Mines (IOMC)/Limestone Ore Mines, Dolomite Ore Mines (LSDM) /Mica Mines and Cine Industries, registered with the Labour Welfare Organisation.

MINISTRY OF HEAVY INDUSTRIES & PUBLIC ENTERPRISES

Solar Charkha Mission

Launched : 27 June, 2018

Objectives

- To create awareness about Khadi by bringing up the sales from Rs. 26,000 crores to Rs. 1 lakh crores.
- To have an eco-friendly environment.
- To revitalize the cotton industry.
- To extend self-employment in rural and urban areas.
- To make cotton generation a reliable and profitable business.

Salient Feature of Solar Charkha Mission

- An innovative way of cotton production by using solar energy thereby saving the electricity.
- Over 5 crore jobs will be given exclusively to women.
- In addition to this, the scheme provides 1,100 jobs to every panchayat.
- The government plans to develop agro cluster in rural areas and industrial cluster in urban areas.
- 20% of procurement is required by the government agencies from MSMEs.
- The scheme consists of 500 solar spindles and its cluster comprises of 4000 spindles.
- An investment of Rs. 40,000 crores in every Lok Sabha constituency has been proposed.
- 1 lakh women will be employed in every parliament constituency through the Social Security Scheme.

National Electric Mobility Mission Plan (NEMMP)

Launched : March, 2015

Objective

- It aims to achieve full national fuel security by promoting hybrid and electric vehicles in the country.

Salient Feature of NEMMP

- It targets 6-7 million sales of hybrid and electric vehicles year on year from 2020 onwards.
- Government aims to provide fiscal and monetary incentives to kick start this nascent technology which would be administered through an efficient and effective electronic mechanism/portal.
- It is a composite scheme using different policy-levers such as:
  - Demand side incentives to facilitate acquisition of hybrid/electric vehicles
  - Promoting R&D in technology including battery technology, power electronics, motors, systems integration, battery management system, testing infrastructure, and ensuring industry participation in the same.
  - Promoting charging infrastructure
  - Supply side incentives
  - Encouraging retro-fitment of on-road vehicles with hybrid kit.

MINISTRY OF YOUTH AFFAIRS AND SPORTS

First 'Khelo India' School Games

Launched : 31 January, 2018

Objectives

- Promote Sports for All as well as Sports for Excellence and create an active population with healthy lifestyle.
- Mainstream sport as tool for individual development, community development, economic development and national development.
- Impact entire sports ecosystem, including infrastructure, community sports, talent identification, coaching for excellence, competition structure and sports economy.
- Engage youth living in disturbed and deprived areas, in sporting activities, to wean them away from

EBD_7894

unproductive and disruptive activities and mainstream them in nation-building process.

Salient Feature of First 'Khelo India' School Games

- The talent spotting and age verification of the selected players has been driven by the scientific and trusted method through TW3.
- An annual stipend of Rs. 1.2 lakhs will be given to the players on a quarterly basis to meet their out of pocket expenses, treating injuries and even smaller but very important elements like local travel for themselves and their parents/ family members.
- Support and skill trainings at KHELO INDIA accredited Academies. For the first time ever, in order to create a strong ecosystem for nurturing the talent, various private, State and Sports Authority of India academies have been accredited. The High Powered Committee accredited 21 non-SAI academies as well. The list of accredited academies is available on the SAI website.
- The plan is to develop more such academies so that young athletes can get access to the best training without having to travel long distances. The accredited academies will look after the training, boarding and tournament expenses of the athletes.
- It was also decided that the academies will be divided into three categories. To encourage excellence, there will be gap analysis which will offer these academies opportunities for upgradation. At the same time there will be a strong review mechanism for academies on a periodical basis. Academies that do not maintain desired standards and fulfill the performance criteria, may be delisted.
- The High Powered Committee also decided that a strong performance management system would be in place and performance be rewarded. If athletes are not fulfilling this criterion and coming up to the requisite standards, they may be weeded out from the academies.
- It was also decided that athletes must report injury immediately so that timely rehabilitation can be offered. The high-powered committee also decided to put into place a robust performance monitoring system to get the best out of everyone involved in the system.

GOVERNMENT POLICIES & PLANS IN INDIA

CHAPTER 3

INTRODUCTION

Government policies are the plans of action by which government is guided in its management of public affairs. These policies are principles which guide government decisions, resulting in positive outcomes for change and welfare of people.

WOMEN AND CHILD WELFARE POLICIES

Draft National Policy for Women 2016

Objective

The policy envisions a society in which women attain their full potential and are able to participate as equal partners in all spheres of life. It also emphasizes the role of an effective framework to enable the process of developing policies, programmes and practices which will ensure equal rights and opportunities for women.

Features

Health including food security and nutrition: There are 18 points under health, food security and nutrition which include maternal and reproductive health, geriatric care, adolescent sexual & reproductive health and menopausal health care.

Education: This section suggests gender sensitisation of curriculum and faculty, and the use of 'Gender Champions' to promote gender sensitisation. The draft also creates a supportive environment by setting up a 'responsive complaint mechanism' for sexual harassment and intimidation of girls and young women.

Economy: The draft policy envisions for women the roles that they are in Swayam Shikshan Prayog's projects. The draft also flags gender differentials in wages and gender-sensitive social security. The draft proposes a system of registration and 'portability of entitlements such as ration cards and identity papers'. It also proposes the registration of tribal migrants by Panchayats, skill development and training for women, entrepreneurial development, appropriate benefits related to maternity and child care services.

Governance and Decision Making: The draft mentions about increasing women's' participation in the political arena, in administration, in civil services as well as the skill development of women in new and emerging areas.

Violence against Women: The draft policy addressed all forms of violence against women through a life cycle approach and strict implementation of guidelines, Standard Operating Procedures (SoPs) and protocols.

Enabling Environment: The draft mentions Gender perspective in housing and infrastructure, ensuring safe water and sanitation, concerted efforts towards strengthening social security and support services for all women.

Environment and Climate Change: The policy talks about addressing gender concerns during distress migration & displacement in times of natural calamities due to climate change and environmental degradation.

Child Adoption Policy 2015

Launched: 2015

Objective: To regulate child adoption procedure in India.

EBD_7894

Fundamental principles

- The child's best interests shall be of paramount consideration, while processing any adoption placement.
- Preference shall be given to place the child in adoption with Indian citizens.
- All adoptions shall be registered on Child Adoption Resource Information and Guidance System.

Stakeholders in adoption process:

1. **Central Adoption Resource Authority (CARA)** - CARA issues Adoption Guidelines laying down procedures and processes to be followed by different stakeholders of the adoption programme.
2. **State Adoption Resource Agency (SARA)** - SARA acts as a nodal body within the State to promote and monitor adoption and non-institutional.
3. **Specialised Adoption Agency (SAA)** - SAA is recognized by the State Government under sub-section 4 of section 41 of the Act for placing children in adoption.
4. **Authorised Foreign Adoption Agency (AFAA)** - AFAA is recognised as a foreign social or child welfare agency that is authorised by Central Adoption Resource Authority.
5. **District Child Protection Unit (DCPU)** - DCPU means a unit set up by the State Government at district level under Section 61A of the Act.

National Policy for Children 2013

Launched: 2013

Objective: To guide policies, plans and programmes affecting children in all sectors in India.

Features

- This Policy is to guide and inform all laws, policies, plans and programmes affecting children in all sectors.
- The State is obliged to ensure the right of every child to a life of dignity which will include the right to survival, health, nutrition, shelter, development, education, care, protection and participation and will receive the highest priority through increased investment and strengthened implementation and monitoring at all levels Ensuring these rights and related entitlements is the principle responsibility of the State.

Key Priorities

A. Survival, Health and Nutrition

- Every child has a right to adequate, good quality, appropriate nutrition.
- Commercial enterprise related to nutrition will be strictly regulated in order to prevent misinformation.
- Acts such as the Infant Milk Substitute, Feeding Bottles and Infant Foods (Regulation of Production, Supply and Distribution) Act, 1992 may provide models for expansion of regulation to other products.
- The State shall take all necessary measures to improve maternal health care.
- State shall take urgent measures to protect children from neo-natal, infant and child (0-5 years) mortality.
- State will provide universal access to information for making informed choices related to birth and spacing of children and meet the unmet need for contraceptive services.
- State will secure the right of the girl child to life, survival and health through programmes for gender empowerment and strict implementation of related Acts.

B. Education and Development

- The State shall guarantee provision of early childhood care for all children upto the age of six years.
- The State shall take all necessary measures to ensure that all children enjoy their right to free and compulsory education from pre-school to completion of secondary school without any disruption.
- The State shall bring about legislation for guaranteeing fundamental right to education for all children up to 18 years of age and also to cover children below six years of age.
- The State shall ensure that all out of school children viz: child labourers, migrant children, trafficked children, children of sex workers etc. are tracked, rescued, rehabilitated.

National Charter for Children 2003

Launched: 2003

Objective: To review the needs for proper health and nutrition facilities for children in India

Features

- The charter discusses the need for proper health and nutrition facilities for children including mental health.
- The charter recognizes the need of every child to protection from abandonment and neglect, and the duty to assure minimum needs and security of children.
- The charter commits to the need for all children to get free primary education and early childhood care.
- It is the aim of this charter that the state work towards complete ban of child labour, protects children against various other forms of abuse, take actions to prevent the use of children in illegal activities, etc.
- It emphasis to provide the girl child with special attention and assistance to ensure her survival and development.
- The charter recognises the right of children to express themselves, to information and to assemble. It is also important for the state to strengthen families. All children have a right to a family and healthy

relationship with adults who care for them. The charter outlines that both parents are responsible for the well-being of the child.

The state needs to pay special attention to the needs of marginalised groups of children.

National Policy for Women Empowerment 2001

Launched: 2001

Objectives

- Creating an environment through positive economic and social policies for full development of women to enable them to realize their full potential.
- Equal access to women to health care, quality education at all levels, career and vocational guidance, employment, equal remuneration, occupational health and safety, social security and public office etc.
- Strengthening legal systems aimed at elimination of all forms of discrimination against women.
- Elimination of discrimination and all forms of violence against women and the girl child.
- Building and strengthening partnerships with civil society, particularly women's organizations.

Feature: National Policy for Empowerment of Women made concrete suggestions towards the introduction of a gender perspective in the budgeting process. Specifically, it promised developing 'Gender Development Indices' (GDI), by networking with specialized agencies; undertaking 'Gender auditing and development of evaluation mechanisms'; and undertaking the collection of 'Gender-disaggregated data' by all primary data collecting agencies of the Central and State Governments as well as research and academic institutions in the Public and Private Sectors.

SCIENCE AND TECHNOLOGY POLICIES

Background

Pre-independence Indian science and technology policy was focused on universities, but the post-independence expansion of science and technology under the auspices of the government emphasized establishment of specific science agencies. Prime Minister Pandit Nehru and eminent scientist Dr Homi Bhabha, who is regarded as the father of India's atomic energy programme, were instrumental in getting the first-ever official Scientific Policy Resolution (SPR) passed in the Indian Parliament in 1958.

National Biotechnology Development Strategy 2015-20

Launched: 2015

Objectives

- To make India ready for challenges of achieving US$100bn by 2025.
- To create a Technology Development and Translation network across the country with global partnership-5 new clusters, 40 Biotech incubators, 150 TTOs, 20 Bioconnect centres.
- Strategic and focused investment in building the human capital.

Features: This was the direct result of formal and informal consultations over the past two years with over 300 stakeholders including scientists, educators, policy makers, leaders of industry and civil society, voluntary and non-government organizations, regulators and international experts. A roundtable discussion was held with key stakeholders to discuss the roadmap for 2020.

Science, Technology and Innovation Policy

Launched: 2013

Objectives

- To promote the spread of scientific temper amongst all sections of society and enhancing skill for applications of science among the young.
- To make careers in science, research and innovation attractive enough for talented and bright minds.
- To establish world class infrastructure for R&D for gaining global leadership in select areas of science.
- To make India's position among the top five global scientific powers by 2020.
- To link the contributions of science, research and innovation system with the inclusive economic growth agenda and combining priorities of excellence.
- To create an environment for enhanced Private Sector Participation in R&D. Enabling conversion of R&D outputs into societal and commercial applications.
- To create a robust national innovation system.
- Modifying IPR policy to provide for marching rights for social good when supported by public funds and for co-sharing IPRs generated under PPP.
- To provide incentives for commercialization of innovations with focus on green manufacturing.

National Data Sharing and Accessibility Policy (NSDAP)

Launched: 9th February, 2012

Objective: To facilitate access to data and information in both human readable and machine readable forms through a network all over the country in a proactive and periodically updatable manner.

Features

- The NDSAP policy was designed to promote data sharing and enable access to Government of India owned data for national planning and development.
- This Policy applied to all data and information created, generated, collected and achieved using public funds provided by Government of India directly or through authorized agencies by various Ministries / Departments/ Organizations/ Agencies and Autonomous

EBD_7894

bodies. Department of Science & Technology (DST) were made the Nodal Department for all matters connected with overall co-ordination, formulation, implementation and monitoring of the policy.

National Policy on Electronics 2012

This policy initiative of Government of India had a direct bearing on Electronic System Design and Manufacturing sector as India is one of the fastest growing markets for electronics. Besides, India has large young talent and low wage costs. The demand is projected to reach USD 400 Billion by 2020. The Government has launched the National Policy on Electronics in 2012 with the vision to make India a globally competitive destination for Electronics System Design and Manufacturing (ESDM). The National Telecom Policy 2012 (NTP, 2012) works in conjunction with NPE, 2012 and provides for creating a design and manufacturing ecosystem for telecom equipment.

Remote Sensing Data Policy (RSDP)

Launched: 2011

Features

- For operating a remote sensing satellite from India, license and/ or permission of the Government, through the nodal agency, shall be necessary.
- Government assures a continuous and improved observing/ imaging capability from its own Indian Remote Sensing Satellites (IRS) programme.
- The Government shall be the sole and exclusive owner of all data collected/ received from IRS. All users will be provided with only a license to use the said data.
- Government reserves the right to select and permit agencies to acquire/ distribute satellite remote sensing data in India.
- NRSC and/ or Antrix Corporation Ltd shall be competent to enter into agreements with foreign satellite operator(s) for acquisition/distribution of foreign satellite data in India.

NATIONAL POLICY ON EDUCATION (NPE)

Background

After independence the biggest challenge before the nation was reorienting the entire system of education. Some of the main events during the post-independence period have been the appointment of the University Education Commission in 1949, the establishment of the University Grants Commission in 1953 and the passing of the UGC Act in March 1956 by the Parliament and establishment of a number of national laboratories and other institutions of Higher Technical and Engineering Education. The Government of India has formulated the National Policy on Education (NPE) to promote education amongst India's people. The policy covers basic education to colleges in both rural and urban India

Draft National Education Policy (NEP) 2016

The 42nd Constitutional Amendment in1976 brought about a fundamental change by transferring education from the State List to the Concurrent List thereby recognizing the importance of the federal structure of our country and giving equal primacy to both the Central and state governments as partners in furthering the educational goals in a cohesive manner.

This Policy therefore recognizes the role to be played by the other national level policies such as, the National Policy on Early Childhood Care and Education (ECCE) adopted in 2013, National Youth Policy (NYP), 2014 and the National Policy for Skill Development and Entrepreneurship, 2015 and numerous other State level policies.

The draft of National Education Policy (NEP) 2016 was released by the MHRD and suggestions were invited on the same from the public domain. The focus of the policy is to address gender discrimination, the creation of educational tribunals, and a common curriculum for science, mathematics and English.

Motto, Vision and Mission

"Educate Encourage Enlighten" is the main motto of the policy with following vision:

- To create a credible education system capable of ensuring inclusive quality education and lifelong learning opportunities for all.
- Ensuring equitable, inclusive and quality education for all; foster quality education with strong focus on education reforms; promote acquisition by all learners of relevant skills, including technical and vocational skills, for work and entrepreneurship.

Features

Pre-school Education

- Implementation of Pre-school education for age group 4-5 years. Steps would be taken to frame curricula and develop learning materials for pre-school education in Anganwadis.
- The states will develop a cadre of pre-primary education.

Curriculum Renewal and Examination Reforms

- Government / NCERT will carry out curriculum reforms to meet emerging aspirations.
- A national curriculum will be designed for science, math and English.
- To prevent high rates of failure at class X level, the class X exams in Mathematics, Science and English will be at two levels: Part-A at a higher level and Part-B at a lower level.

Learning outcomes in School Education

- Norms for learning outcomes will be developed and applied uniformly to both private and government schools.

- Within the parameters prescribed by the RTE Act, States will have the flexibility to design and plan for the infrastructure keeping in view the local conditions.
- The present provisions of no-detention policy will be amended, as it has seriously affected the academic performance of students. The no detention policy will be limited up to class V and the system of detention will be restored at the upper primary stage.
- Effective steps will be taken to improve teaching standards in schools

School Education

- Each State will undertake a detailed exercise of school mapping to identify schools with low enrolment and inadequate infrastructure.
- Minimum standards for provision of facilities and student outcomes across all levels in school education will be laid down.
- Kendriya Vidyalayas (KVs) and Jawahar Navodaya Vidyalayas (JNVs) will be expanded and Kasturba Gandhi Balika Vidyalayas (KGBVs) will be expanded and upgraded.

Protection of Rights of the Child & Adolescent Education

- Framework and guidelines for ensuring school safety and security of children will be developed.
- Every Principal and teacher will be made aware of the provisions of the relevant Acts, Rules, Regulations, etc.
- The Adolescent Education Programme and National Population Education Programme will be integrated into the curriculum of schools in a phased manner.
- Adolescent Education will be included in pre- and in-service training programmes of secondary school teachers.
- Self-learning online programmes on child rights will be developed for the benefit of students, teachers and parents.
- Schools will engage trained counselors to confidentially advise parents and teachers on adolescence problems faced by growing boys and girls.

Inclusive Education and Student Support

- Curriculum will cover the issues of social justice and harmony and legal measures in order to avoid social discrimination.
- With the objective of encouraging merit and promoting equity, a National Fellowship Fund, primarily designed to support the tuition fees, learning materials and living expenses for about 10 lakh students will be created.
- A zero tolerance approach on gender discrimination and violence will be adopted.
- There will be dedicated funds for R&D to strengthen disability studies in higher education.

Literacy and Lifelong Learning

- Existing initiatives will be strengthened and curricula revamped with multi-pronged strategies involving Self Help Groups, NGOs, and Government etc.
- The Government will set up an apex body of experts to look into remodeling and strengthening of AE programmes and develop scientific criteria for assessing the learning outcomes of adults in literacy, skill development, prior learning and equivalency for certification which may also facilitate entry into the formal education system.
- Adult literacy programme will incorporate skill development and digital, financial and legal literacy.

Skills in Education and Employability

- Skill development programmes in school and higher education system will be reoriented.
- A detailed plan for the creation of skill schools for improving employment opportunities for secondary school students in special focused districts will be prepared.
- Joint certificates by the Sector Skill Council and the School/College authorities to help students take up wage-employment or start their own enterprise.

Use of ICT in Education

- A concerted effort will be made to make ICT an integral part of education across all levels and domains of learning.
- Online maintenance of all records of a child from the time of admission till the time of leaving the school will be made mandatory.
- IT reporting systems will be a powerful tool to better school management and performance.

Teacher Development and Management

- A transparent and merit based norms and guidelines for recruitment of teachers will be formulated in consultation with the state governments.
- All vacancies in teacher education institutions and all positions of head teachers and principals will be filled up.
- At the National level, a Teacher Education University will be set up covering various aspects of teacher education and faculty development.
- A separate cadre for teacher educators will be established in every state.

Language and Culture in Education

- All states and UTs, if they so desire, may provide education in schools, up to Class V, in mother tongue, local or regional language as the medium of instruction.
- Indian culture, local and traditional knowledge will be given adequate space in the school education.
- Educational institutions will instill among students civic sense, discipline, punctuality, cleanliness, good conduct, empathy towards elderly.

EBD_7894

- Keeping in view special importance of Sanskrit to the growth and development of Indian languages and its unique contribution to the cultural unity of the country, facilities for teaching Sanskrit at the school and university stages will be offered on a more liberal scale.

Self -Development through Comprehensive Education

- Physical education, yoga, games and sports, NCC, NSS, art education, Bal Sansad, covering local art, craft, literature and skills, and other co- scholastic activities will be made an integral part of the curriculum and daily routine in schools for the holistic development of children. Facilities for the above will be a pre-requisite to the recognition of schools.
- Funds will be earmarked by the government/ school management for all co-scholastic activities in schools.

School Assessment and Governance

- The framework of school standards with various parameters and indicators to measure school quality, professional competence of teachers, school leadership and the school management, as well as, self-appraisal and performance assessment will be used throughout the country.
- A mechanism will be put in place for accreditation of school boards.
- Principals/head teachers will be held accountable for the academic performance of the schools and its improvement.

Regulation in Higher Education

- An independent mechanism for administering the National Higher Education Fellowship Programme will be put in place.
- A Central Educational Statistics Agency (CESA) will be established as the central data collection, compilation and consolidation agency with high quality statistical expertise and management information system which will be used for predictive analysis, manpower planning and future course corrections.

Quality Assurance in Higher Education

- An expert committee will be constituted to study the systems of accreditation in place internationally. It will draw from the experiences of some of the best practices followed by countries having well performing systems and will suggest restructuring of NAAC and NAB as well as redefining methodologies, parameters and criteria. .
- Evaluation/ Accreditation details of each institution will be available to the general public through a dedicated website, to enable students and other stakeholders to make informed choices.

Open and Distance Learning & MOOCs

- The National Institute of Open Schooling (NIOS), in collaboration with Ministry of Skill Development & Entrepreneurship, will redefine itself to address the large potential demand for vocational education. The issues of management, monitoring and oversight of NIOS will be addressed appropriately.
- A quality assurance mechanism for accreditation of all universities/institutions offering ODL / MOOCs will be put in place to ensure quality, promote, innovation and reshape and modernise the ODL / MOOCs courses and programmes.

Internationalization of Education

- Selected foreign universities, from the top 200 in the world, will be encouraged to establish their presence in India through collaboration with Indian universities.
- In order to increase acceptability of Indian students abroad and to attract international students, Indian Higher Education Institutions (HEIs) will be encouraged to work towards internationalization of curricula aligned with international levels so as to make it globally compatible with best ranked institutions of the world.
- Internationalization will be included as one of the components for allocating additional financial resources to government-funded HEIs.

Faculty Development in Higher Education

- A task force of experts will be set up to study the recruitment, promotion and retention procedures, followed by internationally renowned universities and institutions and suggest measures to promote intellectual and academic excellence in HEIs.
- A national campaign will be launched to attract young talent into the teaching profession. In order to attract young talent into teaching profession, a career growth of research students, such as M.Phil & Ph.D scholars, will be created.
- A mechanism of assessment of academic performance of faculty including peer review will be put in place so as to ensure academic accountability of public-funded institutions.

Research, Innovation and New Knowledge

- A clear reorientation of research agenda of National University of Educational Planning and Administration (NUEPA) will be undertaken to reflect actual issues on the ground.
- Steps will be taken to promote generation of new knowledge and their applications and introduction of these new domains into the curricula of higher education to consolidate and strengthen India's position as a soft power.
- In order to promote innovation, creativity and entrepreneurship, 100 more incubation centres will be established in HEIs over a period of next 5 years.
- International collaborations and networks will be promoted for developing human resources required to sustain new knowledge with special focus on inter-disciplinary research and studies.

Financing Education

- The government will take steps for reaching the long pending goal of raising the investment in education sector to at least 6% of GDP as a priority.
- Instead of setting up new institutions, which require huge investments, priority of the Government will be to expand the capacity of existing institutions.
- In order to encourage excellence and efficiency, performance-linked funding of higher education institutions will be implemented.

National Policy on Education, 1992

In 1992 the 1986 National Policy on Education was modified by the P. V. Narasimha Rao Government and Prime Minister Manmohan Singh has adopted it in 2005 which was recognized as "Common Minimum Programme".

Features

- All India bases common entrance examination for admission in all professional and technical programmes in the country.
- Under this Government of India vide Resolution dated 18 October 2001 has laid down a Three – Exam Scheme for admission to Engineering and Architecture/ Planning programmes:
  - (i) JEE
  - (ii) AIEEE at the National Level
  - (iii) SLEEE State Level Engineering Entrance Examinations
- State Level Institutions have option to join AIEEE.
- With this problem of overlapping and also reduce physical, mental and financial burden on students and their parents which was very high due to multiplicity of entrance examinations.

Second Education Policy on Education

Launched: May, 1986

The new National policy on education was introduced by Prime Minister Rajiv Gandhi as earlier announced in January 1985.

Objectives

- To emphasis especially on the removal of disparities and to equalize education opportunity.
- To provide equivalent opportunity for all including Women, ST and SC communities to study.

Features

- Expand scholarships.
- Promote adult education
- Employing more teachers from the SCs and STs Communities.
- Provide incentives for poor families to send their children to school regularly.
- Develop new institutions.
- Provide housing and services.
- For primary education the NPE called "child-centred approach", than "Operation Blackboard" was launched to expand primary schools nationwide.
- Under this policy the Open University system was expanded with the Indira Gandhi National Open University, which had been created in 1985.
- The policy was also recognized as "rural university" model, based on the philosophy of Indian leader Mahatma Gandhi, to encourage economic and social development at the grassroots level in rural India.

First National Policy on Education

Establishment: 1968

Based on the report and recommendations of the Education Commission (1964–1966), the Government of Prime Minister Indira Gandhi announced the first National Policy on Education in 1968, which called for a "Radical Restructuring".

Objectives: To equalize educational opportunities in order to achieve national integration and greater cultural and economic development.

Features

- Compulsory education for all children up to the age of 14, as specified by the Constitution of India.
- Better training and qualification of teachers.
- Pay more attention on learning of regional languages, outlining the "three language formula" to be applied in secondary education and that was:
  - Hindi
  - English and
  - Regional language.
- Because Hindi was adopted as the national Language the policy put weight on learning Hindi to promote it as a common language for all Indians.
- The policy also stimulated the teaching of the ancient Sanskrit language, which is an essential part of India's culture and heritage.
- The NPE of 1968 also include increase in education spending to six percent of the national income.

HEALTH POLICIES

National Health Policy (NHP)

Launched: 2017

Objectives: To improve health status through concerted policy action in all sectors and expand preventive, promotive, curative, palliative and rehabilitative services provided through the public health sector with focus on quality.

Features

- Policy advocates progressively incremental Assurance based Approach with focus on preventive and promotive healthcare.

EBD_7894

- It recommends linking the health card to primary care facility for a defined package of services anywhere in the country.
- Policy recommends the setting up of a separate, empowered medical tribunal for speedy resolution to address disputes /complaints regarding standards of care, prices of services, negligence and unfair practices. Standard Regulatory framework for laboratories and imaging centres, specialized emerging services etc.
- Focus on reducing micronutrient malnourishment and systematic approach to address heterogeneity in micronutrient adequacy across regions.
- Public hospitals and facilities would undergo periodic measurements and certification of level of quality. Focus on Standard Regulatory Framework to eliminate risks of inappropriate care by maintaining adequate standards of diagnosis and treatment.
- Policy advocates the need to incentivize local manufacturing to provide customized indigenous products for Indian population in the long run.
- Private Sector engagement for strategic purchase for critical gap filling and for achievement of health goals.
- It advocates extensive deployment of digital tools for improving the efficiency and outcome of the healthcare system and aims at an integrated health information system which serves the needs of all stake-holders and improves efficiency, transparency, and citizen experience.
- The policy imperative is to move away from camp based services with all its attendant problems of quality, safety and dignity of women, to a situation where these services are available on any day of the week or at least on a fixed day.
- The policy envisages raising public health expenditure progressively to 2.5% of the GDP by 2025.
- The policy includes progressive steps towards universal and affordable access to healthcare services for the underprivileged. It does this by making provisions for comprehensive primary care via the conversion of 150,000 sub-centres in Indian villages to 'Health and Wellness Centres'.
- The government aims at increasing both horizontal and vertical accountability by providing a greater role for local body participation and encouraging community monitoring.

National Population Policy (NPP)

Launched: 2000

Objectives

- To address the unmet needs for contraception, health care infrastructure, and health personnel, and
- To provide integrated service delivery for basic reproductive and child health care.
- To bring the Total Fertility Rate (TFR) to replacement levels by 2010, through vigorous implementation of inter- sectoral operational strategies.
- To achieve a stable population by 2070, at a level consistent with the requirements of sustainable economic growth, social development and environmental protection.

Goals to be achieved in each case by 2010

- Make School Education upto the age of 14 free and compulsory, and reduce drop outs at primary and secondary School levels to below 20 per cent for both boys and girls.
- Reduce infant mortality rate to below 30 per 1000 live births.
- Reduce maternal mortality rate to below 100 per 100,000 live births
- Achieve universal immunization of children against all vaccine preventable diseases.
- Promote delayed marriage for girls, not earlier than age 18 and preferably after 20 years of age.
- Achieve 80 per cent institutional deliveries and 100 per cent deliveries by trained persons.
- Achieve universal access to information/counseling and services for fertility regulation and contraception with a wide basket of choices.
- Achieve 100 per cent registration of births, deaths, marriage and pregnancy.
- Contain the spread of Acquired Immunodeficiency Syndrome (AIDS) and promote greater integration between the management of Reproductive Tract Infection (RTI) and Sexually Transmitted Infections (ST) and the National AIDS Control Organization.
- Prevent and control communicable diseases.
- Integrate Indian System of Medicine (ISM) in the provision of reproductive and child health services, and in reaching out to households.
- Promote vigorously the small family norm to achieve replacement levels of TFR.
- Bring about convergence in implementation of related social sector programmes so that family welfare becomes a people centred programme.

ENVIRONMENTAL POLICIES IN INDIA

National Environment Policy (NEP) 2006

Launched: 2006

Objectives: To protect and conserve critical environmental resources and invaluable natural and man- made heritage which are essential for life-supporting livelihoods and welfare of the society.

Recommendations

1. Land Degradation

- Encourage adoption of science based and traditional sustainable land use practices.
- Pilot scale demonstrations and farmers' training.
- Promote reclamation of wasteland and degraded forest land through formulation and adoption of multi-stakeholder partnerships involving the land owning agency, local communities and investors.
- To reduce desertification through action plans.

2. **Forests:** To formulate an innovative strategy for increase of forest and tree cover from the present level of 23 per cent of the country's land area, to 33 per cent in 2012 through afforestation of degraded forest land, wasteland and tree cover on private or revenue land.

3. Wildlife

- Expanding the Protected Area Network of the country.
- Paralleling multi-stakeholder partnerships for afforestation.
- Formulating and implementing partnerships for enhancement of wildlife habit in conservation.
- Encouraging eco-tourism at wildlife sites.
- Implementing measures for captive breeding of identified endangered species.

4. Biodiversity

- Strengthen the protection of biodiversity hot spots.
- Monitor impact of development projects on biodiversity resources and natural heritage.
- Genetic material of threatened species of flora and fauna must be conserved on priority.
- Conferring intellectual property rights for traditional knowledge.

5. Wetlands

- To set up a legally enforceable regulatory mechanism for identified valuable wetlands.
- To formulate and implement sustainable tourism strategies for identified wetlands thorough multi-stakeholder partnerships involving public agencies, and local communities.
- To take explicit account of impacts on wetlands of significant development projects.

6. Conservation of Man-made Heritage

- Monitor the potential impacts on designated heritage sites must be taken into account.
- Integrated regional development plans should be drawn up with participation of the local community with respect to shifting polluting activities and waste far away from sites.

7. Environmentally Sensitive Zones

- Identify and give legal status to Environmentally Sensitive Zones (ESZ) in the country.
- Formulate area development plans for these zones on a scientific basis.
- Create local institutions for the environmental management of such areas.

8. Strategy for Sustainable Mountain Development

- Adopting best practice norms for infrastructure construction in mountain regions to avoid or minimize damage to sensitive ecosystems and despoiling of landscapes.
- Encouraging cultivation of traditional varieties of crops and horticulture.
- Promoting sustainable tourism through adoption of best practice norms for tourism facilities.
- Developing strategies for particular unique mountains capes.

9. Strategy for Sustainable Coastal Resources

- To mainstream the sustainable management of mangroves into the forestry sector regulatory regime, ensuring that they continue to provide livelihoods to local communities.
- Regeneration of coral reefs, and support activities based on application of such techniques.
- To embody considerations of sea-level rise in coastal management plans.
- India has passed Coastal Regulation Zone (CRZ) notification in February 1991 and Integrated Coastal Zone Management (ICZM) to ensure protection to coastal environment in India.

10. Strategy for Conservation of Freshwater Resources

(A) River Management

- Promoting integrated approaches to management of river basins by the concerned river authorities, considering upstream and downstream inflows and withdrawals by reason.
- Monitoring authorities will check pollution loads and natural regeneration capacities.
- To consider and mitigate the impacts on river flora and fauna.
- Installation of water saving closets and taps in the building byelaws of urban centres.

(B) Groundwater

- The practice of non-metering of electricity supply to farmers is discontinued.
- To promote techniques such as sprinkler or drip irrigation among farmers.
- To support practices of contour bunding and traditional methods of groundwater recharge.
- To mandate water (rainwater) harvesting in all new constructions in relevant urban areas.
- To support research in cost effective techniques suitable for rural drinking water projects.

EBD_7894

National Environmental Policy

Launched: 1976

Objective: To protect and improve the quality of environment.

Features

- National Environmental Policy statement was framed in 1976 which reflected in the amendment made in the Constitution.
- Main areas of attention were to protect and improve the quality of environment, to carry out development programmes in accordance with environmentally sound principles, to ensure the conservation and sustainable use of natural resources.
- Priority was given to environmental research, environmental education for creating environmental awareness.

National Council for Environmental Policy and Planning

Launched: 1972

Objective: Regulating and ensuring environmental protection.

Features

- The real impetus for bringing about a well-developed framework of environmental legislation came only after the UN Conference on the Human Environment (Stockholm, 1972).
- Under the influence of this declaration, the National Council for Environmental Policy and Planning within the Department of Science and Technology was set up.
- This Council later evolved into a full-fledged Ministry of Environment and Forests (MoEF) in 1985 which today is the apex administrative body in the country for regulating and ensuring environmental protection.
- After the Stockholm Conference, in 1976, constitutional sanction was given to environmental concerns through the 42nd Amendment, which incorporated them into the Directive Principles of State Policy and Fundamental Rights and Duties.
- Other measures have also been taken by the government to protect and preserve the environment. Several sector-specific policies have evolved.

National Forest Policy, 1988

Objective: To ensure environmental stability and maintenance of ecological balance including atmospheric equilibrium which are vital for sustenance of all life forms, human, animal and plant.

Features

- Maintenance of environmental stability through preservation and, where necessary, restoration of the ecological balance that has been adversely disturbed by serious depletion of the forests of the country.
- Checking soil erosion and denudation in the catchment areas of rivers, lakes, reservoirs in the interest of soil and water conservation, for mitigating floods and droughts and for the retardation of siltation of reservoirs.
- Checking the extension of sand dunes in the desert areas of Rajasthan and along the coastal tracts.
- Increasing substantially the forest/tree cover in the country through massive afforestation and social forestry programmes.
- Meeting the requirements of fuel wood, fodder, minor forest produce and small timber of the rural and tribal populations.
- Encouraging efficient utilization of forest produce and maximising substitution of wood.
- Creating a massive people's movement with the involvement of women, for achieving these objectives and to minimise pressure on existing forests.

Draft National Forest Policy, 2016

Objective: Improve the health and vitality of forest ecosystems to meet the present and future needs of ecological security and biodiversity conservation with empowered and enabled communities.

Features

- Continue with the national goal to have a minimum of one third of the total geographical area under forest or tree cover.
- Reverse the trend of degradation by arresting the decline in the extent of dense forests and by taking up large scale restoration of degraded forests.
- Bring one third of the government owned forests under the Community Forest Management (CFM) regime by the end of the next decade, with adequate safeguards.
- Manage protected areas and other wildlife rich areas with the primary objective of biodiversity conservation and enriching other ecosystem services.
- Double the tree cover outside forests by the end of the next decade by incentivizing agro-forestry and farm forestry, facilitating assured returns, with enabling regulations and by promoting the use of wood products.
- Protect catchments of rivers and wetlands to enhance the hydrological contribution of forests in ground water recharge, water flows and water purification.
- Integrate climate change mitigation and adaptation measures in forest management and enhance by one third the carbon-dioxide equivalent sequestered in forests and trees by the end of the next decade.
- Incentivize sustainability in community managed, community owned and private forests.
- Expand greening of urban spaces to enhance citizen wellbeing.

POLICIES FOR WELFARE OF MINORITY

Background

The Constitution of India has used the word Minorities considering two attributes, religion or language of a person. For Minorities the Constitution has envisaged a number of rights and safeguards; to provide equality and to dwindle the discrimination, makers have spelt out various things in Fundamental Rights (Part III); Directive Principles of state policies (Part IV) and also the Fundamental duties (Part IV-A).

Highlights

- Since independence different Committees/Commissions/ Regulations/Policies and Programmes were launched for welfare of minorities.
- The first-ever Minorities Commission was formed in 1960 in Uttar Pradesh by the Congress Government under Dr. Sampurnanand.
- The Congress Government in Bihar established a multi-member Minorities Commission in 1971. This was reconstituted by the Janata Party Government in November 1977.
- In the Ministry of Home Affairs Resolution dated 12.01.1978 which specifically mentioned that, "despite the safeguards provided in the Constitution and the laws in force, there persists among the Minorities a feeling of inequality and discrimination."
- In 1984 the Minorities Commission was detached from Ministry of Home Affairs and placed under the newly created Ministry of Welfare.
- In 1992, a particular Act was created by the name of "Minorities Act, 1992"
- Union Government included six religious communities such as Muslims, Christians, Sikhs, Buddhists, Zoroastrians (Parsis) and Jains as minority communities.
- The National Policy on Education 1986, updated in 1992 envisages paying greater attention to the education of the educationally backward minorities in the interest of equity and social justice.
- In pursuance of the revised Programme of Action (POA) 1992, two new Centrally-sponsored schemes were launched :
    - i. Scheme of Area Intensive Programme for Educationally Backward Monorities; and
    - ii. Scheme of Financial Assistance for Modernization of Madarsa Education were launched during 1993-94.
- In the Tenth Plan the aforesaid two schemes have been merged to form the Area Intensive and Madarsa Modernization Programme.
- The National Commission for Minority Educational Institutions 2004 has been set-up by an Act of Parliament under which minority education institutions can seek affiliation to Scheduled Universities.
- University of Delhi, North Eastern Hill University; Pondicherry University; Assam University; Nagaland University and Mizoram University are at present in the Schedule.
- In 1998, the Government has updated the National Housing and Habitat Policy, 1998.
- The new Policy is aimed to provide housing to economically weaker sections and other sections of the society at affordable cost. This policy lays special emphasis on SC/ST/BC/Minorities.
- In 2006, 15 Point Programme for Minorities was launched to focus on comprehensive development and welfare of minority groups.
- Sachar Committee was constituted in 2005 to study Social, Economic and Educational Status of the Muslim Community of India.
- To monitor implementation of plans and policies for the Welfare of Minorities, Prime Minister's New 15 Point Programme, especially focuses for the Welfare of Minorities
- As per Twenty Point Programme (TPP) -2006 there are 20 points and 65 items. TPP-2006 includes Welfare of Scheduled Castes, Scheduled Tribes, Minorities and OBCs as one of its points.
- In recent years, various welfare programmes/schemes are being restructured in accordance with the policies of the Government.
- Ustaad, Hamari Darohar, Nai Manzil, Multi Sectoral Development Programme, Pre-matric Scholarship Scheme, Post-matric Scholarship Scheme, Maulana Azad National Fellowship, Merit-cum Means based Scholarship, Free Coaching and Allied Scheme, Maulana Azad Sehat Scheme, Jiyo Parsi and other such schemes were launched for the welfare of Minorities.

INDUSTRIAL POLICIES

National Steel Policy 2017

Launched: 2017

Objectives

- To create self-sufficiency in steel production by providing policy support and guidance to private manufacturers, MSME steel producers, CPSEs Encourages adequate capacity additions and promote the development of globally competitive steel manufacturing capabilities.
- To facilitate foreign investment, enhance the domestic steel demand and promote cost-efficient production.
- To ensure the domestic availability of iron ore, coking coal & natural gas and other raw materials at competitive prices.

Features

- The Indian steel sector has grown rapidly over the past few years and presently it is the third largest steel producer globally, contributing to about 2% of the country's GDP. India has also crossed 100 MT mark for production for sale in 2016-17.

EBD_7894

- The New Steel Policy, 2017 aspires to achieve 300 MT of steel-making capacity by 2030. This would translate into additional investment of Rs. 10 lakh crore by 2030-31.
- The Policy seeks to increase consumption of steel and major segments are infrastructure, automobiles and housing. New Steel Policy seeks to increase per capita steel consumption to the level of 160 Kgs by 2030 from existing level of around 60 Kg.
- Potential of MSME steel sector has been recognized. Policy stipulates that adoption of energy efficient technologies in the MSME steel sector will be encouraged to improve the overall productivity & reduce energy intensity.
- Steel Ministry will facilitate R&D in the sector through the establishment of Steel Research and Technology Mission of India (SRTMI). The initiative is aimed to spearhead R&D of national importance in iron & steel sector utilizing tripartite synergy amongst industry, national R&D laboratories and academic institutes.
- Ministry through policy measures will ensure availability of raw materials like iron ore, coking coal and non-coking coal, natural gas etc. at competitive rates.
- It is envisaged that the industry will be steered in creating an environment for promoting domestic steel and thereby ensuring a scenario where production meets the anticipated pace of growth in consumption, through a technologically advanced and globally competitive steel industry.

Some Recent Government Initiatives for Steel Industry

- The Government of India has approved a joint venture (JV) between MSTC Ltd and Mahindra Inter trade Ltd, for setting up India's first green field auto shredding and recycling facility.
- National Mineral Exploration Policy (NMEP) will help to adopt comprehensive exploration of non-fuel and non-coal mineral resources that would give a major boost to the economy.
- Metal Scrap Trade Corporation (MSTC) Limited and the Ministry of Steel have jointly launched an e-platform called 'MSTC Metal Mandi' under the 'Digital India' initiative, which will facilitate sale of finished and semi-finished steel products.
- The Parliament of India has cleared amendments to the Mines and Minerals Development and Regulation (MMDR) Act, which will enable companies to transfer captive mines leases similar to mines won through an auction, and which is expected to lead to increased Mergers and Acquisitions (M&A) of steel and cement companies.
- The Ministry of Steel has announced to invest in modernization and expansion of steel plants of Steel Authority of India Limited (SAIL) and Rashtriya Ispat Nigam Limited (RINL) in various states to enhance the crude steel production capacity.
- India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2025.

New Manufacturing Policy (MNP), 2011

Launched: 25th October, 2011

Objectives

- To increase the sectoral share of manufacturing in Gross Operating Profit(GOP) to at least 25% by 2022;
- To increase the rate of job creation so as to create 100 million additional jobs by 2022; and
- To enhance global competitiveness, domestic value addition, technological depth and environmental sustainability of growth.

Features

- The MNP, 2011 is being modified to align it with initiatives like 'Make in India' and also Industrial Revolution 4.0, which refers to high end automation,
- It envisaged that manufacturing should contribute 25% in India's GDP by 2022,
- Currently, the sector contributes about 16-17% to India's economic growth,
- It provides certain tax and other benefits to boost the sector's growth besides creating 100 million additional jobs,
- The Government has taken a host of initiatives like **'Make in India', 'Digital India'** and **'Skill India'** and significantly relaxed foreign investment policy. The revamped policy is also necessary as the Government has to protect the interest of all segments of industry whether it is highly or partly automated and SMEs which are yet to adopt modern technologies.

Key Policy Instruments for Achieving the Objective

- Establishment of National Investment and Manufacturing Zones (NIMZs): Green field (new) integrated Industrial Townships with state of the art infrastructure and land use on the basis of zoning; clean and energy efficient technology and requisite social infrastructure. NIMZ can be proposed with land area of at least 5000 hectares.
- Industrial Townships are proposed to be self-governing and Autonomous Bodies.
- The trunk infrastructure will be financed appropriately by Central Government including through Viability Gap Funding while Special Purpose Vehicle will develop the zone infrastructure in PPP mode.
- NIMZ will be managed by Special Purpose Vehicle, headed by Govt. officials and experts, including those of environment.
- The policy has also come up with proposals to improve access to finance for SMEs in the manufacturing sector.
- The proposals in the policy are generally sector neutral, location neutral and technology neutral except incentivization of green technology. While the National

Investment & Manufacturing Zones (NIMZs) are an important instrumentality, the proposals contained in the Policy apply to manufacturing industry throughout the country including whereever industry is able to organize itself into clusters and adopt a model of self-regulation.

Comprehensive Policy Package For Small Scale Industries And Tiny Sector

Launched: 30 August 2000

Objective: To enable MSME sector to avail the market opportunities and play its role as an engine of growth.

Features: With a view to provide more focused attention on the development of MSME, the Government of India created a new Ministry of Small Scale Industries & Agro and Rural Industries in October 1999. Immediately after the formation of the Ministry, a Mission for the Millennium giving a blue print for small scale and village industries was announced. A Comprehensive Policy Package for the Small Scale and Tiny Sector which was announced by the Government.

Policy Support: The investment limit for the Tiny Sector will continue to be ₹ 25 lakhs. The investment limit for the MSME sector will continue to be at ₹ 1 crore.

Fiscal Support: To improve the competitiveness of Small Scale Sector, the exemption for excise duty limit raised from ₹ 50 lakhs to ₹ 1 crore.

Credit Support: The composite loans limit raized from Rs. 10 lakhs to ₹ 25 lakhs. The Small Scale Service and Business (Industry Related) Enterprises (SSSBEs) with a maximum investment of ₹ 10 lakhs will qualify for priority lending. In the National Equity Fund Scheme, the project cost limit will be raised from ₹ 25 lakhs to ₹ 50 lakhs. The soft loan limit will be retained at 25% of the project cost subject to a maximum of ₹ 10 lakhs per project.

Infrastructural Support: The Integrated Infrastructure Development (IID) Scheme which progressively cover all areas in the country with 50% reservation for rural areas. A Plan Scheme for Cluster Development was drawn up. The funds available under the non-lapsable pool for the North-East were used for Industrial Infrastructure Development, setting up of incubation centres, for Cluster Development and for setting up of IIDs in the North-East including Sikkim.

Technological Support and Quality Improvement: Capital Subsidy of 12% for investment in technology in select sectors. To encourage Total Quality Management, the Scheme of granting Rs.75,000/- to each unit for opting ISO-9000 Certification continued for the next six years.

Setting up of incubation Centres in Sunrise Industries supported. The TBSE set up by SIDBI strengthened so that it functions effectively as a Technology Bank. It was properly networked with NSIC, MSME-DO (SENET Programme) and APCTT. Commercial Banks requested to develop Schemes to encourage investment in technology upgradation and harmonize the same with SIDBI.

Marketing Support: MSME-DO given a Market Development Assistance (MDA) Programme, similar to one obtaining in the Ministry of Commerce & Industry. It was a Plan Scheme. The Vendor Development Programme, Buyer-Seller Meets and Exhibitions took place more often and at dispersed locations.

Streamlining Inspections/Rules and Regulations: To minimize harassment to Small Scale Sector a Group was set up to recommend within 3 months, means of streamlining inspections. This included repeal of laws and regulations applicable to the sector that have since become redundant.

Tiny Sector

Policy Support: The investment limit for the tiny sector continued to be Rs. 25 lakhs. Under the Prime Minister's Rozgar Yojna, which finances setting up of micro enterprises and generates employment for the educated unemployed, the family income eligibility limit of Rs. 24,000 per annum revised to Rs. 40,000 per annum.

Credit Support: The Nayak Committee's recommendations regarding provision of 20% of the projected turnover as working capital recommended to the Financial Institutions and Banks. The National Small Industries Corporation continued to give composite loans up to Rs. 25 lakhs to the Tiny Sector and continue to charge one per cent concessional interest rate. SIDBI continued to give concessional rate of refinance to the tiny sector which is now at 10.5% as compared to 12% for the MSME sector.

In the National Equity Fund Scheme, the project cost limit raised from Rs. 25 lakhs to Rs. 50 lakhs. The soft loan limit retained at 25% of the project cost subject to a maximum of Rs. 10 lakhs per project. Assistance under the NEF provided at a service charge of 5% per annum

Infrastructure Support: The Integrated Infrastructure Development (IID) Scheme progressively covers all areas in the country with 50% reservation for rural areas. Under this Scheme, 50% of the plots were earmarked for the tiny sector (as against 40% done earlier). Under the National Programme for Rural Industrialization, cluster development is taken up by KVIC, MSME-DO, SIDBI and NABARD.

Technological Support: Under the Scheme of Capital Subsidy of 12% for investment in technology upgradation in select sectors, preference was given to the Tiny Sector.

Marketing Support: Preference was given to the Tiny Sector while organizing Buyer-Seller Meets, Vendor Development Programmes and Exhibitions.

New Industrial Policy 1991

Launched: 24th July, 1991

Objectives

- To redefine concept of self-reliance and international competitiveness.

EBD_7894

- Maintain a sustained growth in productivity and gainful employment.
- Greater investment in R&D.
- Bringing in new technology to increase international competitiveness.
- Incentives for industrialization of backward areas for promoting balanced regional development.
- Increasing productivity and efficiency in PSU's and reduce their losses.
- Enhanced support for small scale industries.

Features

Government Monopoly

The number of industries reserved for public sector was reduced from 17 (as per 1956 policy) to only 8 industries viz. Arms and Ammunition, Atomic Energy, Coal, Mineral Oil, Mining of Iron Ore, Manganese Ore, Gold, Silver, Mining of Copper, Lead, Zinc, Atomic Minerals and Railways.

Industrial Licensing Policy

This policy abolished the Industrial licensing for all industries except for a short list of 18 industries. This list of 18 industries was further pruned in 1999 whereby the number reduced to six industries viz.

- Drugs and pharmaceuticals,
- Hazardous chemicals,
- Explosives such as gun powder and detonating fuses,
- Tobacco products,
- Alcoholic drinks, and
- Electronics, aerospace and defense equipment.

The compulsion for obtaining prior approval for setting units in metros was also removed.

However, in this policy, industries reserved for the small scale sector were continued to be so reserved.

Foreign Investment and Capital

This was the first Industrial policy in which foreign companies were allowed to have majority stake in India. In 47 high priority industries, up to 51% FDI was allowed. For export trading houses, FDI up to 74% was allowed. Today, there are numerous sectors in the economy where Government allows 100% FDI.

The Government also established a special empowered board called Foreign Investment Promotion Board (FIPB) to negotiate with international firms and approve FDI in selected areas.

Foreign Technology Agreements

Automatic permission was given for foreign technology agreements in high priority industries up to a lump sum payment of ₹1 crore, 5% royalty for domestic sales and 8% for exports, subject to total payment of 8% of sales over a 10 year period from date of agreement or 7 years from commencement of production. Further, Government eased hiring of foreign technicians.

Tangible outcomes

- The process of liberalization is continuing. This policy made License, Permit and Quota Raj a thing of past liberalizing the economy by removing bureaucratic hurdles in industrial growth.
- The role of public sector was limited. Only 2 sectors were finally left reserved for public sector. This reduced burden on the Government. A process of either transforming or selling off the sick units started. The process of disinvestment in PSUs also started.
- It provided easier entry of multinational companies, privatization, removal of asset limit on MRTP companies, liberal licensing. All this resulted in increased competition, that led to lower prices in many goods such as electronics prices. This brought domestic as well as foreign investment in almost every sector opened to private sector.
- The policy was followed by special efforts to increase exports. Concepts like Export Oriented Units (EOU), Export Processing Zones (EPZ), Agri-Export Zones (AEZ), Special Economic Zones (SEZ) and lately National Investment and Manufacturing Zones (NIMZ) emerged. All these have benefitted the export sector of the country.
- Gradually, a new act was passed for MSMEs in 2006 and a separate ministry was established to look into the problems of MSMEs. Government tried to provide better access to services and finance to MSMEs.

Foreign Investment Policy

Launched: 1991

Objective: To sustain India's impressive economic growth protection of sectors which are of strategic interest such as defense and telecommunications.

Features

The Government radically reformed foreign investment policy to attract foreign investment. The important foreign investment policy measures are as follows:

i. **FERA, 1973** has been repealed and **Foreign Exchange Management Act (FEMA)** has come into force with effect from June 2000 (RBI, 2003). Investment and returns can be freely repatriated except where the approval is subject to specific conditions such as lock-in period on original investment, dividend cap, foreign exchange neutrality, etc. as specified in the sector specific policies. The condition of 'dividend balancing' was withdrawn for dividends declared. A foreign investor can freely enter, invest and operate industrial enterprises in India.

ii. **FDI** is allowed in all sectors including the services sector except atomic energy and railway transport. FDI in small scale industries is allowed up to 24% equity. Use of brand names/trademarks is allowed. FDI in

multiband Retail was allowed with subject to clause that 30% of total procurement should be from Small Industry having investment in machinery below $1 million. States have overriding discretion to allow or disallow FDI in Multi brand retail. This however failed to attract FDI in organized retail sector. So Government diluted provisions by replacing 'small scale' with 'micro, small and medium enterprises' and investment limit to $2 Million. Originally there was time limit for fulfillment of commitment toward domestic sourcing. This time limit was also removed.

FDI is completely disallowed in following sectors;

- Atomic Energy
- Lottery
- Gambling and Betting
- Chit Fund
- Nidhi Company
- Agricultural (excluding Floriculture, Horticulture, Development of seeds, Animal Husbandry, Pisciculture and cultivation of vegetables, mushrooms, etc. under controlled conditions and services related to agro and allied sectors) and Plantations activities (other than Tea Plantations)
- Housing and Real Estate business (except development of townships, construction of residential/commercial premises, roads or bridges to the extent specified in notification.
- Trading in Transferable Development Rights (TDRs)
- Manufacture of cigars, cheroots, cigarillos and cigarettes, of tobacco or of tobacco substitutes.

Small Scale Industrial Policy

Launched: 1991

Objective: To limit protective measures to small industry and promotion of competitiveness.

Features

SSIs enjoyed a unique status in Indian economy due to its diversified presence across the country and thereby utilizing resources and skills, which would have otherwise remained unutilized. Due to their potential to generate large-scale employment, produce consumer goods of mass consumption, alleviate regional disparities, etc. industrial policies protected the sector for its growth. The principal protective measures for SSI comprised:

i. Demarcating SSI from the rest of industry through a definition under the IDR Act, 1951,
ii. Concessional credit from the banking system,
iii. Fiscal concessions,
iv. Exemption from industrial licensing and labour legislations,
v. Preferential access to scarce raw materials, both domestic and imported,
vi. Market support from the Government through reservation of products for Government purchase and price preferences, and Reservation of products for exclusive manufacturing in SSIs and restrictions on the growth of output and capacity in the large-scale sector for products reserved for SSI manufacturing.

Since 1991 the protective emphasis of SSI policy has undergone dilution. The policy marked:

i. The beginning of an end to protective measures to small industry and
ii. Promotion of competitiveness by addressing the basic concerns of the sector namely technology, finance and marketing.

Policy on Industrial Delicensing

Launched: July 1991

Objective: To remove licensing requirements for domestic as well as foreign industries and enable business enterprises to respond to the fast changing external conditions.

Features

Industrial licenses are regulated under the Industries (Development and Regulation) Act 1951. At present, industrial license is required only for the following:

i. **Manufacture of items reserved for small scale sector by larger units:** An industrial undertaking is defined as small scale unit if the capital investment does not exceed Rs. 10 million (approximately $ 222,222). Non small-scale units can manufacture items reserved for the small-scale sector if they undertake an obligation to export 50% of the production after obtaining an industrial license.

ii. **When the proposed location attracts locational restriction:** Industrial undertakings to be located within 25 kms of the standard urban area limit of 23 cities having a population of 1 million as per 1991 census require an industrial license.

Excluding these, investors are free to set up a new industrial enterprise, expand an industrial enterprise substantially, change the location of an existing industrial enterprise and manufacture a new product through an already established industrial enterprise. Entrepreneurs will be free to make investment decisions on the basis of their own commercial judgment. Further industries will have freedom to take advantage of 'economies of scale' as well as 'economies of scope' in the current industrial policy environment.

Industrial Policy Resolution, 1980

Launched: 23rd July 1980

Objective: To promote competition in the domestic market, technological up gradation and modernization, encourage competitive export based industries and foreign investment in high-technology areas.

EBD_7894

Highlights

- Within a year of Congress came back in power, it announced its industrial policy in July, 1980. The Minister for Industry endorsing the philosophy of 1956 industrial policy announced certain major concessions and relaxations to help the growth of small, medium and large-scale enterprises with the objectives of modernization, expansion and development of backward areas.
- Government determined to promote such a form of industrialization in the country which can generate economic viability in villages. Handlooms, handicrafts, khadi and other village industries will receive greater attention to achieve a faster rate of growth in the villages.
- The industrial policy further stressed," "while making all efforts towards integrated industrial development, it is proposed to promote the concept of economic federalism with the setting up of a few nucleus plants in ancillaries and small and cottage units as possible". The broad socio-economic objectives of the policy were laid down as follows
  - i. Optimum utilization of installed capacity
  - ii. Correction of the agricultural regional imbalance through preferential developments of industrially backward areas
  - iii. Maximizing production and achieving higher productivity and higher employment generation
  - iv. Strengthening of the agricultural base by a preferential treatment to agro-based industries
  - v. Fasten promotion of export-oriented and import substitutions industries
  - vi. Consumer protection against high prices and bad quality
  - vii. Promoting economic federalism with an equitable spread of investment and dispersal of return amongst widely spread over small but growing units in the rural as well as urban areas.

Proposals of the Policy

(i) To improve the efficiency of Public Sector Enterprises : Industrial undertakings in this sector will be closely examined on a unit-by-unit basis and steps will be taken for effective development of management ciders in finance, production and marketing.

(ii) Integrating Industrial Development by Promoting the concept of Economic Federalism

- A nucleus plant is a plant/industry which makes products for other & exist around. It would concentrate on assembling the products of ancillary units falling within its orbit, on producing the inputs needed by a large number of smaller units and making adequate arrangements. The nuclei will also ensure a widely spread pattern of investment and employment and will distribute the benefits of industrialization to the maximum possible.
- The nucleus plants, would also work for upgrading the technology of small units.

(iii) Redefining the Small and Tiny Units

- In order to ensure that dispersed and decentralized small units are encouraged to provide additional income and large employment to the vulnerable among the industrial units, it was decided to raise the investment limits of small-scale undertakings;
  - a. Tiny sector units from Rs. 1 lakh to Rs. 2 lakhs;
  - b. Small-scale units from Rs. 10 lakh to Rs. 20 lakhs, and
  - c. Ancillaries from Rs. 15 lakhs to Rs. 25 lakhs.
- Industrial Policy 1980 reflects the approach of Janata Government towards creating artificial divisions between small and large scale industry. An exhaustive analysis of industrial products was undertaken and items capable of being produced in small sector were identified.
- It was notified that these items produced in small sector would be reserved for development in the small-scale sector and that the large- scale units would not be allowed to expand the production of these items. It is significant that while 180 items were reserved for extensive development in the small-scale sector between 1967 and 1977, their number has now increased to 807.

(iv) Regulations of Unauthorized Excess Capacities

- In April, 1980, the Government announced regularization of excess capacities but mentioned that FERA and MRTP companies will be considered on a selective basis.
- This facility was not given in respect of items reserved for the small sector. The facility was of automatic expansion up to 25 per cent of installed capacity was extended to all industries included in the First Schedule of Industrial Development and Regulation Act, 1951.

(v) State Policy on Mergers and Takeover of Sick Units

- The statement mentions that industrial units found guilty of deliberate mismanagement and financial improprieties leading to sickness would be dealt with firmly. "In the case of existing sick undertakings which show adequate potential for revival, it would be the policy of the government to encourage their merger with healthy units which are capable of managing the sick undertakings and restoring their viability".
- "Recourse to takeover of the management under the Industries (Development and Regulation) Act will be taken only in exceptional cases on grounds of public

interest where other means for the revival of sick undertakings are considered not feasible. Where such takeover becomes necessary the state government will, in such case, is expected to assume responsibility for the financing and management of the undertaking."

Conclusion

The Industrial Policy (1980, is motivated more by considerations of growth than by those of enlarging employment or curbing monopoly. It intends to liberalize licensing of large and big business houses. In the name of integrating the interests of small and large units, in a very shrewd way, it promotes the interest of big business at the cost of small enterprises.

Thus instead of adopting policies of economic decentralization, the Industrial policy will result in the promotion of a capital-intensive pattern of development.

In other words, the scheme of priorities outlined in our national planning has been pushed backwards and this is evidenced by the fact that big business has welcomed the new industrial policy, because in a number of case it has agreed not to refer cases of industrial licensing to the Monopoly and Restrictive Trade Practices Commission (MRTPC).

Industrial Policy Resolution, 1977

Launched: 23rd December, 1977

Objective: Development of small-scale sector, restrictive approach towards large business houses, expanding role of public sector.

Since the new policy was drafted by the hardcore Gandhians in the Janata Party, its major emphasis was on the growth and development of the small sector.

Features

1. Principal thrust was on the development of small industries

- The main thrust of the new policy was the effective promotion of cottage and small industries. It was declared that whatever can be produced by small and cottage industries must only be so produced.
- The small sector was classified in three categories
  - (A) Cottage and household industries to provide self-employment;
  - (B) Tiny sector having investment in plant and machinery upto Rs 1 lakh; and
  - (C) Small industries with an investment up to Rs 10 lakhs and ancillaries with an investment up to Rs 15 lakhs.

Main purpose of the classification was to design measures to specifically help the three sectors. The measures undertaken were;

i. Reservation list (for Small Industries) increased from 180 to 807 items.

ii. District Industries Centres (DICs) to be set up so that services and support required by small and village industries be availed under one roof. A separate wing of IDBI was to be set up to provide financial assistance to small scale industries.

iii. Khadi and Village Industries Commission to be strengthened. Nai Khadi or Polyester Khadi to be introduced.

iv. Appropriate technology to be developed by small and village industries.

2. Areas of Large scale sector

- The role of large sector was related to minimum basic needs programme via dispersal of small and village industries and to the strengthening of the agricultural sector.
- The large scale industries were to be the basic industries essential for providing infrastructure as well as for the development of small scale industries such as steel, non-ferrous metals, cement etc.
- The large scale industries also included capital goods industries for meeting the machinery requirements, needed for the development of large and small scale industries. It further included high technology industries, necessary for the development of agriculture.

3. Approach towards Large Business Houses

Large houses were to rely on internally generated resources for financing new projects or expanding existing projects. They were not to depend on public financial institutions and banks which were to be devoted to the growth of the small and medium scale units.

4. Larger role of the Public Sector

Besides producing important and strategic goods, public sector is expanded to act as a stabilizing force for maintaining supplies of essential consumer goods.

5. Approach towards Foreign Collaboration

- In areas where technological know-how is not needed, existing collaboration will not be renewed and foreign companies operating in such fields will have to modify their character and activities in conformity with national priorities, within the framework of the Foreign Exchange Regulation Act.
- It was also stated that in areas in which foreign collaboration was permitted, the majority interest in ownership and control would be in Indian hands, though the govern¬ment may make exceptions in highly export oriented and sophisticated technology areas. In hundred percent export oriented cases the Government may consider even a fully-owned foreign company.

6. Attitude towards sick Units

- It expresses its desire to help sick units in the interest of protecting employment but did not give blanket assurance to protect all sick units. It was stated that those units which were non-viable and continue to make losses year after years, may not be helped.

EBD_7894

- The IPR of 1977, failed to give a practical shape to its policies. The short period for which the Janata Party ruled the country was not enough to bring about a radical shift in favour of the small and cottage industries. The policy failed either to restrict big business or multinationals.

Industrial Policy Resolution, 1973

Launched: April 1973

Objective: To identify high-priority industries where investment from large industrial houses and foreign companies would be permitted.

Features

- Certain structural distortions called for policy changes in IPR 1956.
- Provide for a closer interaction between the agricultural and industrial sectors.
- Highest priority to the generation and transmission of power.
- Identify products to be reserved for the small scale sector: list of industries exclusively reserved for the small scale sector expanded from 180 items to more than 500 items.
- Within the small scale sector, a tiny sector was also defined with investment in machinery and equipment up to Rs.1 lakh & located in towns with a population < 50,000 according to 1971 census figures, and in villages, proposal for special legislation to protect cottage and household industries.
- Export obligations, merely for ensuring the foreign exchange balance of the project, would no longer be insisted upon while approving new industrial capacity.
- The areas of price control of agricultural and industrial products, the prices would be regulated to ensure an adequate return to the investor.

Industrial Policy Resolution, 1956

Formed: 30th April, 1956

Objectives

- Establishment of a socialistic pattern of society.
- It provided more powers to the governmental machinery.
- Expand the area of operation of public sector undertakings.

Features

This policy expanded the area of operation of public sector by bringing in 17 industries under the exclusive monopoly of this sector and adding another 12 industries to the domain of public sector. The industrial policy of 1956 adopted the following classification of industries into three categories:

Schedule 'A' Industries

This category included 17 industries. The future development of these industries was the exclusive responsibility of the state. These industries included arms and ammunition, atomic energy, railways, Aircraft building, ship building, iron and steel, coal, heavy electrical, etc.

Schedule 'B' Industries

Those which were to be progressively state-owned and in which the state would generally set up new enterprises, but in which private enterprise would be expected only to supplement the effort of the state.

Schedule 'C' Industries

All the remaining industries fell in the schedule C, the future development of which was left to the initiative of the private sector. The state, however, was to provide necessary assistance to private sector for development of industries.

Although there was a category of industries left to the private sector (Schedule C above), the sector was kept under state control through a system of licenses. In order to open new industry or to expand production, obtaining a license from the government was a prerequisite. Opening new industries in economically backward areas was incentivized through easy licensing and subsidization of critical inputs like electricity and water. This was done to counter regional disparities that existed in the country. Licenses to increase the production were issued only if the government was convinced that the economy required more of the goods.

Fair and non-discriminatory treatment for the private sector, encouragement to village and small-scale enterprises, removing regional disparities, and the need for the provision of amenities for labour, and attitude to foreign capital were other salient features of the IPR 1956.

Note: The Industrial Policy of 1956 is known as the economic constitution of the country or "The Bible of State Capitalism".

Industrial Policy, 1948

Launched: 6 April 1948

This policy was presented in the Parliament by then Industry Minister Dr. Shyama Prasad Mukherjee.

Objective: Democratic socialism through mixed economic structure.

Features

Under this policy, the large industries were classified in four categories.

1. ***Strategic Industries (Public Sector)***

This category included three industries in which Central Government had monopoly.

i. Arms and ammunitions
ii. Atomic energy and
iii. Rail transport

2. ***Basic / Key Industries (Public-cum-Private Sector)***

It was decided that the new industries in this category will henceforth only be set-up by the Central Government. However, the existing private sector enterprises were allowed to continue. Six industries taken under this category were:

i. Coal, Iron and Steel,
ii. Aircraft manufacturing,
iii. Ship-building,
iv. Manufacture of telephone,
v. Telegraph and wireless apparatus, and
vi. Mineral oil.

3. ***Important Industries (Controlled Private Sector)***

Eighteen industries were kept in the "Important Industries" category. Such important industries included heavy chemicals, sugar, cotton, textile and woolen industry, cement, paper, salt, machine tools, fertilizer, rubber, air and sea transport, motor, tractor, electricity etc. These industries will continue to remain under private sector however, the Central Government, in consultation with the state government, will have general control over them.

Other Industries (Private and Co-operative Sector).

All other industries which were not included in the above mentioned three categories were left open for the private sector. However, Government could impose controls on these industries also if any of them was not working satisfactorily.

Other features

- Including above industries, this policy endeavored to protect cottage & small scale industries also.
- It also emphasized on establishing harmonious industrial relations; gave high priority to fair wage rates; social security to workers and their participation in management.
- This policy had acknowledged the significance of foreign capital for industrialization of the country, but it was decided that the control should remain with Indian hands.

With this policy, India ushered into a mixed economy taking the society on socialistic pattern. The core idea was to keep the strategic and basic industries under the exclusive ownership /control of Government. The Central and state governments had a virtual monopoly in railroads and exclusive rights to develop minerals, iron ore etc. The 18 important industries were to be developed under direct control and regulation of the government.

Outcome: The Industries (Development and Regulation) Act was passed in 1951 to implement the Industrial Policy Resolution, 1948.

TRADE POLICIES IN INDIA

Foreign Trade Policy (FTP) 2015-2020

Released: 1st April, 2015

It is released by the Ministry of Commerce, Govt. of India.

Objectives

- To accelerate the economy from low level of economic activities to high level of economic activities by making it a globally oriented vibrant economy and to derive maximum benefits from expanding global market opportunities.
- To stimulate sustained economic growth by providing access to essential raw materials, intermediates, components, consumables and capital goods required for augmenting production.
- To enhance the techno local strength and efficiency of Indian agriculture, industry and services, thereby, improving their competitiveness.
- To generate employment. Opportunities and encourage the attainment of internationally accepted standards of quality.
- To provide quality consumer products at reasonable prices.

Features

- FTP is also known as Export Import (EXIM) Policy.
- Target of New foreign trade policy: $900 billion exports by FY20 and upping the Indian share of the world exports pie from the current 2% to 3.5% over the same period.
- The new Foreign Trade Policy (FTP) for the period 2015-20 was announced in April, 2015 which replaces the 2009-14 FTP which expired on 31st March 2014. With the announcement of new policy, exporters' one-year wait for new FTP has come to end.
- Export Import Policy (EXIM) in general, aims at developing export potential, improving export performance, encouraging foreign trade and creating favorable balance of payments position. Foreign Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).
- Foreign Trade Policy or EXIM Policy is a set of guidelines and instructions established by the DGFT (Directorate General of Foreign Trade) in matters related to the import and export of goods in India.
- The foreign trade policy, has offered more incentives to exporters to help them tide over the effects of a likely demand slump in their major markets such as the US and Europe.
- Foreign trade is exchange of capital, goods, and services across international borders or territories.

EBD_7894

In most countries, it represents a significant share of gross domestic product (GDP). While international trade has been present throughout much of history, its economic, social, and political importance has been on the rise in recent centuries.

- It is regulated by the Foreign Trade Development and Regulation Act, 1992.
- DGFT (Directorate General of Foreign Trade) is the main governing body in matters related to EXIM Policy.
- Foreign Trade Act has replaced the earlier law known as the Imports and Exports (Control) Act 1947.
- Indian EXIM Policy contains various policy related decisions taken by the government in the sphere of Foreign Trade, i.e., with respect to imports and exports from the country and more especially export promotion measures, policies and procedures related thereto.
- The FTP is updated every year on the 31st of March and the modifications, improvements and new schemes become effective from 1st April of every year.
- FTP 2015-20 introduces two new following schemes,
  - Merchandise Exports from India Scheme (MEIS) and
  - Services Exports from India Scheme (SEIS).

These schemes (MEIS and SEIS) replace multiple schemes earlier in place, each with different conditions for eligibility and usage.

- FTP would reduce export obligations by 25% and give boost to domestic manufacturing.
- Incentives (MEIS & SEIS) to be available for SEZs also. FTP benefits from both MEIS & SEIS will be extended to units located in SEZs.
- Both MEIS and SEIS firms and service providers can now get subsidized office spaces in SEZ (Special Economic Zones), along with other benefits.
- E-Commerce of handicrafts, handlooms, books, etc. eligible for benefits of MEIS. E-Commerce exports up to Rs.25000 per consignment will get SEIS benefits.
- **E-Commerce Exports Eligible for Services Exports from India Scheme.** – As part of Digital India vision, mobile apps would be created to ease filing of taxes and stamp duty, automatic money transfer using Internet Banking have been proposed. Online procedure to upload digitally signed document by Chartered Accountant/Company Secretary/Cost Accountant to be developed.
- Agricultural and village industry products to be supported across the globe at rates of 3% and 5% under MEIS. Higher level of support to be provided to process and packaged agricultural and food items under MEIS.
- Industrial products to be supported in major markets at rates ranging from 2% to 3%.
- Branding campaigns planned to promote exports in sectors where India has traditional Strength.
- Business services, hotel and restaurants to get rewards scrips under SEIS at 3% and other specified services at 5%.
- Duty credit scrips to be freely transferable and usable for payment of customs duty, excise duty and service tax.
- Nomenclature of Export House, Star Export House, Trading House, Premier Trading House certificate changed to 1,2,3,4,5 Star Export House. The allocation of the status will now be based on US dollars, instead of Indian Rupees.
- The criteria for export performance for recognition of status holder have been changed from Rupees to US dollar earnings. A new position called 'Status Holder' has been formulated, which will recognize and reward those entrepreneurs who have helped India to become a major export player. All IT and ITeS firms, Outsourcing companies and KPOs can rejoice.
- Manufacturers who are also status holders will be enabled to self-certify their manufactured goods as originating from India. – Tax and duty on Indian manufacturers have been reduced, to boost Make in India vision.
- Reduced Export Obligation (EO) (75%) for domestic procurement under EPCG scheme.
- Inter-ministerial consultations to be held online for issue of various licenses.
- No need to repeatedly submit physical copies of documents available on Exporter Importer Profile.
- Calicut Airport, Kerala and Arakonam ICDs (Inland Container Depots), Tamil Nadu notified as registered ports for import and export.
- Vishakhapatnam and Bhimavarm added as Towns of Export Excellence.
- Certificate from independent chartered engineer for redemption of EPCG authorization no longer required.

Impact on the Economy

- According to some experts the focus in this FTP has been "Simplicity and Stability". Accordingly, the policy on the one hand seeks to realign the multiple schemes with the objective of reducing complexities. On the other hand it wants to promote the increased use of technology to reduce the transaction cost and manual compliances.
- Supporters have given their verdict for this new FTP, stating it as 'progressive', 'path breaking' and 'development friendly' as exports of books, handicraft, handlooms, toys, textiles, defense and ecommerce platforms would be easier and faster.
- According to them, a big step is cleaning up the plethora of export promotion schemes and clubbing them under two schemes, one for goods (Merchandise Exports from India Scheme) and one for services (Services Exports from India Scheme).The duty scrips under these schemes come without conditions and can be freely transferred.

- It will move away from relying largely on subsidies and sops. Critics however point out that, this is prompted by World Trade Organization (WTO) requirements that export promotion subsidies should be phased out, but according to some experts there are ways of getting around it and other countries are doing it all the time.
- There has been talk of boosting services exports for quite a few years now, but information technology and information technology-enabled services (IT/ITES) dominated the basket. The share of this segment in the overall export basket is 50% and 90% in the services export basket.
- More importantly, this sector was overly dependent on western markets and, consequently, extremely vulnerable to even the smallest of developments there. The policy, fortunately, turns its attention to other sectors where India has inherent advantages, healthcare, education, R&D, logistics, professional services, entertainment, as well as services incidental to manufacturing.

INFRASTRUCTURE POLICIES

National Civil Aviation Policy 2016

Launched: 15th June, 2016

Objectives

- To take flying to the masses by making it affordable and convenient,
- To establish an integrated eco-system which will lead to significant growth of the civil aviation sector,
- To promote tourism, employment and balanced regional growth, enhance regional connectivity through fiscal support and infrastructure development.

Features

Regional Connectivity Scheme: This scheme will come into effect in the second quarter of 2016-17. Airfare will be about Rs 2500 per passenger for a one-hour flight. There will be no airport charges. State government will provide police and fire services free of cost; power, water and other utilities at concessional rates. Creation of Regional Connectivity Fund through a small levy per departure on all domestic flights other than Cat II/ Cat IIA routes. The scheme envisages RCS routes and small aircraft below 80 seats at a lower rate as decided by the government from time to time.

Route Dispersal Guidelines (RDG): Category I to be rationalized based on transparent criteria, i.e. flying distance of more than 700 km, average seat factor of 70% and above and annual traffic of 5 lakh passengers. The percentage of Cat. I traffic to be deployed on Cat. II and IIA will remain the same while for Cat III it will be 35%. Routes to Uttarakhand and Himachal Pradesh included in Category II. Revised categorization to apply from winter schedule of 2017.

5/20 Requirement: All airlines can now commence international operations provided that they deploy 20 aircraft or 20% of total capacity (in term of average number of seats on all departures put together) whichever is higher for domestic operations.

Bilateral Traffic Rights: The Government will enter into 'Open Sky' ASA on a reciprocal basis with SAARC countries and countries located beyond 5000 km from Delhi. For countries within 5000 km radius, where the Indian carriers have not utilized 80% of their capacity entitlements but foreign carriers /countries have utilized their bilateral rights, a method will be recommended by a committee headed by cabinet secretary for the allotment of additional capacity entitlements. Whenever designated carriers of India have utilized 80% of their capacity entitlements, the same will be renegotiated in the usual manner.

Ground Handling Policy: The airport operator will ensure that there will be three Ground Handling Agencies (GHA) including Air India's subsidiary/JV at all major airports as defined in AERA Act. At non-major airports, the airport operator to decide on the number of ground handling agencies, based on the traffic output, airside and terminal building capacity. All domestic scheduled airline operators including helicopter operators will be free to carry out self-handling at all airports through their regular employees.

Airport PPP/AAI: Encourage development of airports by AAI, state governments, the private sector or in PPP mode. Future tariffs at all airports will be calculated on a 'hybrid till' basis, unless specified otherwise in concession agreements. 30% of non-aeronautical revenue will be used to cross-subsidize aeronautical charges. Increase non-aeronautical revenue by better utilization of commercial opportunities of city side land. AAI to be compensated in case a new Greenfield airport is approved in future within a 150 km radius of an existing unsaturated operational AAI airport (not applicable to civil enclaves).

Aviation Education and Skill Building: Estimated direct additional employment requirement of the civil aviation sector by 2025 is about 3.3 lakh. All training in non licensed category will conform to National Skill Qualification Framework standards. Ministry of Civil Aviation will provide full support to the Aviation Sector Skill Council and other similar organizations/agencies for imparting skills for the growing aviation industry. There are nearly 8000 pilots holding CPL but who have not found any regular employment. The ministry will develop a scheme with budgetary support for type- rating of Pilots. The detailed scheme will be worked out separately.

New Energy Policy 2016

Launched: 21st November, 2016

Policy framework

In general, India's strategy is the encouragement of the development of renewable sources of energy by the use of incentives by the federal and state governments. Other examples of encouragement by incentive include the use of nuclear energy (India Nuclear Cooperation Promotion Act), promoting wind farms such as **Muppandal**, and solar energy

EBD_7894

(Ralegaon Siddhi). A long-term energy policy perspective is provided by the Integrated Energy Policy which provides policy guidance on energy-sector growth. Increasing energy consumption associated primarily with activities in transport, mining, and manufacturing in India needs rethinking India's energy production.

Objectives

- To access at affordable prices,
- To improve energy security and independence,
- Greater sustainability and
- Economic growth.

Features

- The NEP builds on the achievements of the earlier omnibus energy policy – the Integrated Energy Policy (IEP), and sets the new agenda consistent with the redefined role of emerging developments in the energy world. There is a need to support the trends which usher in efficiency by a proactive policy.
- The energy is handled by different ministries that have the primary responsibility of setting their own sectoral agenda; an omnibus policy was required to achieve the goal of energy security through coordination between these sources.
- This is also expected to mainstream emerging energy technologies, and provide consumer energy choices. While steps have already been taken by the government to embed many such developments in the sectoral energy policies, however, it is desirable to develop a clear roadmap so that there is clarity amongst all the stakeholders on the government's long-term energy agenda. Long term investors, both on supply and demand sides, need clarity on stable energy policy outlook.
- The new policy differs from the previous policy while including the issue related to sharp decline of crude oil prices, change in solar energy technology, heightened concern of climate change issues, ambitious target of renewable energy and rural electrification agenda adopted by the Government.
- All the Census villages are planned to be electrified by 2019, and universal electrification is to be achieved with 24x7 electricity by 2022. Intended Nationally Determined Contributions (INDCs) target at reduction of emissions intensity by 33%-35% by 2030, achieving a 175 GW renewable energy capacity by 2022, and share of non-fossil fuel based installed capacity in the electricity mix is aimed at above 40% by 2030.

Integrated Energy Policy 2016

For promotion of renewable energy, Government has amended the National Tariff Policy for electricity in January 2016. By this amendment several provisions for promotion of renewable energy have been made.

Features

The policy includes a plan to achieve 100 GW of solar capacity installation by 2022 through installation of projects under various schemes. Several schemes have been launched which are as follows:

- Scheme for development of solar parks and ultra mega solar power projects.
- Scheme for development of solar PV power plants on canal banks/canal tops.
- Scheme for setting up of 300 MW of grid connected solar PV power projects by defense establishments under Ministry of Defense and Para Military forces with Viability Gap Funding (VGF) under Batch-IV of Phase-II/III of National Solar Mission.
- Implementation of scheme for setting up of 1000 MW of grid-connected solar PV power projects by CPSUs with VGF under Batch-V of Phase-II of JNNSM.
- Implementation of scheme for setting up of 15000 MW of grid connected solar PV power projects under Batch II of Phase II of National Solar Mission (by NTPC/NVVN).
- Setting up of 2000 MW grid connected solar power with VGF through Solar Energy Corporation of India (SECI).
- Development of solar cities programme and solar zones in the country.

National Policy on Bio-fuels 2009

Objectives: The Policy aims at mainstreaming of bio-fuels and, therefore, envisions a central role for it in the energy and transportation sectors of the country in coming decades. The policy proposed accelerated development and promotion of the cultivation, production and use of bio-fuels to increasingly substitute petrol and diesel for transport and be used in stationary and other applications, while contributing to energy security, climate change mitigation, apart from creating new employment opportunities and leading to environmentally sustainable development. The goal of the policy was to ensure that a minimum level of bio-fuels become readily available in the market to meet the demand at any given time.

Features

- Bio-diesel production will be taken up from non-edible oil seeds in waste/marginal lands. An indicative target of 20% blending of bio-fuels, both for bio-diesel and bio-ethanol, by 2017 has been proposed.
- Minimum Support Price (MSP) for non-edible oil seeds would be announced with periodic revision.
- Minimum Purchase Price (MPP) for purchase of bio-ethanol and bio-diesel would be announced with periodic revision.
- Major thrust will be given to research, development and demonstration with focus on plantations, processing and production of bio-fuels, including second generation bio-fuels. Financial incentives,

including subsidies and grants, may be considered for second generation bio-fuels.

- A National Bio-fuel Coordination Committee will be set up to provide policy guidance and coordination.
- A Bio-fuel Steering Committee will be set up to oversee implementation of the Policy.

National Urban Transport Policy (NUTP) 2006

Objectives

- To bring about comprehensive improvements in urban transport services and infrastructure.
- To ensure safe, affordable, quick, comfortable, reliable and sustainable access for the growing number of city residents to jobs, education, recreation and such other needs within the cities. This was sought to be achieved by, incorporating urban transportation as an important parameter at the urban planning stage rather than being a consequential requirement.
- To encourage integrated land use and transport planning in all cities so that travel distances are minimized and access to livelihoods, education, and other social needs, especially for the marginal segments of the urban population is improved.
- To improve access of business to markets and the various factors of production; and
- To bring about a more equitable allocation of road space with people, rather than vehicles, as its main focus.

Features

- Integrated land-use and transport planning.
- Equitable allocation of road space.
- Promoting use of public transport.
- Priority to non-motorized transport.
- Parking.
- Freight traffic.
- Legal and administrative issues.
- Capacity building.
- Use of cleaner technologies.
- Innovative financing mechanisms.
- Association of the private sector

National Electricity Policy 2005

Launched: 12th February, 2005

Objectives

- Access to Electricity - Available for all households in next five years.
- Availability of Power - Demand to be fully met by 2012; energy and peaking shortages to be overcome and adequate spinning reserve to be available.
- Supply of reliable and quality power of specified standards in an efficient manner and at reasonable rates.
- Per capita availability of electricity to be increased to over 1000 units by 2012.
- Minimum lifeline consumption of 1 unit/household/day as a merit good by year 2012.
- Ensure financial turnaround and commercial viability of electricity sector.
- Protection of consumers' interests.

NATIONAL HOUSING POLICIES

Model State Affordable Housing Policy (2015)

Background

The National Housing and Habitat Policy (NUHHP), 2007, with a mandate of providing "Affordable Housing to All", envisaged that the States would prepare a State Urban Housing and Habitat Policy and also a State Urban Housing & Habitat Action Plan.

- To create an enabling environment for providing "affordable housing for all" with special emphasis on EWS and LIG and other vulnerable sections of society such as Scheduled castes/Scheduled Tribes, Backward Classes, Minorities and senior citizens, physically challenged persons in the State and to ensure that no individual is left shelter less.
- To promote Public Private People Participation (PPPP) for addressing the shortage of adequate and affordable housing. The target group for the said policy would be urban poor classified by MoHUPA, Government of India as persons belonging to the Below Poverty Line, Economically Weaker Sections (EWS) and Lower Income Groups (LIG) and would be applicable to all cities and towns, including that of Census Towns, to enable planned affordable housing provision.

Features

- The policy empowers the States to include passing of specific Acts by the States to achieve the housing policy objectives through institutional, legal & regulatory reforms, fiscal concessions, financial sector reforms and innovations in the area of resource mobilization for housing and related infrastructure development including promotion of cost effective building materials and technologies at the State level.
- The policy will also include an action plan and a pragmatic road map to achieve the objectives of the policy.
- Ministry had developed a Model State Affordable Housing Policy for Urban Areas and circulated the same for comments of various stakeholders.

The policy covers various kinds of housing viz.

- Ownership,
- Incremental,
- Rental/social,
- Shelters and other forms of housing.

EBD_7894

The key interventions and action points are focused on land, finance, legal and regulatory reforms, technology support and its transfer, provision of infrastructure, satellite/integrated townships, institutions, capacity building and sustainability Concerns.

The draft Model State Affordable Housing Policy (2015) outlines -

- Liberalized development control regulations for making land available
- Waiver of charges/taxes and increase fund flow to affordable housing
- Legal & Regulatory reforms – for entitlements/ tenure rights, regulatory frameworks cost effective sustainable technologies for bringing down housing prices
- Social and physical urban infrastructure for better quality of life

National Urban Housing & Habitat Policy (NUHHP), 2007

Features

- This Policy has been formulated keeping in view the changing socio-economic parameters of the urban areas and growing requirement of shelter and related infrastructure.
- The Policy seeks to promote various types of public-private partnerships for realizing the goal of "Affordable Housing for All" with special emphasis on the urban poor.
- Given the magnitude of the housing shortage and budgetary constraints of both the Central and State Governments, the policy focuses the spotlight on multiple stake-holders namely, the Private Sector, the Cooperative Sector, the Industrial Sector for labour housing and the Services/ Institutional Sector for employee housing.
- This Ministry has decided to revise the NUHHP, 2007 to reflect the changes in the recent past and taking forward the agenda of Government of India on "Housing for All" by 2022.
- The revised NUHHP, 2017 will incorporate various policy sub-components as different chapters to reflect the current direction of the Government of India. These may include shelters, skill development, rental/social housing, affordable housing etc.

National Housing Policy 1992

The National Housing Policy was formulated in 1992 and was approved by the Parliament in August 1994. The National Housing Policy recognized that rural housing is qualitatively different from urban housing.

Objectives

- Providing the necessary back up to support the construction of new and additional units and upgradation of the existing ones;
- Ensuring availability of land and conferring homestead rights;
- Minimizing displacement of rural households by developmental projects;
- Undertaking adequate rehabilitation measures for those affected by natural calamities;
- Promoting the use of locally available materials and construction practices;
- Providing basic infrastructure services including water, sanitation and roads;
- Offering protective discrimination to the weaker sections of society.

National Housing and Habitat Policy (NHP) 1988

The National Housing Policy and Habitat Policy emphasized in its preamble that housing is not only a commodity but also a productive investment. It promotes economic activities as well as creates the base for attaining several national policy goals.

Objectives

- To motivate and help all people and in particular the houseless and the inadequately housed, to secure for themselves affordable shelter through access to land, materials, technology and finance.
- To improve the environment of human settlements with a view to raise the quality of life through the provision of drinking water, sanitation and other basic services.
- The policy envisages priority for promoting access to shelter for the houseless and disadvantaged groups such as Scheduled Castes. Scheduled Tribes and freed bonded labourers, rural landless labourers and economically weaker sections.

Features

- Making available developed land at reasonable rates for housing, providing security of tenure to households both in rural and urban areas and developing a viable and accessible institutional system for the provision of housing finance are some of these strategies.
- The policy laid special emphasis on rural housing and recognized the complexities and intricacies of the situation. Accordingly, the policy put forth the following as the action plans.
    - i. Provision of house sites to Scheduled Castes, Scheduled Tribes, freed bonded labouers and landless labour, including artisans
    - ii. Provision of financial 72 assistance for house construction to them on suitable loan-cum-subsidy bases14.

Later, after about four years, the National Housing Policy was formulated in 1992 and was approved by the Parliament in August 1994. The National Housing Policy recognized that rural housing is qualitatively different from urban housing.

AGRICULTURE POLICIES

National Policy for Farmers 2007

Launched: 2007

Objectives: To improve economic viability of farming by substantially increasing net income of farmers.

Features

This policy is in line with the economic reforms consisting of Liberalization, Privatization and Globalization. This came at a time when the world started taking cognizance of climate change. In this background two major National Commissions were set up relating to agriculture in India:

The National Commission of Sustainable Agriculture, which is part of the Prime Minister's flagship National Action Plan on Climate Change, and

The National Commission on Farmers under the chairmanship of Dr. M S Swaminathan who contributed greatly to the implementation of the Green Revolution.

The Report of the Commission was adopted as the National Policy for Farmers 2007. The important features and provisions of the policy could be divided into two opposing approaches:

National Agricultural Policy (NAP) 2000

Launched: 2000

The Government of India, for the first time, published a comprehensive agricultural policy statement, the National Agricultural Policy (NAP) that sets out clear objectives and measures for all the important sub-sectors of agriculture. Over the next two decades, this policy aims to attain an agricultural growth rate in excess of 4 per cent per annum.

Objectives

- Efficient use of natural resources, while conserving soil, water and biodiversity.
- Growth with equity, i.e. growth which is widespread across regions and farmers.
- Growth that is demand-driven and caters to the domestic markets and maximizes benefits from exports of agricultural products in the face of challenges arising from economic liberalization and globalization.
- Growth that is sustainable technologically, environmentally and economically.
- The policy also seeks to utilize large areas of wasteland for agriculture and afforestation.

Features

The NAP calls for special efforts to raise crop productivity to meet the growing domestic demand for food and agricultural products. The major focus is on horticulture, floriculture, roots and tubers, plantation crops, aromatic and medicinal plants and bee-keeping. Higher emphasis is also placed on raising the production of animal and fish products. While the overall investment (public and private) in agriculture remains low (1% of the GDP), the reforms in domestic regulations would improve the incentive structure for increasing private sector investment in the agro-food sector and thus enhancing productivity growth.

The new policy also proposes to re-channel resources from agricultural input and price support measures to capital investment in the sector. The NAP also mentions private sector participation through contract farming, assured markets for crops, especially for oilseeds, cotton and horticultural crops, increased flow of institutional credit, and strengthening and revamping of the cooperative credit system and agricultural insurance as other important issues deserving policy attention. The NAP is a very comprehensive statement covering almost all dimensions of the Indian agriculture.

Land Reforms in National Agriculture Policy 2000

Launched: 2000

Objective: To protect interests of small and marginal farmers and increase their productivity.

Features

The land reforms launched during the 1950s and revisited in 1970s also find place in the National Agriculture Policy 2000. The policy states that Indian agriculture is characterized by pre-dominance of small and marginal farmers. Institutional reforms will be so pursued as to channelize their energies for achieving greater productivity and production. The approach to rural development and land reforms will focus on the following areas:

- Consolidation of holdings all over the country on the pattern of north-western states;
- Redistribution of ceiling surplus lands and waste lands among the landless farmers, unemployed youths with initial startup capital;
- Tenancy reforms to recognize the rights of the tenants and share croppers;
- Development of lease markets for increasing the size of holdings by making legal provisions for giving private lands on lease for cultivation and agribusiness;
- Updating and improvement of land records, computerization and issue of land pass-books to the farmers; and
- Recognition of women's rights in land.

Agriculture Policy: Economic Reforms Period (1991 Onwards)

Launched: 1991 onwards

Objective: To improve the functioning of markets, reduce excessive legislation and liberalizing agricultural trade.

EBD_7894

Features

The focus of agricultural policy since 1991 has shifted to improving the functioning of markets, reducing excessive legislation, and liberalizing agricultural trade. Economic reforms launched in the 1990s virtually bypassed the agriculture initially. However, the subsequent trade policy reforms have been aimed at liberalizing the export and import of agricultural and food commodities by gradually removing various restrictions and controls on agricultural trade.

Over the past 10-15 years, India's share in world agricultural trade has been gradually increasing, albeit from a low base. India has also taken an active role in promoting regional economic co-operation and trade in South Asia through the South Asian Association for Regional Cooperation (SAARC). In April 1993, a regional trading block was formed with the signing of the SAARC Preferential Trading Agreement, which was improvised in 2004 in the form of an Agreement on South Asian Free Trade Area (SAFTA) that supersedes the Agreement on SAARC Preferential Trading Arrangement.

However, there were several policy challenges facing the agricultural sector, including the need to reverse the sharp decline in output growth, which occurred in the late-1990s, and the need to ensure more sustainable use of the existing natural resources. A steady fall in the public sector investment in agriculture posed a big challenge which necessitated policy initiative to attract private investment in agriculture for the long-term growth and competitiveness of the sector. Another important challenge during this phase was on improving competitiveness along the agro-food chain, especially through enhancing efficiency in production, marketing and processing of agricultural commodities.

Land Reforms after Liberalization

Launched: 1991 onwards

Objective: To map land carefully and assign conclusive titles, facilitate land leasing and create a fair but speedy process of land acquisition for public purposes.

Features

The National Land Records Modernization Programme (NLRMP) which started in 2008 aims at updating and digitizing land records by the end of the Twelfth Plan. Eventually, the intent is to move from presumptive title — where registration of land does not imply that the owner's title is legally valid — to conclusive title, where it does. Digitization will help enormously in lowering the cost of land transaction, while conclusive title will eliminate legal uncertainty and the need to use the government as an intermediary for acquiring land so as to 'cleanse' the title. Given the importance of this programme, its rollout in various states needs to be accelerated.

For large public welfare projects, such as the proposed National Industrial and Manufacturing Zones and National Highway Project, large-scale land acquisition may be necessary. Given that the people currently living on the identified land will suffer significant costs, including the loss of property and livelihoods, a balance has to be drawn between the need for economic growth and the costs imposed on the displaced. The Land Acquisition, Rehabilitation and Resettlement Bill 2011 passed by the Lok Sabha recently, is likely to ensure the Right to Consent, Fair Compensation and Transparency to farmers in the process.

Agriculture Policy: Recent Trends

- Though green revolution has been widely diffused in irrigated areas throughout the country, the dry land areas have not seen benefit of technological breakthrough as witnessed through green revolution technology. Of late, improved varieties of oilseeds and coarse cereals have provided some opportunities for productivity growth in dry land areas.
- A new phase was started in India's economic policy in 1991 that marked significant departure from the past. Government initiated process of economic reforms in 1991, which involved deregulation, reduced government participation in economic activities, and liberalization.
- Though much of the reforms were not initiated to directly affect agriculture sector, the sector was affected indirectly by devaluation of exchange rate, liberalization of external trade and disprotection of industry.
- Then came new international trade accord and WTO, requiring opening up of domestic market. Initially there were strong apprehensions about the impact of trade liberalization on Indian agriculture which later on turned out to be real threat for several commodities produced in the country.
- All these changes raised new challenges and provided new opportunities that required appropriate policy response. Besides, last two decades had witnessed mainly price intervention that had a very limited coverage, and there was a sort of policy vacuum.
- Because of this, there was a strong pressure on the government to come out with a formal statement of agriculture policy to provide new direction to agriculture in the new and emerging scenario. In response to this, government of India announced New Agricultural Policy in July 2000.

Agriculture Policy: Post-Green Revolution Period (1980-91)

Launched: 1980-91

Objective: To expand green revolution technology to other crops and regions

Features

The next phase in agricultural policy development started in the early-1980s and was characterized by the expansion of green revolution technology to other crops and regions. This resulted in a rapid growth in agricultural output. During this period, the main policies aimed at encouraging investment

in the sector. Moreover, the agricultural economy started experiencing the process of diversification towards high-value commodities like milk, fish, poultry, vegetables and fruits. The growth in output of these commodities accelerated. Finally, the ongoing research on pulses, oilseeds and coarse grains started showing a positive impact with the expansion of these crops into the drier areas.

Agriculture Policy: Green Revolution Period (1965-80)

Launched: 1965-80

Objective: To attain self sufficiency in production of food grains

Features

- In the green revolution period, increase in productively became the main source of growth in crop output and there was significant acceleration in yield growth in green revolution period. The main source of productivity increase was technological breakthrough in wheat and rice.
- The country faced severe food shortage and crisis in early 1960s which forced the policy makers to realise that continuous reliance on food imports and aid imposes heavy costs in terms of political pressure and economic instability and there was a desperate search for a quick breakthrough in agricultural production. One choice before the country was to go for spread of new seeds of high yielding varieties (HYV) of wheat and rice which were available with CGIAR 3 institutes like CIMMYT and IRRI.
- Amidst a serious debate the then Government took bold decision to go for the import and spread of HYV of wheat and rice which involved use of fertilizers and irrigation. This marked second phase of agriculture policy in the country. The strategy produced quick results as there was quantum jump in yield. Consequently, wheat and rice production in a short span of 6 years between 1965/66 and 1971/72 witnessed an increase of 30 million tonnes which is 168 percent higher than the achievement of 15 years following 1950/51.
- The biggest achievement of new agricultural strategy, also known as green revolution technology, has been attainment of self sufficiency in food grains. Since the green revolution technology involved use of modern farm inputs, its spread led to fast growth in agro input industry. Agrarian reforms during this period took back seat while research, extension, input supply, credit, marketing, price support and spread of technology were the prime concern of policy makers.
- The Government of India adopted the approach of importing and distributing the high-yielding varieties (HYVs) of wheat and rice for cultivation in the irrigated areas of the country. This was accompanied by the expansion of extension services and increase in the use of fertilizers, agrochemicals and irrigation.
- A number of important institutions were set up during the 1960s and 1970s, including the Agricultural Prices Commission (now Commission for Agricultural Costs and Prices), the Food Corporation of India, the Central Warehousing Corporation, and State Agricultural Universities.
- Another major policy decision was the nationalization of major commercial banks to enhance credit flow to the agricultural sector. Several other financial institutions, for example the National Bank for Agriculture and Rural Development (NABARD) and Regional Rural Banks (RRBs), were also established to achieve this objective.
- The cooperative credit societies were also strengthened. This strategy produced quick results with a quantum jump in crop yields and consequently, in the food grain production. However, impact of the green revolution technology was largely confined to two crops, wheat and rice, and in the irrigated regions. The traditional low-yielding varieties of rice and wheat were replaced by the high-yielding varieties.
- The biggest achievement of the green revolution era was the attainment of self-sufficiency in food grains. The green revolution also had an impact on the agricultural input industry, resulting in a rapid growth in the fertilizer, seed and farm machinery industries.
- A significant increase in the funding of agricultural research and extension, marketing of agricultural commodities and provision of credit to farmers was also noted.

Minimum Support Price

Minimum Support Price (MSP) is a form of market intervention by the Government to insure agricultural producers against any sharp fall in farm prices. The minimum support prices are announced by the Government of India at the beginning of the sowing season for certain crops on the basis of the recommendations of the Commission for Agricultural Costs and Prices (CACP). MSP is price fixed by Government of India to protect the producer - farmers - against excessive fall in price during bumper production years. The minimum support prices are a guarantee price for their produce from the Government.

Objectives

- To support the farmers from distress sales and
- To procure food grains for public distribution.

In case the market price for the commodity falls below the announced minimum price due to bumper production and glut in the market, government agencies purchase the entire quantity offered by the farmers at the announced minimum price.

Historical perspective of MSP: The Price Support Policy of the Government is directed at providing insurance to agricultural producers against any sharp fall in farm prices. The minimum guaranteed prices are fixed to set a floor below which market prices cannot fall. Till the mid 1970s,

EBD_7894

Government announced two types of administered prices:

- Minimum Support Prices (MSP) and
- Procurement Prices.

The MSPs served as the floor prices and were fixed by the Government in the nature of a long-term guarantee for investment decisions of producers, with the assurance that prices of their commodities would not be allowed to fall below the level fixed by the Government, even in the case of a bumper crop.

Procurement prices were the prices of kharif and rabi cereals at which the grain was to be domestically procured by public agencies (like the FCI) for release through PDS. It was announced soon after harvest began. Normally procurement price was lower than the open market price and higher than the MSP. This policy of two official prices being announced continued with some variation up to 1973-74, in the case of paddy. In the case of wheat it was discontinued in 1969 and then revived in 1974-75 for one year only. Since there were too many demands for stepping up the MSP, in 1975-76, the present system was evolved in which only one set of prices was announced for paddy (and other kharif crops) and wheat being procured for buffer stock operations.

Pricing policy for sugarcane

The pricing of sugarcane is governed by the statutory provisions of the Sugarcane (Control) Order, 1966 issued under the Essential Commodities Act (ECA), 1955. Prior to 2009-10 sugar season, the Central Government was fixing the Statutory Minimum Price (SMP) of sugarcane and farmers were entitled to share profits of a sugar mill on 50:50 basis. As this sharing of profits remained virtually unimplemented, the Sugarcane (Control) Order, 1966 was amended in October, 2009 and the concept of SMP was replaced by the Fair and Remunerative Price (FRP) of sugarcane. A new clause 'reasonable margins for growers of sugarcane on account of risk and profits' was inserted as an additional factor for working out FRP and this was made effective from the 2009-10 sugar season. Accordingly, the CACP is required to pay due regard to the statutory factors listed in the Control Order, which are

- The cost of production of sugarcane;
- The return to the grower from alternative crops and the general trend of prices of agricultural commodities;
- The availability of sugar to the consumers at a fair price;
- The price of sugar;
- The recovery rate of sugar from sugarcane;
- The realization made from sale of by-products viz. molasses, bagasse and press mud or their imputed value (inserted in December, 2008) and;
- Reasonable margins for growers of sugarcane on account of risk and profits (inserted in October, 2009).

Agriculture Policy During 1950s

Launched: 1950 onwards

Objectives: To focus on the expansion of cultivated area and introduction of land reforms.

Features

Evolution of Agricultural Policies has remained a highly regulated sector in India with government agencies exercising a pervasive influence over it. These regulatory controls are imposed by both central and state governments. The state governments, however, continue to retain the constitutional authority over the sector.

After independence, India pursued a policy of food self-sufficiency in staple foods — rice and wheat. The policies were initially focused on the expansion of cultivated area, introduction of land reforms, community development, and restructuring of rural credit institutions. Trade was strictly regulated through quota restrictions and high tariff rates.

Abolition of the Zamindari System: The first major agricultural legislation enacted by the state governments after Independence was the Zamindari Abolition Act (1950s).

Objectives

- To eliminate land intermediaries,
- To ensure ownership rights to the tillers of land, and
- To ensure a permanent improvement in the quality of the landholding.

Features

- The government made additional changes to the land ownership policy to ensure greater equity in the rural society. These decisions involved placing a ceiling on the size of holdings, state control on idle or unused lands, and the distribution of some of the idle land to the underprivileged rural people.
- Provisions were also made to ensure that recipients of this land do not lease out or sell the land.
- The consolidation of fragmented and scattered landholdings was encouraged so that farmers could have better access to mechanization and land improvements could be made.
- The process of passing Zamindari Abolition Bills had started even when the constitution of India was not enacted.
- By 1956, Zamindari Abolition Act was passed in many provinces.

Agriculture Policy : Pre-Green Revolution Period (1950-65)

The period from 1950 to mid 1960s which is also called pre green revolution period witnessed tremendous agrarian reforms, institutional changes and development of major irrigation projects.

Features

- The intermediary landlordism was abolished,
- Tenant operations were given security of farming and ownership of land,
- Land ceiling acts were imposed by all the states to eliminate large sized holdings and cooperative credit institutions were strengthened to minimize exploitation of cultivators by private money lenders and traders,

- Land consolidation was also effected to reduce the number of land fragments,
- Expansion of area was the main source of growth in the pre green revolution period,
- Input subsidies,
- Minimum support prices,
- Public storage,
- Procurement and distribution of food grains, and
- Trade protection measures.

The main policy thrust was on enhancing food production and improving food security through agrarian reforms and large-scale investment in irrigation and power. Other policy measures during this period included enhancing of farmers access to credit, markets and extension services.

LABOUR AND EMPLOYMENT POLICIES

National Policy for Skill Development and Entrepreneurship 2015

Visions

- To create an ecosystem of empowerment by Skilling on a large scale at Speed with high Standards and
- To promote a culture of innovation based entrepreneurship which can generate wealth and employment so as to ensure Sustainable livelihoods for all citizens in the country.

Establishment of Pradhan Mantri Kaushal Vikas Yojana (PMKVY) with aims;

- To incentivize skill training by providing financial rewards to candidates who successfully complete approved skill training programmes.
- To skill 2.4 million youth, across India.
- A Skill Loan scheme is launched under which bank loans ranging from Rs.5,000 to Rs.1,50,000 will be made available to 3.4 million youths seeking to attend skill development programmes.
- The government also launched a skill card, which can be used by employers to verify the training credentials of job seekers.

The government plans to introduce five new labour bills.

i. The Industrial Relations Code Bill 2016,
ii. Wage Code Bill 2016,
iii. The Small Factories (Regulation of Employment and Conditions of Services) Bill,
iv. The Shops and Establishments (Amendment) Bill, and
v. Employees Provident Fund and Miscellaneous Provisions (Amendment) Bill.

Once passed, the industrial relations code will facilitate easier hiring and retrenchment in factories,

A previous draft of the proposed law suggested that companies need not seek prior approval for retrenching up to 300 employees in case of an emergency. The Employees Provident Fund and Miscellaneous Provisions (Amendment) Bill seeks to position the National Pension System (NPS) as an alternative to Employees' Provident Fund (EPF). Similarly,the wage code bill seeks to offer health insurance as an alternative to Employees State Insurance Corporation's health facilities for industrial workers.

Skill and Capacity Development Policies and Programmes of the Government

The development of training schemes at national level, evolution of policy, laying of training standards, procedures, conducting of examinations, certification etc are the responsibility of the Central Government, whereas the implementation of the training schemes largely rests with the State/U.T. governments.

- The Craftsmen Training Scheme (CTS) was introduced in 1950 for imparting skill training among unemployed youth.
- The Apprenticeship Training Scheme is meant to develop skills among youth in their formative years. The Apprentices Act, 1961 was enacted with the objective to utilize the facilities available in industry for imparting practical training with a view to meeting the requirements of skilled manpower. Initially, the Act covered the apprenticeship training for the trade Apprentices and subsequently amended in 1973, 1986 and 2014 to bring the Graduates, Technician, Technician (Vocational) and Optional Trade Apprentices respectively under its purview.
- Women's Vocational Training Programme was introduced in 1977. The programme aimed at providing vocational training to women worker, thereby enhancing their employability by providing training through a network of Women's Vocational Training Institutes.

Government Policy for Providing Employment Services to Public

Features

- After the independence, government formulated policies for resettlement of a large number of displaced persons (refugees) due to partition of the country.
- The employment service was made the joint concern of the Central and State Governments where the Central Government formulates national policies, standards and procedure to be followed by the Employment Exchanges in the states,
- Coordinates the work of the Employment Exchanges in the states,
- Plans and formulates programmes for expansion and development of the services,
- Conducts training programmes for employment officers and other such works which are required

EBD_7894

for the betterment of these services whereas State Governments fully control the Employment Exchanges in their respective states.

- The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 provides for compulsory notification of vacancies and submission of employment returns by the employers to the employment exchanges. The Act applies to all establishments in the public sector and such establishments in the private sector as are engaged in non-agricultural activities and employing 25 or more workers.
- Directorate General of Employment and Training (DGET) operates National Employment Service (NES). NES works through the Employment Exchanges (Compulsory Notification of Vacancies) Act 1959. It operates through a network of 947 employment exchanges.

Functions of NES

- Registration and placement of job-seekers so as to ensure a proper balance between demand and supply.
- Collect comprehensive Employment Market Information for creation of data base.
- Career Counseling and Vocational Guidance.
- Conduct area specific specialized study/surveys to have an assessment of skills available and the marketable skills required for encouraging the job-seekers for self-employment.
- Some of the State Governments disburse unemployment allowance to certain specific categories of job seekers out of their own resources through the employment exchanges.

Government Policy for Workers in Unorganized Sector

Objective

- To ensure welfare of workers in the unorganized sector which, inter alia, include weavers, handloom workers, fishermen and fisherwomen, toddy tappers, leather workers, plantation labour, beedi workers.

Features

- The Unorganised Workers' Social Security Act, 2008 has been enacted.
- As per the provisions of the Act, a National Social Security Board has been constituted for recommending formulation of social security schemes viz. Life and disability cover, Health and maternity benefits, Old age protection and any other benefit as may be determined by the Government for unorganized workers.

Recent Government Policy for Labour and Employment Development

The government has reviewed its policy to provide employment service to general public. The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 which was enacted about five decades back has become redundant and requires modification. The States were also experiencing difficulties in implementation of the Act and a number of suggestions were received for amendment to the provisions of the Act. So the government introduced the Employment Exchanges (Compulsory Notification of Vacancies) Amendment Bill, 2013.

- The Ministry of Labour and Employment on 20 July 2015 launched the National Career Service (NCS) Project by transforming the processes in the network of Employment Exchanges.
- The 978 Employment Exchanges including the 75 University Employment Information and Guidance Bureau are now transformed into career centers.
- In fact, the hitherto existing web based National Employment Service comprising of a network of 978 Employment Exchanges is now transformed into National Career Service (NCS) by leveraging information technology to improve the delivery of services.
- In many states, the previous system still required job seekers to physically visit the Employment Exchanges for registration, verify their records and wait for opportunities to come. Similarly, the employers had to visit Employment Exchanges for posting job vacancies and obtaining a list of eligible candidates with little flexibility.
- The NCS portal provides a nation-wide online platform for jobseekers and employers for job matching in a dynamic, efficient and responsive manner.

Employees' Social Insurance Policy

Launched: 1948

Features

- The first policy on social insurance was based on 'Report on Health Insurance' submitted to the Tripartite Labour Conference, headed by Prof. B.P. Adarkar, an eminent scholar and visionary.
- The ESI Act was enacted in 1948 and came into effect from 24 February 1952. The act was initially intended for factory workers but later became applicable to all establishments having 10 or more workers.
- The government has also set up the Employees' State Insurance Corporation (ESIC) on 25 February 1952 under the ESI Act, which is an autonomous corporation under Ministry of Labour and Employment.
- The corporation can raise loans and can acquire both movable and immovable property and can also set up hospitals either independently or in collaboration with state government or other private entities.
- ESIC is tailored to provide social protection to workers, immediate dependent or family, in the organized sector, in contingencies, such as, sickness, maternity and death or disablement due to an employment injury or occupational hazard.
